WILKINS TOWNSHIP BOARD OF COMMISSIONERS

MINUTES OF THE CONDITIONAL USE ZONING HEARING OF AUGUST 4, 1980

The Zoning Hearing of August 4, 1980 was called to order at 8:00 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky
Mr. Bowlin
Mr. Hanlon
Mr. Porado

Mr. Dombrosky noted that Mr. Rice was out of town on business and; hence, unable to attend.

Mr. Dombrosky led all present in the pledge to the flag.

Mr. Dombrosky stated that the purpose of the hearing was to hear comment on a request by the Faith Bible Baptist Church for a conditional zoning use to operate a church on property now owned by the Ridgemont Country Club on the north side of Curry Avenue.

He noted that this request had been reviewed by the Planning Commission at their June 18th meeting.

Mr. Dombrosky requested that those speaking give their name and address. He asked that representatives of the Church explain their proposal.

1. MR. ROBERT AMENT, ATTORNEY representing the Church, 205 Ross Street, Pittsburgh PA 15219, reviewed the conditional use application and stated that, in his opinion, the application met the conditional use provisions of Zoning Ordinance No. 542. He noted the Church's value as a community institution and upon questioning by Mr. Dombrosky stated these values were in the area of general welfare services provided by the Church.

2. REV GARY LAPIETRA, PASTOR expressed thanks to the Board for the opportunity to present the Church's request. He asked those members of the Congregation present to stand.

Rev. LaPietra noted the Church's good reputation in the community, that the congregation was young and that the Baptist Church was a well established denomination.

He stated the Church was run on a sound financial base with major revenue from free will offerings. He noted the Ridgemont facility would be purchased without debt if necessary Zoning approvals were given.

He also noted that the congregation owned its two existing properties on Thompson Street debt free and that these properties had been considerably improved as a result of Church ownership. He stated that the congregation was the only Church in the municipality and gave several examples of the congregation's service to the community.

Mr. Dombrosky asked for a show of hands of those present who were Wilkins residents and members of the congregation. About thirty five persons identified themselves.

Mr. Dombrosky called for any questions to Rev. LaPietra:

3. MR. ROBERT KUSH 158 Curry Avenue asked for confirmation of the number of residents who were congregation members.

Mr. Dombrosky asked that a roster be prepared after the meeting.

4. MR. RAY BECK 154 Curry Avenue inquired as to specific use of the property. In answer to several inquiries. Rev. LaPietra replied as follows:

A. Building would be used as a Church.

B. Ne external public address system would be used.

C. All preaching would be inside the building.

D. No alcoholic beverages or loud music would be permitted.

E. The pool and athletic facilities would be retained for Congregational use, no club use is planned.

F. The parking requirements of the Township Zoning Ordinance would be met.

G. No on-street parking would be necessary.

H. The Church respects the rights of neighborhood residents and will cooperate. Rev. LaPietra described actions taken to correct problems at the existing Thompson Street sites.

Mr. Beck inquired as to the effect on the Township of removing this property from the tax rolls.

Mr. Means, Township Solicitor, indicated this question was not relevant.

5. MR. WILLIAM DRISCOLL 149 Curry Avenue inquired as to the operation of busses by the Church.

Rev. LaPietra noted that six busses would make one round trip each for Sunday Morning and Sunday Evening Services.

Mr. Driscoll asked if the local roads would support this operation.

Mr. Dombrosky indicated no problem as far as weight, but noted that bus operation on the Negley Avenue grade and on sharp curves would be reviewed. Mr. Dombrosky and Mr. Porado also noted that the busses must meet State safety standards.

6. MR. YOUSSEF AMIN, ARCHITECT of Tasso G. Katselas Associates, representing the Church reviewed the technical aspects of the project. The following points were established:

A. Alternate sites had been explored, the Church desired to stay in the area.

B. The building contains 7,200 square feet of floor space - present congregation size is two hundred fifty.

C. There would be room for future expansion on the basement level.

D. The following major improvements to the building would have to be made:

(1) New curtain walls

(2) New and redesigned roof

(3) New sewage system

E. The pool is not included in present design criteria. It is useable but is leaking. This was confirmed by Dr. Herzog, present co-owner of the Club.

7. MRS. NORMA KUSH 158 Curry Avenue inquired as to future use of playground facilities, tennis and volley ball courts which were on leased ground.

Rev. LaPietra noted these facilities would remain if the lease with the Churchill Cemetery Corporation could continue.

Dr. Herzog noted the lease was not presently viable.

8. MR. ROBERT KUSH inquired as to the status of the present septic system and future sewer facilities.

Mr. Means noted enforcement of septic system standards was under the jurisdiction of the County Health Department but that compliance could be considered as part of a conditional use. Mr. Baldwin noted that the property would be served by a sewer project in the near future.

9. MR. RAY BECK inquired as to parking lot standards. Mr. Amin answered that the lot would hold two hundred fifty cars and would be upgraded with gravel or asphalt surfacing and concrete curbing.

