## Shellfish Constable's Report

Board of Selectmen,

Norman W. Kirby, Chairman,

Westport, Mass.

Gentlemen:

I hereby submit the eleventh annual report of the Shellfish Constable.

The most of the appropriation has been spent in planting shells, moving scallop seed to deep water, dragging up starfish and buying more shells to plant in 1959.

Planted 275 cu. yds. of shells to catch spat.

Bought 266 cu. yds. of shells to plant in 1959.

Moved over one thousand bushels of seed scallops off the flats to deep water.

Dragged up 10 to 14 bushels Starfish.

We seem to have the starfish situation under control. Did not find them as thick as last year.

With the cooperation of the State we plan to try and get some soft shell clams started this year. We will also set shell bags to catch oyster spat.

Estimate of scallop catch	10,000 bu.
Estimate of quahogs taken	5,000 bu.
Estimate of oysters taken	2,000 bu.
Number of Commercial licenses	47
Number of Commercial Scallop licenses	79
Number family shellfish permits	733
Number family scallop permits	319
Number Restricted Area permits	11

Respectfully submitted,

GEORGE W. HART,

Shellfish Constable

## Board of Public Welfare

The Board of Public Welfare organized for the year ending December 31, 1958, by appointing Russell Davis as chairman.

### PERSONNEL

Agent and Clerk to the Board: Mrs. Thelma McHugh  
Medical Advisor: Dr. Frank J. Lepreau, Jr.  
Appraisor: Frank Slocum  
Social Worker: Mrs. Anne Dwyer Reilly, leave of absence since 4/7/58.  
Social Worker: Miss Edith Hinvies  
Social Worker: Mrs. Amelia Sellers, temporary provisional since 4/7/58.  
Jr. Clerk-Stenographer: Mrs. Amelia Sellers, transfer to Social Worker 4/7/58.  
Jr. Clerk-Stenographer: Mrs. Beverly Hancock.  
Jr. Clerk-Stenographer: Mrs. Susanne Smeaton, temporary provisional 4/14—12/31/58.  
Jr. Clerk-Stenographer: Mrs. Wilma Ferreira, emergency 30-day as of 12/4/58.

This has been another year with relatively the same case loads and home visits. However, there have been changes in the method of budgeting for fuel allowances and for payment for nursing home care in licensed nursing homes.

On January 1st, the per diem cost of hospital care increased for 1958, averaging \$1.10 a day and another \$1.05 a day for 1959 over 1958. The licensed nursing home per diem rate has been increased from \$5.75 to \$6.50 for 1959.

All cases receiving public assistance were studied in relation to the provisions of the Social Security Act of 1958 and persons eligible under any of the new rules have been instructed to apply for the additional

resources. The overall increases in the Social Security payments will mean a decrease in the grants for Old Age Assistance, Aid to Dependent Children, and Disability Assistance, to those cases receiving both Social Security payments and public assistance.

The responsibility of the Board of Public Welfare in the Civil Defense program has been duly recognized and the Agent attended the Civil Defense sponsored course, "Utilization of Community Resources" held at Topsfield. Training programs will be scheduled locally just as soon as volunteers for service in the many phases of the Civil Defense program which comes under the jurisdiction of Welfare will submit their names to the local Civil Defense Director or the Welfare Service Director at the Town Hall. Civil Defense is everyone's responsibility; as an active volunteer you can be doing your share.

## Report of the Trustees of the Westport Free Public Library

The Trustees of the Westport Free Public Library organized for the year ending December 31, 1958 as follows:

Secretary: Lawrence E. Cornell  
Chairman: Evelyn G. L. Tripp

### Library Hours:

Mondays 7:00-9:00 P.M.  
Wednesdays 2:30-4:30 P.M.  
Saturdays 2:30-4:30 P.M.

Book Buyers were the entire board, namely:

Lawrence E. Cornell  
Helen E. Ellis  
Rosamond F. Peirce  
Dorothy W. Smith  
Alice D. Tripp  
Evelyn G. L. Tripp

Early in 1958 Mr. and Mrs. Charles Brightman, who had served as librarians for many years retired. The Board then chose Mrs. Marie Carder from a group of applicants to serve as librarian.

