11/23/2020 7:23	Concept 2 - Informal, nature inspired park	Accessible Kayak/ Canoe launch; Beach access; Informal Seating for gathering in smaller groups; Kayak Rental / Storage	Additional reasons Concept 2 is preferred: 1. Fishing pier is separated from swimming area rather than directly adjacent to it. 2. Kayak rental/storage is immediately adjacent to kayak entry area, rather than separated from it. Issues with both concepts: Kayaks enter and exit through the swimming area--it would better to keep these activities separated from each other. One solution in Concept 2 would be to locate the kayak ramp and a 10-15' wide kayak entry/exit area directly in front of the kayak rental/storage and reconfigure the swimming area to exclude the portion of the lake that is adjacent to the 10-15' wide kayak entry/exit area. To ameliorate the loss of swimming area, the beach and swimming area could be widened to the southwest by 10-15' while still maintaining sufficient separation from the relocated pier.	From an email