10. REV. LAPIETRA noted various members of the congregation and others who desired to speak in support of the request and who described various church programs.

11. MR. GARY MILLER, 4127 Greensburg Pike, resident of Township who described programs for youth, children without parents, widows, new residents and senior citizens.

12. MRS. LAVERNE GUTHRIE, 709 McMasters Avenue, resident of Township spoke in support of the request.

13. MR. JAMES EKIS, 984 Roland Road, resident, described other Church's youth programs.

14. JUDY CANNON, 226 Churchill Road, resident, not a member of the congregation who spoke in favor of the Church's request.

15. MR. GEORGE M. PORADO, 174 Curry Avenue made several inquiries regarding church operations. He was answered as follows:

Rev. LaPietra stated a conditional use had been filed for a Church and a School but that only the Church uses at issue in these proceedings.

Mr. Means stated the School use was not permitted at this location under Zoning Ordinance No. 542 but that it could be applied for in the future. He stated, in his opinion, it would not qualify as a variance to the Zoning Ordinance.

Mr. Means also noted that further review could be given to the question of traffic and parking. Rev. LaPietra stated that bus operations would normally only be conducted on Sundays.

16. MR. STEVE LAZZARO, 507 Washington Street, Principal of the Church's affiliated private school, spoke in support of the Church request and described the School's operations.

Commissioner Porado stated that the School was not at issue in these proceedings.

17. MR. RAY BECK made several inquiries to Mr. Means and to Rev. LaPietra. He was answered as follows:

Mr. Means stated that a specific definition of a Church was not included in most Municipal Zoning Ordinances but that it did not include private schools or commercial operations.

Rev. LaPietra stated that on the advise of the Church's Attorney and the Township, a private school was not an extension of the Church. He noted the congregations right to disagree with this. He noted that a school use was contained in the original application until notified by the Township of the terms of the Zoning Ordinance.

Rev. LaPietra stated that if the school use was desired in the future, the congregation would make appropriate applications and follow required zoning procedures.

Rev. LaPietra noted the following proposed activities on the property:

A. Worship Services - Sunday mornings to 12:15 and 7:30 P.M. Sunday evenings

B. Various ministries and programs as described at this hearing.

C. Sunday School.

D. Use of outdoor facilities to be confined to fenced in area.

E. No lodging or residences.

In answer to further questions from Mr. Beck, Mr. Means noted that single residences would be permitted on the property in an R-2 Zoning District but that multiple units would not be permitted.

The following members of the congregation also spoke in support of the request:

18. MR. RICHARD WILSON, 135 Leneake Street, resident, who spoke of the Church's ministry to thirty deaf members in the Pittsburgh Area.

19. SARA KOOSLER, East Liberty, a deaf member, her remarks were interpreted by Mr. Wilson.

20. JAMES HORVAT, 4629 Bayard Street, Oakland, a blind member.

21. GEORGE GRANT, Homestead, a handicapped member.

22. THERESA WAGNER, 6231 Penn Avenue, East Liberty, a blind member.

23. GEORGE DAUGHERTY, 579 Negley Avenue, resident.

24. MR. LELAND REILLY, 543 Negley Avenue, Resident.

25. SUE RUPPEL, 310 Dunbar Drive, Resident.

26. MELANIE RAMSEY, 119 Hart Drive, Resident.

27. MRS. CHERYL EKIS, 984 Roland Road, Resident

28. JOHN WHEELER, 143 Curry Avenue, Resident.

Mr. Wheeler noted his home was across the street from the entrance to the Ridgemont Club and noted his concern for traffic problems. He stated the Church would cooperate on this issue.

He also noted his responsibility for bus maintenance and assured those present that the Church fleet met State safety standards.

29. MR. RAY BECK inquired of the Solicitor as to procedures for further action:

Mr. Means cited PA Act 247 (PA Municipalities Planning Code.

He noted as follows:

A. The Board must make a decision based upon specific findings.

B. This decision must be made at a public meeting prior to September 16, 1980.

C. The applicant, and its Attorney, will be notified in writing as to when the decision will be made.

D. Any other interested parties who desire to receive written notifications should so notify the Township Secretary.

30. The following persons notified the Secretary of their desire to receive such written notification:

A. MR. RAYMOND BECK, 154 Curry Avenue

B. MR. HOWARD HEADLAND, Secretary-Treasurer, Churchill Cemetery Corporation, 260 Churchill Road.

There being no further comment, President Dombrosky, stated that he would entertain a motion to adjourn.

Respectfully submitted,

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

MINUTES OF THE ADDITIONAL STATED MEETING OF AUGUST 25, 1980

The additional stated meeting of August 25th was called to order at 8:30 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky		Mr. Hanlon
Mr. Rice	Mr. Bowlin	Mr. Porado

President Dombrosky led all present in the pledge to the flag.

Mr. Dombrosky stated that the Board had several items of business to consider:

1. Hearing regarding use of State Liquid Fuels Tax Funds.

   Mr. Dombrosky asked the Secretary to read Resolution No. 22-80, as published in the official newspaper. Same was read.

