I/We the undersigned have truthfully, to the best of our knowledge, completed the above application for a Town of Thunderbolt Fence Permit. I/We understand that the issuance of a Fence Permit, in no way constitutes the right to violate any Federal, State, County or Town of Thunderbolt Laws and/or Ordinances. I/We also attest to the fact that the Responsible Individual will call for the inspection of the Fence Holes prior to setting the posts and have all property corners exposed at that time. If property corners cannot be found, a survey is required to show exposed corners. In addition, I/We agree to call the Town of Thunderbolt (after all work has been completed) to perform its final inspection and approval of the work covered under this Permit.

I/we understand that failure to call for inspections will result in additional fees and possible license revocation.
