(4) a. Action regarding Minutes, April 2, 2019

b. Action regarding Resolution No. 2019-09 to Deny the Distribution Cost Recover Factor Application filed by Oncor Electric Delivery Company LLC

*Summary: On April 8, 2019, Oncor Electric Delivery Company LLC (Oncor) filed an Application for Approval to Amend its Distribution Cost Recover Factor (DCRF) to Increase Distribution Rates with each of the cities in their service area. Resolution No. 2019-09 authorizes the City to join with the Steering Committee of Cities served by Oncor to evaluate the filing, determine whether the filing complies with law, and if lawful, determine what further strategy, including settlement to pursue.*

c. Action regarding Acceptance of Street Right-of-Way Dedication for Worthy Street

*Summary: Racetrac is currently preparing to expand its development on property located on the southwest corner of Worthy Street and U.S. 287/Saginaw Blvd. The expansion is to provide a diesel fueling station to supplement the existing Racetrac to the south. In order to accommodate increased pavement loading and turning radii needed for larger vehicles, staff is requiring the reconstruction of Worthy Street to a 40 foot wide concrete pavement extending from U.S. 287/Saginaw Boulevard to the west property line of Racetrac's property. The right-of-way required for the expansion will be taken from the Racetrac lot. Acceptance of the Worthy Street Right-of-Way Dedication is recommended.*

d. Action regarding Approval of an Individual Project Order (IPO) with Kimley-Horn and Associates, Inc. for McLeroy Boulevard Curb and Gutter Replacement

*Summary: East McLeroy Boulevard has been identified as a high priority candidate for street maintenance and/or reconstruction. The previous rehabilitation of McLeroy Boulevard occurred approximately seven years ago. During the rehabilitation, the subgrade and base under the roadway surface received minimal treatment contributing to its poor condition. Ultimately, the street section will be reinforced concrete over a treated subgrade as currently shown in the City's Capital Improvement Program. That section should have a useful service life in excess of thirty years.*

*Until the ultimate street reconstruction can be funded, staff is proposing to reconstruct it to an interim asphalt section utilizing a private contractor and Tarrant County resources. The proposed pavement section is 4" asphalt over 4" flex base over lime stabilized subgrade. The pavement section should have a service life of twenty years or more. Funding will come from the Street Maintenance Funds. The plan is to replace 100% of the curb and gutter from Samson Drive to FM 156. Following curb and gutter replacement, staff will assess, based on available funds, the length of pavement replacement within the same limits and return to the Council with an Interlocal Agreement with Tarrant County. Kimley-Horn and Associates, Inc. will prepare the contract documents for the curb and gutter replacement under the proposed Individual Project Order. The summary of tasks and costs are: Task 1-Construction Documents Preparation-\$6,000; Task 2-Bidding-\$3,500; and Task 3-Construction Phase Services-\$4,000 (Total \$14,000). Funds are available in the Street Maintenance Fund for this expenditure.*

In order to accommodate increased pavement loading and turning radii needed for larger vehicles, staff is requiring the reconstruction of Worthy Street from U.S. 287/Saginaw Boulevard to the west property line of Racetrac's property. The required right-of-way will come from the Racetrac property. Councilmember Farr expressed his concern that TxDOT has not approved widening the driveway on U.S. 287/Saginaw Boulevard.