   The Secretary explained that under State Act 1980-20 a public hearing was required and that the requirement for use of 25% of funds for constructing new streets could be waived based on a unanimous vote of the Board of Commissioners.

The Secretary further noted:

A. Since 1966 all streets capable of meeting State standards had been so improved.

B. The Township has, for many years, used these funds for maintenance purposes.

No one appeared to testify.

(4510) MOVED PORADO-BOWLIN to continue the practice of using 100% of Liquid Fuels Tax revenues for maintenance purposes.

The motion was adopted by unanimous roll call vote.

2. DECISION ON REQUEST FOR CONDITIONAL ZONING USE BY FAITH BIBLE BAPTIST CHURCH

   Mr. Dombrosky stated that the Board of Commissioners had reviewed the report by the Planning Commission and testimony of the Public Hearing on August 4, 1980 and as a result had prepared a proposed adjudication in the matter.

   Mr. Dombrosky directed the Secretary to read same into the record. This was done. The adjudication permits Church use subject to certain conditions.

   Mr. Dombrosky suggested consideration of an additional condition noting that if busses entering the property become a hazard, the Church would use smaller vehicles.

   Mr. Means, Township Solicitor, felt this proposal was vague and suggested the matter be handled under the Township's power to regulate weights under the Vehicle Code.

   Mr. Dombrosky withdrew his proposal.

(4511) MOVED HANLON-BOWLIN to adopt the proposed adjudication. The motion was adopted by unanimous roll call vote.

3. SALE OF USED POLICE CAR

   The Secretary noted that initial advertising for this sale had produced one bid at the minimum amount designated but that the bidder had failed to consummate the sale.

   A second bid had been received from Mr. Chester Jeznach but was below the designated minimum.

   A second advertising was conducted but no bids were received.

(4512) MOVED BOWLIN-RICE to authorize sale of the vehicle to Mr. Chester Jeznach per his bid of June 20, 1980 in the amount of $275.00. The motion was adopted by unanimous roll call vote.

4. REBIDDING OF CONTRACT FOR REPAIR OF THORNCREST DRIVE SANITARY SEWER

Mr. Dombrosky noted a report from the Engineer recommending rebidding of this contract.

(4513) MOVED PORADO-RICE to reject prior bids and to authorize rebidding the contract. The motion was adopted by unanimous roll call vote.

5. MERCANTILE AND BUSINESS PRIVILEGE TAX

(4514) MOVED RICE-BOWLIN to issue credits on 9/366 of 1980 Mercantile and Business Privilege Taxes paid to those persons making a written request for refund, by a credit on 1981 Taxes, if due, or a cash credit if no 1981 Taxes due, provided no audit is pending on 1980 tax return.

6. EXECUTING OF DEED

Delinquent Tax Sale property of John and Olga M. Eva to Ralph R. and Darlene M. Burger as prepared by County of Allegheny being Block and Lot number 455-E-202.

(4515) MOVED HANLON-PORADO to authorize signing of this deed. The motion was adopted by unanimous roll call vote.

(4516) MOVED HANLON-BOWLIN to adjourn. The motion being unanimously adopted, the meeting was adjourned at 8:58 P.M.

Respectfully submitted,

IN RE:

CONDITIONAL USE APPLICATION
OF FAITH BIBLE BAPTIST CHURCH

August 25, 1980

DECISION OF THE BOARD OF COMMISSIONERS

Faith Bible Baptist Church by application dated May 28, 1980 applied for a conditional use of property presently titled in name of Alexander Bluestone, et al and situate in the Township of Wilkins, Allegheny County, Pennsylvania.

Pursuant to Section 403 of the Zoning Ordinance, the application was reviewed by the Planning Commission at a public meeting held June 18, 1980.

After review, the Planning Commission submitted its recommendation to the Board of Commissioners wherein it recommended approval of conditional use for a church only and subject to certain conditions as more fully set forth in said recommendation which is incorporated herein by reference thereto and which is permanently on file in the Office of the Township Secretary.

A public hearing after public notice was held by the Board of Commissioners on August 4, 1980.

After due consideration of the application, the recommendation of the Planning Commission and the public hearing, the Board of Commissioners makes the following findings, conclusions and order.

FINDINGS OF FACT

1. Faith Bible Baptist Church is the equitable owner of certain property situate in the R-2 Zoning District of the Township of Wilkins as more particularly described in the deed from William H. Davis, Sheriff to Alexander A. Bluestone, Et Al and recorded in the Recorder's Office of Allegheny County, Pennsylvania in Deed Book Volume 4522, page 147.

2. The Township Zoning Ordinance (No. 542), Table 201 permits, inter alia, a church as a conditional use in an R-2 District after approval by the Board of Commissioners.

3. The Faith Bible Baptist Church applied for a conditional use of the above mentioned property for use as a "church and accessory use; ultimate use - church and Christian day school."

4. The Zoning Ordinance does not permit use of property as a private school of any type in the R-2 District.

5. For more than fifteen years, the property has been used as a Recreation Area and Swimming Club as set forth in Section 404.8, 404.9 and 601.20 of the Ordinance and has improvements thereon consisting of a club house, swimming pools and other recreational facilities.

