SAGINAW PUBLIC LIBRARY

Monthly Report • July 2026

Events • Projects • Updates

- Summer Reading Club: SRC was a big hit in its second half, with programs for children like Popsicles with the Police, getting the Saginaw FD out to open up our fire hydrant for old-fashioned water play, the Bubble Truck, and more! We also hosted a bunch of teen activities: gaming, art, and outdoor activities. The adults really came through in their reading-- the final totals were 1019 books read for themselves, and another 1179 books read to children. What a great summer! We want to especially thank the Library Boosters and all our community partners for their donations to our Summer Reading Program.
- Adult Education: Ronnie, Megan, and two of our volunteer tutors attended the Literacy Texas conference, getting training and support in how to teach and develop programs for adults.
- Outreach: We had a booth at the Touch a Truck event hosted by the PD, and were encouraged to hear so many families that we talked to say "we come to the Library all the time"!
- Adult Education: Ronnie and Megan trained a new volunteer GED Instructor, Uzair. We are so grateful for all the volunteers that help us make this program possible.

26-000144	Building Maintenance	normal	Responded to a report that the air conditioning units at the Public Works building were not maintaining the desired indoor temperature. Inspected the HVAC systems and verified that all equipment was operating properly at the time of the inspection. Checked the air filters and confirmed they were last replaced on June 22, 2026. As part of preventative maintenance, cleaned the exterior condenser coils by rinsing the outdoor units with water to improve airflow and efficiency. Based on the inspection, the reduced cooling performance may be due to low refrigerant levels or the extreme outdoor temperatures affecting the units' ability to keep up with the cooling demand. The systems will continue to be monitored, and if performance does not improve, further troubleshooting or service may be required.	205 Brenda Ln	Felipe Rodriguez	07/09/2026 at 3:42 PM	07/09/2026 at 10:20 AM	Felipe Rodriguez	Complete	07/09/2026 at 3:43 PM	1	26-000144-001	Building Maintenance HVAC	Responded to a report that the air conditioning units at the Public Works building were not maintaining the desired indoor temperature. Inspected the HVAC systems and verified that all equipment was operating properly at the time of the inspection. Checked the air filters and confirmed they were last replaced on June 22, 2026. As part of preventative maintenance, cleaned the exterior condenser coils by rinsing the outdoor units with water to improve airflow and efficiency. Based on the inspection, the reduced cooling performance may be due to low refrigerant levels or the extreme outdoor temperatures affecting the units' ability to keep up with the cooling demand. The systems will continue to be monitored, and if performance does not improve, further troubleshooting or service may be required.	205 Brenda Ln	Felipe Rodriguez	07/09/2026 at 3:42 PM	07/09/2026 at 10:20 AM	Felipe Rodriguez	Complete	07/09/2026 at 3:43 PM	1	26-000144-001	Building Maintenance HVAC	Responded to a report that the air conditioning units at the Public Works building were not maintaining the desired indoor temperature. Set the thermostat to 65 degrees and monitored the unit's operation to verify its cooling performance. Inspected the evaporator coils and air filters, confirming that both were clean and in good condition with no visible issues. The HVAC system successfully cooled the building to the set temperature within the expected timeframe, indicating that it was operating normally during the inspection. The system will continue to be monitored for any recurring issues, and a follow-up visit is planned to clean the exterior condenser coils as part of preventative maintenance to help maintain peak efficiency.	620 Park Center Boulevard, Saginaw, Texas 76179	Felipe Rodriguez	07/14/2026 at 3:20 PM	07/14/2026 at 9:00 AM	Felipe Rodriguez	Complete	07/14/2026 at 3:20 PM	1	26-000218-001	Building Maintenance HVAC	Responded to a report of HVAC issues at the Community Center and performed a thorough inspection of the system. 26-000219	Building Maintenance	normal	Responded to a report of a leaking sink drain in the men's restroom and performed troubleshooting to identify the source of the leak. Determined that the drain pipe was not seating properly because the drain stem was too long, preventing a proper seal. Removed the necessary components and trimmed approximately one inch from the stem to allow the drain pipe to align and seat correctly. Reassembled the drain assembly and tested the repair by running water through the sink. 26-000219	Building Maintenance	normal	Responded to a report of a leaking sink drain in the men's restroom and performed troubleshooting to identify the source of the leak. Determined that the drain pipe was not seating properly because the drain stem was too long, preventing a proper seal. Removed the necessary components and trimmed approximately one inch from the stem to allow the drain pipe to align and seat correctly. Reassembled the drain assembly and tested the repair by running water through the sink. 26-000349	Daily Checklist for Parks	normal	Cleaned up trash that had been left behind after games. The area contained numerous discarded beer cans, broken canopy frames, and other litter that had been abandoned by softball players and spectators. I carefully collected and disposed of the debris, restoring the area to a clean and safe condition. Removing the trash helped improve the appearance of the park, reduced potential safety hazards, and ensured the space remained welcoming for future visitors.
