Engineering Fees

PRIVATE DEVELOPMENT

Street, utility and water main fees for private developments apply in situations where developers decide to construct the public improvements themselves rather than have the City of Shakopee construct them via a public improvement project.

The fees and charges collected are intended to reimburse the city for all direct and indirect costs incurred by the Public Works Department to process the development application, process and administer the project, review and approve the plans for the project, inspect the construction of the project and inspect and maintain the project once complete.

The fees and charges below are collected prior to recording of the plat, unless otherwise noted.

The percentages and rates are based on historical costs incurred by the city and are reviewed on an annual basis.

Street and Utility Fee

This fee is a lump sum of 7.5% of the construction costs for the following public improvements: streets, sidewalks, boulevard trees, sanitary sewer, storm sewer and other associated appurtenances. Adjustments to this fee must be approved by the City Engineer based on additional or reduced services, e.g., when the developer provides 100% construction inspection, the fee would be reduced to 5%.

Watermain Fee

This fee is a lump sum of 7.5% (this includes 1.5% for administration and 2.5% for plan review/coordination and 3.5% for inspection) of the construction costs for the following public improvements: watermain and other associated appurtenances. On private development projects where no City infrastructure (streets, sidewalk, sanitary sewer, storm sewer, etc.) is required, however public watermain shall be installed SPU will provide complete construction observation and will collect fees necessary for this observation. The City will not be required to provide construction observation for this infrastructure and will not collect the necessary watermain inspection fees.

Please note, Shakopee Public Utilities (SPU) requires separate fees/charges not listed in this document. Therefore, you will need to contact SPU at 952-445-1988 to obtain these amounts.

Wetland Conservation Act (WCA) Administration

Please note, if outside consultants are used, their total costs will be charged to the developer. If City of Shakopee employees are used, their hourly rates and a multiplier of 2.0 will be charged to the developer.

- WCA Application ~~\$258~~/application + hourly rates
 - WCA Application – Wetland Boundary/Type ~~\$267.00~~/application + hourly rates
 - WCA Application – Replacement Plan ~~\$267.00~~/application + hourly rates

Water Connection Charge (WCC)

The Shakopee Public Utilities Commission's (SPU) WAC = Trunk Water Charge (TWC) + Water Connection Charge (WCC) as defined by SPUC.

The TWC is due at the time "water availability" is desired by the property owner, usually at time of platting. The TWC can sometimes be paid by city assessments but is usually paid in a lump sum directly to SPU by the property owner/developer. SPU defines property areas granted water availability by resolution. In some instances, water mains are adjacent to a given property, but the TWC has not yet been paid and consequently water is not yet available. In all cases, prior to water main construction plan approval for water mains to be installed within property the applicable TWC must be paid in advance of plan approval.

The WCC is due at the time a building permit is requested for new construction or building expansion. The WCC is paid directly to SPU and is usually based on the Metropolitan Council's SAC unit determination plus an additional per-square-foot charge for "industrial use" spaces. SPU's WCC policy provides for additional WCC fees based on actual water usage that is in excess of the assigned SAC unit values.

Please note Shakopee Public Utilities calculates and collects these charges. Therefore, you will need to contact them at 952-445-1988 to obtain these amounts.

Notes for the Planning Fees:

Administrative Costs – Actions requiring payment for administrative costs may be billed to the applicant. Administrative costs may include, but are not limited to, the following: staff time (including regular city employees and contracted employees), publishing costs, copying, printing and mailing. The actual hourly rates of the employees will be used plus a multiplier of 2.0 times for benefits. A deposit of \$100 will be required to begin the work, any unused portion will be returned and invoices provided for work in excess of \$100 before work proceeds. Administrative costs will accrue after the first meeting with the applicant.

Any escrows received by the city shall be monitored to ensure sufficient escrow funds are held by the city. When an escrow account reaches a balance of 10% of the original escrow amount, the city shall invoice the applicant for the submittal of additional escrow funds in an amount consistent with the original escrow submittal. This process shall continue until the city has completed all necessary reviews.

Escrows requested by city departments are detailed on billing generated by various city departments depending on the scope of the project.

Building Inspection Fees

Fees are calculated based on the most recent building valuation tables published by the International Code Council (ICC). The building valuation is based on the total value of all construction work, including plumbing, electrical, mechanical systems, finish work and labor, even if the owner is doing the work.

ELECTRONIC PROCESSING FEE FOR ALL PROJECTS, PERMITS AND LICENSES

Sanitary Sewer Service Availability Charge (SAC) and Water Availability Charge (WAC)

Sanitary Sewer Service Availability Charge (SAC) units for various residential, commercial, public and institutional facilities will be applied as specified in the latest Metropolitan Council SAC procedures manual.

The Metropolitan Council established SAC fees on an annual basis. These fees are collected by the city but are paid to the MET Council on behalf of the applicant. Current fees and how they are calculated is available here:

<https://metro council.org/wastewater-water/funding-finance/Rates-Charges/Sewer-Availability-Charge.aspx>

The WAC charge is paid to Shakopee Public Utilities (SPUC) for water service and is typically based on the number of SAC units. Contact SPUC for the current fees. Please note Shakopee Public Utilities calculates and collects these charges. Therefore, you will need to contact them at 952-445-1988 to obtain these amounts.

Change of Occupancy Fee

If you intend to change the tenant or use of a commercial property, you must notify the city to ensure that the new use complies with zoning regulations. This requirement applies whether the usage change applies to one tenant (i.e., office space to physician's practice) or the entire building (i.e., retail to restaurant).

- If no change to occupancy classification \$50

Notes for the building fee schedule:

RECREATION PROGRAM FEES

Recreation program participants are charged fees to cover costs associated with the program. These fees are designed to cover the direct cost of the program, including part time salaries and supplies, as well as a portion of administrative overhead and direct supervisor costs. A small percentage is then added to the direct program costs to account for non-direct program costs. These fees vary depending on the program type, supplies costs, length of the program, etc. A \$10 service fee will be charged for changes/class cancellations prior to the registration deadline. No refunds will be given after the registration deadline. Published fee does not include sales tax.

Program and service fees are established based on the full cost of delivery, inclusive of both direct and indirect expenses, and in accordance with the department's adopted comprehensive revenue policy. Each program is classified within one of four pricing tiers, ranging from community benefit to profit center, which determines the proportion of costs to be recovered through participant fees. Resident rates are intentionally set lower than nonresident rates to acknowledge the financial contribution residents provide through local taxation. Nonresident program fees are established at 30 percent above the resident rate. Tier 4 programs operate as profit centers and are priced at market value to generate revenue in excess of total costs, which supports the sustainability and accessibility of community-based offerings.

Tier	Description	Cost Recovery Target	Subsidy Level
1	Community Benefit	25%-50%	75%-50%
2	Mixed Benefit	50%-75%	25%-50%
3	Individual Benefit	75%-100%	Minimal Subsidy / Full Cost Recovery
4	Profit Centers	125%+	No Subsidy