6. Based on the contents of the application and the public hearing, the use of the premises for a church would meet all of the criteria for approval as set forth in Section 404 of the Zoning Ordinance and can comply in the future with the Performance Standards of Section 405.

7. The applicants testified at the public hearing that accessory uses were the usual activities connected with church services and church management and would not include multiple dwelling uses such as lodging of lay or clerical personnel.

CONCLUSIONS OF LAW

1. The application of Faith Bible Baptist Church for conditional use of the Ridgemont Country Club property as a church and accessory church use complies with the provisions of Zoning Ordinance 542.

2. The said application cannot be granted for use of said property as a private school of any kind except Sunday school activities usually associated with church services.

3. Reasonable conditions should be attached to the grant of the conditional use because the property is situate next to existing single family residential uses.

ORDER

AND NOW this 25th day of August, 1980, the application of Faith Bible Baptist Church for use of the premises situate in the Township of Wilkins, Allegheny County, Pennsylvania as more particularly described in the deed from William H. Davis, Sheriff to Alexander A. Bluestone, Et Al as recorded in Deed Book Volume 4522, page 147, is approved as to use for a church and accessory church uses.

The approval of the Conditional Use is subject to the following conditions which shall be binding upon the applicant, its successors and assigns:

1. Church accessory uses shall be limited to:

   (a) A single family residence for use as a parsonage.

   (b) Congregational meetings for religious business and social purposes as are normally and usually conducted by the majority of churches in Allegheny County.

2. The property shall not be used for multiple dwelling use of any kind.

3. Use of the recreational facilities shall be in accordance with the provisions of Zoning Ordinance 542 and the use shall be restricted to church members and/or their guests.

4. The swimming pools shall not exceed occupancy greater than the permit limit approved by any governmental agency (federal, state, county or local) at any given time.

5. Use of the premises on any day by more than twenty-five persons shall not take place earlier than 9:00 a.m. or later than 10:00 p.m. prevailing time.

6. No loudspeakers or other sound amplification equipment shall be located outside any structure. Noise from the premises shall otherwise conform to the provisions of Section 405.3 of Ordinance 542 and Ordinance 561.

7. No lights shall be placed so as to result in direct lighting upon or glare upon residential property in the area of the subject property.

8. Parking shall at all times conform to the provisions of Section 304 (1),(2),(3),(4) of Ordince 542.

9. The property shall not be used as a private school of any kind, such use being incompatible with the Wilkins Township Comprehensive Plan, the residential nature of the area and the existing road and traffic conditions applicable to the area.

10. The use of the premises shall at all times comply with the Performance Standards of Section 405 of Ordinance 542.

APPROVED by the Board of Commissioners of the Township of Wilkins at a duly assembled meeting held this 25th day of August, 1980.

MINUTES OF THE ADDITIONAL STATED MEETING OF NOVEMBER 24, 1980

The additional stated meeting of November 24th was called to order at 8:30 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky		Mr. Hanlon
Mr. Rice	Mr. Bowlin	Mr. Porado

Mr. Dombrosky lead all present in the pledge to the flag.

Mr. Dombrosky noted that there were several matters requiring action as a result of the preceding Administrative Briefing Session.

(4552) MOVED HANLON-RICE to ratify action of the Township Manager in joining the PA State Association of Borough and First Class Township Unemployment Compensation Insurance Group.

(4553) MOVED BOWLIN-PORADO to authorize payment of approved semi-final engineers estimate #2 to Dominic Nicassio, Inc. for work on the #3 Hill Sanitary Sewer Project in the amount of $93,811.27.

Motions 4552 and 4553 were adopted by unaminous roll call vote.

RESOLUTION NO. 27-80

A RESOLUTION OF THE TOWNSHIP OF WILKINS AUTHORIZING THE SETTLEMENT OF CERTAIN MUNICIPAL CLAIMS.

(4554) MOVED RICE-PORADO to adopt Resolution No. 27-80.

The motion was adopted by unanimous roll call vote.

President Dombrosky stated that the Board would now conduct a Public Hearing on the proposed use of Federal Revenue Sharing Funds in the 1981 Budget. He called on Mr. Baldwin to brief all present on the matter.

The Secretary made the following comments:

1. He introduced proof of publication of the required notice of the hearing.

2. It was noted that past Board policy had been to use Revenue Sharing Funds for the following purposes in order of priority:

   A. To offset costs of the garbage collection portion of the solid waste program.

   B. To supplement Capital Reserve Funds for sanitary sewer construction.

3. Because of increased costs in the 80-82 Solid Waste Collection Contract costs are estimated as follows:

   Garbage 8,165/month or $97,980.00/year
   Trash 4,146/month or $49,752.00/year (General Fund)
   Municipal Building Hoppers 10.00/month or
   120.00/year (General Fund

   Total $147,852.00

4. In 1980 Revenue Sharing Funds were based on a formula providing an annual allotment of about $85,000.00/year.

5. The uncertain status of legislation renewing the Revenue Sharing Program gives us three possible levels of funding in 1981:

   A. $85,000.00 if present program renewed - as of this date this legislation has passed the House.

   B. $57,000.00 based on an Administration proposal.

   C. Nothing.

6. Based on the best information available from Cong. Gaydos Staff in early October alternate B was used in Budget preparation. This would use the entire $57,000.00 toward the $97,980.00 annual garbage collection costs leaving a $40,000.00 subsidy required from the General Fund.