A survey of the library was requested by the trustees, and this was taken on June 9, 1958 by Marie T. Sullivan, Public Library Consultant, through the Massachusetts Division of Library Extension, Boston, Massachusetts. Reports of this survey was later received, relating the condition of the library and recommendations for arriving at State standards.

Space does not permit repeating here contents of that survey, however, I quote in small part—"funds made available in Westport are not only way below national standards, and state standards, but also are so completely inadequate that according to latest avail-

able statistics, your community stands second lowest in the state of all towns in the 5000 to 7000 population range."

Copies of the report are available, if you desire one call the chairman. To say we need much is factual according to the report.

Organized groups can and have been helping us. The Westport Art Group is the leader. They have placed a collection of magnificent art books on our shelves. We thank them for their gift and deep interest. Others have added books to our shelves through gifts, and to these we too are most grateful.

The board feels library interest is growing and trusts public interest might develop to enable us to approach if not fully meet library standards.

Circulation of books, records and magazines is as follow:

	1957	1958
Juvenile	3,078	4,478
Adult	3,812	4,285
Non-fiction	794	1,011
Magazines	278	140
Phonograph Recordings	288	366
	<hr/> 8,250	<hr/> 10,586

The increase in circulation is apparent. Growth is steady and makes demands upon our facilities. We hope to increase library hours for 1959.

Our interest is to work toward giving the community what it should expect from its public library. We welcome group interest and hope we might form a "Friends of the Library" group in the future.

Respectfully submitted,

EVELYN G. L. TRIPP,

Chairman

## Report of the Planning Board

Board of Selectmen  
Westport, Mass.

Mr. Norman W. Kirby, Chairman

Herewith is the Planning Board report for the year 1958.

The Planning Board was organized as follows:

William A. Holden, Chairman  
Frank J. Cassidy, Secretary  
Thomas R. Burrell III  
Arthur V. Tripp  
James Pilkington

The Town Planning Board really made several important achievements for a newly organized Board of civic minded men who knew very little about the requirements relative to planning the future of the Town of Westport.

During the year 1958, the town Planning Board members attended a total of 48 regular and special meetings in the conduct of its work. The Board has met at several different towns in the Southeastern Massachusetts discussing many phases of Town Planning. Members of the Planning Board devoted a total of 380½ hours without compensation in the pursuit of town interests.

Membership in the Southeastern Massachusetts Regional Planning District has been most helpful to the Planning Board in that several engineering studies and research were complete for the Regional Planning District, and the results made available to member boards of the region without cost other than paid up membership. If the town were to contract for these studies and research reports directly, the cost would

be in the tens of thousands. It must be remembered that, that which effects our neighbor effects the Town of Westport in varying measures. Membership in these associations has proved to be very beneficial to the Town Planners and very economical on the Town Treasury.

During 1958, a grand total of 25 Subdivision Plans were presented to the Planning Board for consideration and approval. Of this total, 12 were of the definitive type plans, one of these was not approved and referred to the Appeals Board, and 4 of them were withdrawn by the land owners. A total of 9 were in the class of not requiring Planning Board approval; these were considered and stamped accordingly. Four preliminary plans (rough drawing sketches) were submitted and considered; the Planning Board made suggested changes in the plans proposed as a means for approval of the definitive plans when drawn; of this total all 4 were withdrawn by the proposed developers.

The Planning Board members spent many long arduous hours in studying various town rules and regulations governing the Sub-division of land in preparation of the adoption of a set of Rules and Regulations for the Town of Westport. Every consideration in the preparation of these rules and regulations was given as being best for the Town of Westport and its future growth. The General Laws of the Commonwealth require certain regulations and these were inserted. The Planning Board feels quite sure that it has adopted rules and regulations governing the Sub-division of Land that is fair to the taxpayer and the developer of the Sub-Division.

These rules and regulations have been voted on by the Planning Board and adopted after a Public Hearing and Reading of the Rules and Regulations was held in the Town Hall, October 22, 1958. The law re-

quires they be filed with the Land Court in Boston and the Registry of Deeds in New Bedford. These requirements were met and complied with on December 4, 1958.

The Planning Board, with the assistance of the Planning Division of the Department of Commerce, Commonwealth of Massachusetts, has engaged in the development of a Town map. The need for such a map to show all streets and developments was felt on several occasions, and several townspeople suggested such a map. At present, a Civil Engineer is transferring and drawing many of the Sub-Division plans laid out prior to the inception of the present Planning Board.

