All work by the Town or contractors hired by the town for tree pruning, maintenance and removal will follow the related ANSI A300 standards and that all

trees planted on public property will follow the American Standard for Nursery Stock, ANSI 60.1. No ground-disturbing activities by private contractors or sub-contractors shall occur within the drip-line of any tree on town property without first receiving written permission from the building official. An ISA certified arborist may be retained to perform crown reductions as necessary to benefit the tree health or for reasons of public safety. Trees severely damaged by storms or other causes or certain trees under utility wires or other obstructions where other pruning practices are impractical may be exempt from this ordinance based upon regulations adopted by any utility within its rights-of-way at the determination of the Town Manager and/or recommendation of the tree board or department head. The Town Manager shall notify owners of such trees in writing to remove them at their own expense within thirty (30) days after the receipt of notice. In the event of failure by owners to comply with such provisions, the Town shall remove such trees and charge the cost of removal to the owners subject to the right of the property owner to appeal such action under § 13-221. (as added by Ord. #2010-7, June 2010)

No person shall cause the injury, mutilation or death of a tree, shrub or other plant (not including nonnative invasive species) located on Town property or within town rights-of-way by any act of vandalism or negligence or traffic accident without paying the cost of repair or replacement or the appraised dollar value of such tree, shrub or other plant. The value of trees and shrubs shall be determined in accordance with the latest revision of A Guide to the Professional Evaluation of Landscape Trees, Specimen Shrubs, and Evergreens, as published by the International Society of Arboriculture. Unless specifically authorized by the town manager or his/her agent, no person shall intentionally damage, cut, carve, transplant or remove any tree located on town property or within town rights-of-way; attach any rope, wire, nails, advertising posters or other contrivances to any tree located on Town property or rights-of-way; allow any volatile liquid or solid or impervious substance (concrete, asphalt, brick, stone, etc.) that is harmful to trees and root systems to come into contact with any tree located on town property or within Town rights-of-way; or set fire or permit any fire to burn nearby when such fire or heat thereof may injure any portion of any tree located on Town property or within town rights-of-way; or permit grade changes around or under any tree located on Town property or Town rights-of-way; or permit storage of materials directly on the root zone of any tree located on town property or within Town rights-of-way.