7. If alternate A is adopted by Congress the subsidy will be reduced to about $13,000.00.

8. If the program is not renewed alternate means of raising the $57,000.00 must be considered.

At the conclusion of the Secretary's comments, Mr. Dombrosky called for testimony:

1. Mr. Harold Reddinger, 309 Albert Street, Turtle Creek, President of the Wilkins Township Senior Citizens appeared in response to receiving written notification of the hearing.

   He noted that his organization had no official position on the use of Revenue Sharing Funds.

The Secretary was directed to keep the Board advised as to the Federal Government's action on this matter.

(4555) MOVED HANLON-RICE to adjourn. The motion being unanimously adopted, the meeting was adjourned at 8:49 P.M.

Respectfully submitted,

Wilmer K. Baldwin

WILKINS TOWNSHIP BOARD OF COMMISSIONERS
MINUTES OF THE ADDITIONAL STATED AND BUDGET ADOPTION MEETING OF 12/29/80

The additional stated meeting of December 29, 1980 was called to order at 8:30 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky
Mr. Bowlin
Mr. Hanlon
Mr. Porado

It was noted that Mr. Rice was ill and; hence, unable to attend.

President Dombrosky led all present in the pledge to the flag.

Mr. Dombrosky stated that there were no items requiring action from the previous briefing session. He noted, however, that there were several items on the agenda regarding Budget adoption and other matters:

1. ORDINANCES:

ORDINANCE No. 663

AN ORDINANCE OF THE TOWNSHIP OF WILKINS, ALLEGHENY COUNTY, AND THE COMMONWEALTH OF PENNSYLVANIA, FIXING THE TAX RATE FOR THE YEAR 1981.

Mr. Robert McGrath, 269 Penhurst Drive, asked for an opportunity to comment on the Budget. Mr. Dombrosky asked him to proceed.

Mr. McGrath stated his feeling that the estimated revenue from the Mercantile Tax was under estimated. Mr. Baldwin noted that a 9% increase was shown and the the figure had been revised upward to reflect a 9% increase on collections through November 1980. Mr. McGrath still felt the estimate was low.

Mrs. Robert McGrath, 269 Penhurst Drive, complemented the Board on the Budget. She made two inquiries:

1. Are all the appropriations for training necessary?

Mr. Dombrosky felt that attendance at conferences was necessary for Officials and Staff to increase proficiency in their specific areas of work or professional interest. He also noted the need for certain individuals to attend because of their holding office in various associations representing local government.

Mr. Dombrosky noted the Township's costs in this area were less than in many comparable local governments.

2. Why is there both a Finance Officer and a Treasurer?

Mr. Means described the duties of each office and noted that the Treasurer's Office was provided by State Law and was primarily that of Tax Collector.

(4578) MOVED BOWLIN-HANLON to read Ordinance No. 664 for the second reading by title only.
(4579) MOVED PORADO-BOWLIN to accept Ordinance No. 664 for the second and final reading and to adopt said Ordinance.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS
MINUTES OF THE REGULAR MEETING OF MONDAY, FEBRUARY 9, 1981

At the invitation of President Dombrosky all present arose and participated in the pledge of allegiance to the flag of the U.S.A.

CITIZEN'S HEARINGS:

Miss Barbara Dlugonski, 434 Highland Avenue, expressed concern Re: No Parking signs on Highland Avenue adjacent to the Turtle Creek line. She noted the narrow width of the road but was concerned regarding her safety walking to or from her car after dark.

She requested a time zone or a limited parking zone in the area.

She noted two persons resided in the house and that their lease prohibited use of the garage and driveway.

She admitted, however, that the property was owned by the parents of one of the tenants.

Mr. Dombrosky noted that the property was zoned single family. He stated that the Public Safety Committee would again review the matter.

Miss Dlugonski also suggested that more street lights be considered.

Mr. Porado suggested that the tenants approach the landlord about using the driveway so as not to park on the street.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS
MINUTES OF THE ADDITIONAL STATED MEETING OF FEBRUARY 23, 1981

The additional stated meeting of February 23rd was called to order at 8:30 P.M. by President Dombrosky.

A quorum was present as follows:

Mr. Dombrosky
Mr. Rice
Mr. Bowlin
Mr. Hanlon
Mr. Porado

President Dombrosky led all present in the pledge to the flag.

Mr. Dombrosky noted that there were no items requiring action from the preceding administrative briefing session.