Respectfully  
for the  
PLANNING BOARD  
WILLIAM A. HOLDEN, Chairman

## **Wharfinger's Report**

Westport, Mass.

To the Board of Selectmen  
Norman W. Kirby, Chairman,  
Westport, Mass.

Gentlemen:

I hereby submit the annual report of the Wharfinger for the year 1958.

Three pilings were driven and bolted to the dock. The top of the dock was resurfaced with gravel.

The sum of \$200.00 was spent for repairs during the year.

Eight fishing boats were berthed at the dock and the amount of \$351.00 paid for wharfage.

Respectfully submitted,  
HAROLD F. TRIPP,  
Wharfinger

ELMER B. MANCHESTER JR.,  
Town Accountant

## Auditor's Report

November 4, 1958

To the Board of Selectmen  
Mr. Norman W. Kirby, Chairman  
Westport, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the Town of Westport for the period from May 6, 1956 to May 24, 1958, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accounts.

Very truly yours,

HERMAN B. DINE,

Director of Accounts

HBD:BEV

Mr. Herman B. Dine  
Director of Accounts  
Department of Corporations and Taxation  
State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Westport for the period from May 6, 1956, the date of the previous examination, to May 24, 1958, the following report being submitted thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and checked with the books of the town accountant and the town treasurer.

The books and accounts of the accountant were examined. The receipts, as recorded, were checked

with the treasurer's books and with the records of the several departments collecting money for the town, while the payments were checked with the treasury warrants and with the books of the town treasurer.

The appropriations as listed from the town clerk's records of town meetings were checked with the town accountant's ledgers, the ledger accounts were analyzed, the necessary adjusting entries were made, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on May 24, 1958.

As may be seen from the appended balance sheet, there are overdue tax accounts dating back to 1942 and overdue motor vehicle and trailer excise accounts dating back to 1943. The reports of previous audits have called attention to these uncollected accounts, and it is again recommended that prompt action be taken to secure settlement of the delinquent accounts.

The books and accounts of the town treasurer were examined and checked in detail. The cash book was footed throughout, the reported receipts were compared with the departmental records of payments to the treasurer and with other sources from which money was paid into the town treasury, while the disbursements were compared with the town accountant's books and with the treasury warrants. The cash balance on May 24, 1958 was proved by reconciliation of the bank balances with statements furnished by the banks of deposit, by actual count of the cash in the office, and by verification of the savings deposit.

The recorded payments on account of maturing debt and interest were verified by comparison with the amounts falling due and were checked with the cancelled securities on file.

The savings bank books and securities representing the investments of the trust and investment funds in

the custody of the town treasurer were examined and listed, the income was proved, and the transfers to the town were checked with the treasurer's recorded receipts.

The records of tax titles and tax possessions held by the town were examined and reconciled with the collector's books and with the accountant's ledger. The redemptions of tax titles and sales of tax possessions were checked with the treasurer's cash book, and the tax titles and tax possessions on hand were listed and reconciled with the accountant's ledger.

The books and records relative to the public landing accounts in the custody of the town treasurer, as treasurer of the Town Landing Commission, were examined and checked in detail. The charges representing the leases of the several properties were examined and the payments to the treasurer were checked. The cash book was footed, and the cash balance on May 24, 1958 was proved by examination of the savings bank book and by verification of the cash in the office.

The books and accounts of the town collector were examined and checked in detail. The tax and excise accounts outstanding at the time of the previous examination, as well as all subsequent commitment lists, were audited and checked with the assessors' warrants issued for their collection. The recorded receipts were checked with the payments to the treasurer and with the accountant's books, the abatements as recorded were compared with the assessors' records of abatements granted, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

The records of departmental accounts receivable were examined and checked. The commitments were added, the payments to the treasurer were compared with the treasurer's cash book, and the outstanding accounts were listed and proved.

The outstanding tax, excise, and departmental accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The town clerk's records of dog, sporting, and town licenses and permits issued were examined, the payments to the State being verified by comparison with the receipts on file and the payments to the town treasurer being compared with the treasurer's cash book.

Th surety bonds furnished by the town officials for the faithful performance of their duties were examined and found to be in proper form.

The records of licenses and permits issued by the selectmen and the building inspector, as well as by the police and health departments, were examined and checked, the recorded collections being compared with the payments to the treasurer.

