Nathan – thanks for checking in on this. We plan to start construction in the fall of 2026, carrying through the entire 2027 construction season I don't have exact details yet on construction phasing, but would expect that the trail work would all be done in 2027. I need to confirm this, but more than likely with the bank work in the fall of 2026, the trail may be impacted over the winter between 2026 and 2027. If that is the case, would that be a problem/would need to provide a temporary pedestrian trail route during this time?

Bidding won't occur until summer 2026 and we will make sure you are invited to a precon in late summer/early fall.
Alex

Nathan,
Yes, there will be some changes to the area. I will let Alex update you on the latest plans for Huber Park.
Thanks

Subject: Huber Park/Minnesota Valley State Trail

Hi Keith,

Is the City on track to reroute the State Trail through Huber park in 2026? Just want to make sure we are kept in the loop as this project develops including invites to the pre-con meeting. If I should reach out to others, please let me know.

Nathan