Miss Barbara Dlugonski, Miss Julie Herman of 434 Highland Avenue and Mrs. Pam Werder of Penn Hills appeared to again discuss the parking situation on Highland Avenue near the Turtle Creek Line.

The residents protested the existance of a no-parking zone in front of their residence and requested permission to park two cars at this location.

They noticed parking was permitted on other narrow portions of this street. Miss Dlugonski also noted that her car had been vandalized while parked several houses from her residence and noted other safety problems in the area which, in her opinion, made it dangerous to walk to parked cars at night.

Miss Herman suggested that Highland Avenue be made one way in order to permit one side parking on its entire length.

The residents were answered by all Commissioners and the Solicitor as follows:

1. Parking private vehicles in the area now posted 'NO-PARKING' was causing inconvenience to the motoring public and to the movement of emergency vehicles.

2. The Township does not have an obligation to provide parking in front of every home.

3. Vehicles swerving to avoid parked cars are damaging the french drain on the west side of the cartway.

4. The steep hill and unstable ground conditions on the east side of the cartway would render any widening of the berm prohibitively expensive.

5. It was again suggested that the residents request that their landlord improve the adjacent driveway to provide off the street parking.

6. The present occupancy of the house at 434 Highland Avenue was in violation of the Zoning Ordinance.

The residents left the meeting.

(4632) MOVED HANLON-BOWLIN to adjourn. The motion being unanimously adopted, the meeting was adjourned at 8:55 P.M.

Respectfully submitted,

WILKINS TOWNSHIP BOARD OF COMMISSIONERS
MINUTES OF THE REGULAR MEETING OF MONDAY, MARCH 9, 1981

The regular meeting of the Board of Commissioners of the Township of Wilkins was called to order at 7:30 P.M. by Vice-President John T. Rice. A quorum was present as follows:

Mr. Rice — Mr. Hanlon
Mr. Bowlin — Mr. Porado

Mr. Dombrosky, President of the Board, was absent due to a death in his family.

At the invitation of Vice-President Rice all present arose and participated in the pledge of allegiance to the flag of the U.S.A.

CITIZEN'S HEARINGS:

Nick DiBattiste, 199 Sunset Drive spoke regarding a Zoning Proposal to install a group home at 114 Sunset Drive. He presented a petition from residents in the area opposing the proposed conditional use. He noted the proximity of fifty Wilkins homes vs about nine in Penn Hills. Mr. Rice noted the Township's concern. He directed the Secretary to correspond with Penn Hills expressing this concern. Mr. Rice noted that there was no legal action that the Township could take but that our concern would be evidenced as soon as possible. Copies would be sent to Mr. DiBattiste.

Minutes of the Additional Stated Meeting and Public Hearing of 5/26/81

President Dombrosky stated that the Board would conduct a public hearing on a Conditional Zoning Use request of the Faith Bible Baptist Church to construct an addition to their church building at 150 Curry Avenue to house a two bay bus repair facility as an accessory use to the Church.

Mr. Dombrosky directed the Secretary to present the necessary background information.

The Secretary entered the following into the record:

1. Letter of February 18, 1981 from Attorney Robert Ament enclosing permit application and inquiring as to proper procedure for review.

2. Letter of February 27, 1981 from Township Manager to Mr. Ament noting a review with the Solicitor indicates that the application should be processed as a conditional zoning use request.

3. Letter of March 5, 1981 from Rev. Gary LaPietra, Pastor applying for conditional use request and submitting plans.

4. Check list Re: conformance to zoning regulations as prepared by the Township Manager.

5. Minutes of Planning Commission Meeting of March 18, 1981 wherein the Planning Commission favorably recommended the proposal, including bus parking, to the Board of Commissioners.

6. Proof of Publication of Hearing Notice as advertised in THE PROGRESS. Note additional advertising made to correct printing error by the newspaper.

7. Affadavit by Officer William G. Wilson of posting of hearing notices.

8. List of Residents to whom hearing notices were sent. Mr. Dombrosky then called for testimony:

   A. Dr. Robert Fisher, 221 Farnsworth Avenue, spoke in opposition to the request. He noted the following:

      (1) A concern with the precident which would be established.

      (2) Bus repair was not an accessory use to a Church.

      (3) The repair facility could be located anywhere it does not have to be at the Church site.

      (4) A concern regarding a lack of grading plans and the possibility that the proposal would, if constructed, divert storm water onto Dr. Fisher's adjacent property on the west side of Farnsworth Avenue.

      (5) A concern that repair of heavy vehicles did not belong in a single family residential area.

   B. Rev. Gary LaPietra, 986 Roland Road, Pastor of The Faith Bible Baptist Church, 150 Curry Avenue spoke in favor of the request. He stated as follows:

      (1) The Church considered the facility as an accessory use to the existing Church because of the large number of the congregation who were transported to and from services by Church owned busses.

      (2) There exists a need to do maintenance work on the bus fleet in an area protected from the weather.

      (3) Detailed grading plans will be provided.

      (4) The Church will work to control storm water drainage.