In addition to the departments mentioned, the available records of all other departments collecting money for the town or committing bills for collection were examined and checked, the recorded collections being compared with the payments to the treasurer.

There are appended to this report, in addition to the balance sheet, tables showing reconciliations of the cash accounts, summaries of the tax, excise, tax title, tax possession, departmental and public landing accounts, as well as schedules showing the condition and transactions of the trust and investment funds.

For the cooperation extended by all town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ

Assistant Director of Accounts

Question No. 1

Law Proposed by Initiative Petition

Do you approve of a law summarized below which was dis-  
approved in the House of Representatives by a vote of 73 in the  
affirmative and 132 in the negative and was approved in the Senate  
by a vote of 21 in the affirmative and 17 in the negative? Yes  
or No.

Summary

The proposed measure provides that every former public em-  
ployee, other than a judge, who is pensioned or retired for disability,  
shall report to his retirement authority, annually, his earnings from  
gainful occupation during the preceding year; and that, if such  
earnings, plus the pension, exceed the regular compensation of the

position formerly held, the pensioner shall refund that portion of his pension equal to such excess or the entire pension if such excess is greater than the pension. A refund, if required, shall not include any part of a pension represented by salary deductions from or special purchase by the former employee. The requirement of a refund is not applicable to income received in or prior of 1958.

### SCHOOL COMMITTEE POLICY RELATIVE TO CLOSING SCHOOLS BECAUSE OF WEATHER CONDITIONS

It is the policy of the Westport School Committee to have school for all grades on every school day that the Superintendent considers it safe for the school buses to operate.

"NO SCHOOL" signals will go out over the following radio stations:

WPRO—Providence

WSAR—Fall River

WNBH—New Bedford

Any or All Schools: 6:45—7:15 A.M.

Grades 1-6: In Emergencies: 7:45—8:00 A.M.

(To be sure, listen through the entire period).

Parents are in the best position to determine if weather conditions and the health of their children make it advisable to have them attend. When attendance is poor because of weather conditions, no advanced work will be presented by the teachers.

In case of an emergency closing of a single school, bus drivers will be asked to make their regular run and inform children at regular stops. Parents who are not usually at home during the day should make some advance arrangement for the care of their children in case of such an emergency.

### SPECIAL REPORTS

Annual Reports from our Supervising Principals, Supervisors, Director of Guidance, School Nurse and School Physician have been placed in your hands and are on file in this office.

## ELEMENTARY SCHOOLS

On October 1, 1958 there were 668 pupils enrolled grades 1-6. This is ten less than we had in 1957. The expansion of St. George School will tend to curtail our growth in grades 1-6.

At the Alice A. Macomber School we had 298 pupils enrolled in grades 2-6. At this school we have introduced the Joplin Plan in reading, grades 4-6. Later I shall quote directly from Miss Boodry's report relative to the operation of this plan. Its purpose is to have children reading at the level of their individual abilities. It is believed that in this situation their interest and effort are assured and their rate of progress is bound to increase. It provides a challenge for the more rapid readers while permitting the slower learners in this field to get the special help that they need.

At the Earle School we had 218 pupils enrolled in grades 1-6. Good instruction is being provided here and those going on to the seventh grade are more than holding their own.

In the north end we have two double grades and at the Earle School we have three double grades. There are those who believe that the double grade is a drag on both the teacher and pupils involved. I cannot subscribe to this belief. Individual differences in the interests and learning abilities of individual children are such that it is necessary in any classroom to divide the pupils into several groups. If the class enrollment is reasonably small and the groups in balance, I do not believe that there is any appreciable difference in the teaching and learning possibilities because of grade names. In any case, the particular group should be working at its level and making as much progress as is possible each day in the school year.

To eliminate double grades in the north end would involve having two first grade classes with as few as 20 pupils each and the employment of one additional teacher.

To eliminate double grades at the Earle School would mean transferring pupils to the Head School and employing two additional teachers. It would also mean the expansion of our transportation system and the taking of some pupils who live south of the Earle School to a building some few miles away. I doubt if such a move would appeal to the parents of those children involved.

In my opinion the Head School is now needed as an annex to our six-year high school.