In response to questions by Mr. Hanlon and Dr. Fisher, Rev. LaPietra provided the following information:

      (1) Present repair of busses is limited to about four to five hours on Saturday afternoons.

      (2) No heavy overhauling is done. Repairs are confined to tires, brakes, oil changes, and chassis lubrication.

      (3) There are presently thirteen busses in the Church fleet.

   C. Dr. Fisher requested more detailed plans. Mr. Means, Township Solicitor, answered that a conditional zoning use, if granted, was only the right to use the property for purposes specified. Detailed building and grading plans would then have to be submitted and would be subject to review under the appropriate municipal regulations.

Mr. Means noted that these detailed technical plans were not normally submitted as part of a zoning review because of the expense involved.

D. Dr. Fisher repeated his position that the proposed repair facility was not an accessory use to the church.

Mr. Dombrosky called for further comment. There was none.

Approximately six residents were present.

Mr. Dombrosky noted that the Board would further review the matter.

(4699) MOVED HANLON-RICE to adjourn. The motion being unanimously adopted, the meeting was adjourned at 8:52 P.M.

Respectfully submitted,

Wilmer K. Baldwin
Secretary

1. Mrs. Betty Chambers, 348 Long Road, Penn Hills (371-9914) owner of property at 700-704 McMasters Avenue complained that her tennants were receiving many parking tickets on McMasters Avenue. She noted that guests of her tennants also received tickets.
Mr. Dombrosky asked the Manager to investigate same and report to the Board.
Mr. Martinelli, Township Finance Officer, noted that he lived in the area and discussed the safety problems of large vehicles negotiating the Semmens-McMasters intersection if parking is not limited.

2. Mrs.Shirley Holtzman, 19 Charnwood Drive appeared representing Eastmont area parents. She expressed concern that children from portions of Wilkins would be assigned to the Turtle Creek High School if the New School Districts proposed attendance plan were adopted She noted a possible drop in property values if the plan were adopted and asked that the Board express an opinion.
Mr. Dombrosky stated that the Township has supported the Churchill Area School District in opposing the merger and has offered its services where necessary.
Mr. Rice also noted the Township's position and noted that he had spoken as an individual to the Interim Operating Committee favoring the proposition that the Churchill Area should be treated as a unit. He urged others to do so.
Mr. Means suggested a motion expressing the Board's feelings that the Churchill Area be kept as a unit or that the level of curriculum be kept the same in each high school. (See new business)
Mrs. Holtzman indicated that statistics had been presented to the Interim Operating Committee indicating that keeping the Churchill Area as a unit would not effect racial balance. She left a copy for review. Mr. Porado stated that the Township's offer of assisting still stands.

3. Mr. Joseph Yakin of 37 Crestview Drive requested an explanation of statements by Mr. Dombrosky at the June meeting and asked that the 1968 motion regarding his Mother speaking at meetings be recinded.

4. Mr. Raymond Burkhart, 215 Wallace Avenue, inquired as to when his 1980 Real Estate Tax refund would be authorized. Mr. Baldwin stated it was in a Resolution to be considered this evening. Mr. Burkhart requested an explanation of the procedure for adjusting the assessed valuation on the tax statements after an appeal. Mr. Means explained this.

5. Mr. Paul King, 330 Dunbar Drive, representing various baseball groups expressed appreciation for past funding of the boys baseball program through Civic Association sontributions. He expressed concern that funds from the Eastmont Civic Association were no longer passed through to the baseball groups. He discussed a Recreation Board proposal for a purchase order system to replace the Civic Association contributions in a manner similar to that used by the girls group and expressed disappointment that this had not been acted upon.
Mr. King noted the considerable volunteer efforts involved and that the baseball program provided activity for thirty eight Pony League and one hundred ninety five Little League boys and one hundred thirty girls.
Mr. Porado and Mr. Dombrosky stated that the Board would again review this matter in the light of Mr. King's remarks.

6. Mrs. Luella McGrath, 269 Penhurst Drive, asked that a summary of expenditures be prepared for each regular meeting. She noted this was not done inasmuch detail as was provided for other items on the agenda. She complimented the Board on their handling of Citizen's Hearings since the hearings improve dialogue. She expressed the opinion that all be given the right to be heard.

7. Mr. Joseph Yakin requested a reply to his previous remarks. Mr. Dombrosky attempted to reply.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS
MINUTES OF THE REGULAR MEETING OF MONDAY, SEPTEMBER 14, 1981

The regular meeting of the Board of Commissioners of the Township of Wilkins was called to order at 7:30 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky		Mr. Hanlon
Mr. Rice	Mr. Bowlin	Mr. Porado

At the invitation of President Dombrosky all present arose and participated in the pledge of allegiance to the flag of the U.S.A.

CITIZEN'S HEARINGS:

1. Mr. N. Leonard Hill, 405 Kingston Drive thanked the Board for increasing the size of the Police Force. He also spoke on the voting district plan devised for the New School District. He noted the plan called for nine voting districts of about seventy five hundred population from the twelve municipalities in the New District vs a population from Wilkins of about eighty five hundred.