The Earle and Point Schools have class enrollments close to the maximums desirable for effective teaching. If the south end of the town develops an expanding school population, more class rooms or "double shift" will be necessary. The day may be nearer at hand than we think when it will be necessary to consider the construction of a modern elementary school for the south end of town. Such a building should match in quality the Macomber School, should also be large enough to permit of some population growth, and should be located near enough to the Earle School so that the same transportation could serve both buildings if it were found necessary to have them both open. I recommend that a suitable site be selected and the town meeting be given an opportunity to purchase same. We can then be ready to proceed with construction should the need arise with a minimum of delay and confusion.

#### **Teacher Changes:**

Mrs. Lois Kelley was transferred from the Earle School to teach Junior High social studies and English. Mrs. Lillian Thibault returned to take Mrs. Kelley's place at the Earle School.

Mr. John Hart was transferred from the Macomber School to teach social studies and Junior Business Training at the High School.

Mrs. Mary Kelly and Mrs. Isabelle Sandberg were transferred to teach sixth grade at the Macomber School. The Head School was closed so no replacements for these teachers were necessary.

Mrs. Mary Wilkinson retired because of illness. I take this opportunity to thank her on behalf of Westport for her many years of faithful service to our children.

Changes at the High School are covered in Principal Wood's report.

### HIGH SCHOOL

On October 1, 1958 there were 554 pupils at the High School. This is 36 more than a year ago. Most of this increase is in the Senior High School years and this trend is due to continue.

To meet the present day demands for both more and better instruction in the fields of science, mathematics, and the languages and to improve instructional opportunities for all our high school population requires in part that:

1. We continually examine, modify, and amplify our courses of study.
2. We do everything possible to strengthen our faculty.
3. We separate our pupils into smaller and more really homogeneous groupings.
4. That we set minimum standards of achievement in all college preparatory and advanced commercial department courses and insist that those who cannot maintain these standards transfer to classes where progress demands are paced to their abilities.

5. That as many seventh graders as the Head School can accommodate be housed there next fall. This will relieve the crowding at the High School which will, otherwise, be bound to exist. It will also make some rooms available for additional classes and subjects now much needed at the Senior High School level.

For further information and recommendations relative to our instructional program I shall quote from the reports of our Supervising Principals, Supervisors and Guidance Director.

**Mr. Wood, High School Principal**

"As Principal of the Westport High School, I hereby submit my annual report.

Shortly after the opening of school in September, our enrollment was 553. This was an increase of 34 over September 1957. The number of pupils expected in the fall of 1959 makes it necessary to start planning for housing at least a part of the seventh grade in some other building. My suggestion in regard to this will be discussed in greater detail later in this report.

The following teachers left our system at the end of the 1957-1958 school year: Mrs. McGrath, Mr. Francis, Miss Haas, Mrs. Brigham and Mr. Ulysses Souza. They were replaced by Mrs. Lois Kelley, Mr. John Hart, Mr. Thomas Karam, Mr. George Salvador and Mrs. Margaret Kelliher.

Mr. Karam was assigned to teach Problems of Democracy and Physical Education. He was given the position of baseball coach.

Mrs. Kelliher was assigned to teach the Practical Arts class.

Mrs. Kelley was assigned social studies and English in our Junior High.

Mr. Hart was assigned to teach social studies and Junior Business Training.

Mr. Salvador was assigned to teach U. S. History and World History.

All our new teachers are doing excellent work and have strengthened our faculty.

New text books were adopted in our English, Physics, Geometry, Applied Science and Latin courses. It is important that we use the latest and best books that are available if we are to properly prepare the students for college or for life."

"Our Industrial Arts program has improved greatly during the past year. The work on the course of study has been continued and should be completed by July."

"Mrs. Kelliher has taken our Practical Arts class and has done outstanding work with this group. Her patience and understanding of the slow learner are greatly responsible for this success.

Mr. Braga has continued the fine work of previous years, and has given the school an orchestra and band of which we have every reason to be proud.

Mrs. Griffin has done wonderful work with our vocal groups. They have won the highest of praise from every group for which they performed. We are extremely fortunate in having such a dedicated and talented supervisor."

"The Agricultural Department has attracted the best freshmen group in several years. This was accomplished by more careful recruiting and should strengthen the program."

"Some thought should be given to the Driver Training Course. Without the use of a car for the full year, not enough can be accomplished to make the course worthwhile. It may be that the School Department should purchase a car if other efforts to secure one fail.

In line with the recommendation of leading educators in the secondary schools and colleges, more attention is given to our Modern Foreign Language program. French I was started in the tenth grade, thus making it possible to elect three years of a language. Many colleges feel, and may soon require, that four years of one foreign language are desirable.

As entrance requirements strengthen, and the difficulty of admission to college increases, it becomes obvious that better preparation must be offered at the high school level. An accelerated group of exceptional students, extended to the limits of their individual abilities, is probably the answer to this problem.

A great amount of time and energy has been spent in organizing a course of study in English for grades seven through twelve. All teachers who worked on this project should be commended. Mr. Martineau, the general chairman, and Miss Paoli, the seventh and eighth grade leader, deserve special credit. I would also like to thank Mr. Norman L. Gifford, a former English teacher, principal, superintendent, and school committee member, for his valuable suggestions and untiring efforts to improve our English curriculum."

"Although I am but one of a committee assigned the task of studying the housing problem for the fall of 1959, I would like to suggest the use of the Head School for ninety to one hundred of next year's seventh grade. It is close enough to the High School so that facilities such as shop, home making, and physical education, could be utilized without excessive trans-

portation. There are many factors that can influence our enrollment and this could well be just a temporary arrangement."

**Mr. Brightman, Director of Guidance**

"As Director of Guidance of the Westport High School, I herewith submit my fifth annual report.

**"COUNSELING**

With the admission last fall of a freshman class of 140 students, the counseling load of this office increased noticeably, having graduated only 33.

In matching our counseling program with the optimum as expressed by the survey group (Mr. Brightman's survey of 145 high schools in New England). I find that our local picture, with one exception, compares favorably. Because of existing local conditions, e.g., scarcity of jobs, a rural area which militates against extensive part-time work, etc., vocational placement and follow-up, as carried on by this office, is extremely limited.

To be sure, each school's guidance program is fashioned in its own peculiar way, influenced by the needs of the school and the community in which it is located. Having gained some perspective after five years, I feel that our guidance department, although emphasizing to a lesser degree some activities other schools have found to be necessary, is on the way toward doing a competent job in satisfying the needs of this school.

We have by no means arrived, and I could not possibly write a complete report of our guidance department's activities without repeating the old, plaintive cry: the need for a girls' counselor! There are now, there have been in the past, and there will always be in the future, problems peculiar to the female

students which they cannot and will not discuss with a male counselor, no matter what his personality and inspired desire to help.

Therefore, I ask you to consider for the future the possibility of securing the services of a competent, mature woman counselor to work in the guidance department on at least a half-time basis, with suitable remuneration. I consider this to be essential to a well-rounded guidance program.

#### FOLLOW-UP

In the course of this year's work, I completed two follow-up studies, one dealing with further education in graduating classes during the years 1951 to 1958, and one concerned with all kinds of placement in our 1958 graduating class.

The first study showed that during the eight years surveyed, 60 graduates, or 21% of all people graduated during those years, attended degree-granting institutions, two attended junior colleges, three entered non-degree business schools, twelve embarked on nurse's training, and thirteen others went on to various other schools of further education. A total of 31.5% of all graduates during those eight years went on to further schooling. While this is somewhat lower than the present national average of 45%, I am sure, and I have no statistics to back this claim, that Westport compares favorably with other small, rural high schools.

In following up this past year's graduating class, it was found that 13 out of 33 students went on to further education, representing 39.5% of the class. One more will begin his college education in the coming fall, bringing the total up to 42.5%. Of the rest of the class, 15% went into military service, two girls decided on the noble institution of marriage, and the rest, some 27%, entered the work market."

## STUDENT NEEDS

"I have long felt, and I believe I've done so in good company, that our brighter students are not being sufficiently challenged. This, of course, is a difficult thing to do when there is a shortage of good teachers and plant facilities. However, some of these problems seem to be on the way toward solution.

In view of these facts, I would like to express the opinion that accelerated groups should be formed, preferably beginning on the junior high level, and continued on through to the senior year. With the present trend in colleges toward early admission and advanced placement, I feel strongly that if some efforts are not made in this direction our students stand a serious chance of finding themselves at a distinct disadvantage in years to come."

### **Miss Boodry, Alice A. Macomber School Principal**

"This year at the Macomber School a new reading program was started.

Children in grades four, five and six were tested to ascertain their achievement level in reading.

A wide range of achievement abilities from second to eighth grade was found.

Since we had only eight teachers available for this new reading program, and nine reading levels, it was necessary for one teacher to teach two levels of reading.

Every morning an hour is set aside when every teacher is teaching reading at the same time—not to a certain grade but to a certain reading level of children.

These reading groups are flexible and it is possible for a child to move from one group to another if such is desirable for his better progress.

New reading material was purchased so that children would not repeat any material that had already been studied.

In addition to this basic instructional hour each day, a twenty minute recreatory reading period is provided in each classroom. Children are encouraged to select and read books on both their reading and interest levels.

A mark is not given in reading, but a special card for reporting reading progress is sent out at the time of regular report cards.

Our children seem to be showing a greater interest in reading. Our teachers have found they can accomplish more in the same amount of time because the classes contain children who can do the reading tasks that are being taught.

At this time we cannot tell what our results will be, but I do feel we are providing opportunities for reading development for superior children and also for the slow learner."

**Miss Audrey L. Tripp, Earle School Principal**

"The anticipated enrolment for September, 1959 indicates . . . again . . . double grades, unless other housing plans are made for some pupils. This is a situation which we hope will receive your early consideration,"

"I am concerned over the ever increasing difficulty of maintaining academic standards in our basic subjects because of the constantly growing lists of additional subjects which are crowding into the curriculum, as well as the introduction of other "activities" which are assumed to be the task of the elementary school.

While no good teacher is ever completely satisfied with his day's work, and while we all should be concerned with the "total growth" of each child, the fact remains that, with the growing list of "musts" for the elementary teacher, it is becoming a mathematical impossibility to do "all things well" in a school day, which does not and should not change, as far as the time element is concerned.

That this problem is not a local one is indicated by the fact that Commissioner Kiernan has recommended a longer school year for all pupils. This is one of several possible solutions. I do believe it is a matter of sufficient concern to warrant serious reflection."

---

Mrs. Leuvelink, Art Supervisor, indicates that a satisfactory Art Program calls for the services of an additional teacher.

Mrs. Griffin, Vocal Music Supervisor, indicates that her program is too heavy and additional teacher time is much needed.

Mr. Cornell, Audio-Visual Supervisor, recommends an In-Service Course in Audio-Visual Aids.

Miss Cahoon suggests that a study be made of the advisability of discontinuing Vocational Home Making on the State Aided Plan.

### THE SCHOOL PLANT

I believe that our buildings, equipment, and grounds, as a whole, are in better condition now than they have ever been before. By employing as custodians men with special trade abilities, we are doing a major portion of our maintenance and repair work within the system. This helps the town financially

and saves administrative and office help time that would otherwise be required in drawing specifications, advertizing for and awarding bids. As our new buildings age it will be necessary to budget larger amounts for repairs and replacements but I do believe that the policy of coupling the repairs and maintenance program with custodial operation is sound financially and is producing commendable results.

### TRANSPORTATION

New bus contracts will be necessary for September 1, 1959. I recommend that 60 passenger buses be obtained for routes six through twelve. A study of our probable school population for next year indicates that buses of this size will be necessary; they may make it possible to continue with the same number of buses and no double loops.

### SUPERINTENDENT'S RECOMMENDATIONS

I advise early study of the recommendations of our Principals and Supervisors.

I recommend the adoption of a teachers' salary policy that will provide a basic schedule at least the equal of the average for our immediate area. This schedule should be accompanied by a modified merit plan that:

1. Will permit starting a new teacher one step above the regular salary schedule if his (her) previous record warrants same.
2. Will permit double increments for superior teachers.
3. Will permit, for superior teachers, super-maximum increments beyond the established maximum.

The School Committee has held thirty-three meetings during the year 1958. In addition the members have attended several joint meetings with the Teachers' Association or their representative study groups. You are to be commended for your readiness to provide so much service beyond the normal requirements of your office.

In this, my last report, I wish to thank the representatives of the School Systems of this area for their ever willingness to lend a helping hand in time of need. To our teachers, to you, and our other town officials, and to the many other citizens who have been both kind and co-operative these many years—my thanks and God bless you all.

Respectfully submitted,

MILTON E. EARLE