Mr. Hill expressed his opinion that Wilkins should be one voting district and not be split into two districts as proposed in the present plan. He appealed to the Board of Commissioners to review the matter and to seek reconsideration of the present plan.

Mr. Dombrosky asked Mr. Means, Township Solicitor, if the Township could take any action in the matter. Mr. Means indicated he would have to review the matter but felt that a means for further review should exist.

Mr. Rice indicated the need for rapid action since filing for seats on the New School Board must be done by about September 24th. Mr. Hill indicated that the two seats in the districts covering Wilkins under the present plan were not up for election this year.

Mr. Means asked Mr. Hill if the possibliity existed that a review of the plan might result in less balanced representation.

Mr. Hill indicated that this possibility could exist. The Commissioners directed the Solicitor to look into the matter.

2. Mr. and Mrs. Joseph M. Ballay of 131 Sunset Drive, Penn Hills, and Mr. and Mrs. David Porter of 135 Sunset Drive, Penn Hills, appeared before the Commissioners. Mr. Ballay acted as spokesman for the group. He noted that these two properties were located adjacent to the Wilkins Penn Hills Boundary and were experiencing serious problems with their 'on lot' septic systems. Mr. Ballay noted the request by the Penn Hills Engineer to connect these properties into the Wilkins Sanitary Sewer System and the denial by Wilkins of this request.

He presented a letter of appeal (See communications) of this decision:

Mr. Ballay made the following points:

A. The residents are making this appeal not the government of Penn Hills.

B. The problem is causing raw sewage to run on the streets in both Penn Hills and Wilkins.

C. The septic systems cannot be replaced to present Health Department Standards.

D. The Health Department is threatening to prosecute the residents if the problem is not resolved.

Mr. Dombrosky noted that the Board of Commissioners is in sympathy with the problem but has had a series of difficulties with Penn Hills over joint sanitary sewer operations.

Mr. Bowlin noted the proximity of Penn Hills Sewers.

Mr. Porado reviewed in detail past problems with Penn Hills over sewers in Eastmont, Chalfant Run, Suncrest Manor, and Ridgecrest.

Mr. Dombrosky stated the Boards feelings that a meeting with a quorum of the governing bodies of Penn Hills and Wilkins was needed rather than having the matter handled by the Penn Hills Engineer. Mr. Dombrosky stated Wilkins had no objection to the residents involved attending such a meeting. Mr. Ballay indicated he would approach Penn Hills on the matter.

Mr. Porter thanked the Township for rendering safety services to the few Penn Hills homes on Sunset Drive.

Mr. Means suggested the record indicate that our police patrols cover this area in route from one portion of Wilkins to another.

PUBLIC HEARING:

President Dombrosky announced that the first order of business was to conduct a public hearing on the revised request of the Faith Bible Baptist Church for a Conditional Zoning Use to permit construction of a two-bay bus repair facility on their property off Curry Avenue.

Mr. Dombrosky stated that the hearing was necessary since the Church had submitted a revised site plan indicating that the facility was proposed for a different location from that discussed in the previous hearing of May 26, 1981.

The Secretary introduced the following documentation:

A. Letter from Rev. Gary LaPietra, Pastor, of August 7, 1981 requesting approval of revised site plan.

B. Revised site plan as proposed by Tasso Katselas, Architect, dated March 17, 1981 as revised August 1981.

C. Proof of Publication of Hearing Notice.

D. Affadavits of Mae S. Franc, John Guido, and Charles Hunsberger, Township Employes, indicating posting and mailing of Hearing Notices.

Mr. Dombrosky then called for testimony.

A. Mr. Greg Smith, 238 Richald Dr., Pgh., 15235, Bus Director, for the Church reviewed the revised site plan. He noted that the original proposal was to place the repair facility in an addition to the east end of the existing Church Building. This would have required considerable filling to construct an access road adjacent to the north line of the Church's property. There were also some cost problems with this approach. The Church, therefore, desires to construct the facility in a separate building about 130'± east of the Church Building. This will avoid the grading problem. Mr. Smith noted the facility would be the same size as originally proposed.

B. Dr. Robert Fisher, 221 Farnsworth Avenue, appeared and stated he was the adjacent landowner. He asked Mr. Smith if any grading adjacent to his property would be required. Mr. Smith answered that no grading would be required near the Fisher property.

Dr. Fisher indicated he had no further comment or objection to the revised proposal.

No one else appeared to testify.

The Secretary was directed to record that the Hearing was closed at 7:50 P.M.

President Dombrosky then indicated that the floor was open for Citizen's Hearings.

Approved as presented 1/11/82

WILKINS TOWNSHIP BOARD OF COMMISSIONERS
MINUTES OF THE PUBLIC HEARING OF DECEMBER 21, 1981

The Public Hearing of December 21st was called to order at 7:30 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky
Mr. Bowlin
Mr. Hanlon
Mr. Porado

It was noted that Mr. Rice was unable to attend due to serious illness in his family.

Mr. Dombrosky led all present in the pledge to the flag.

Mr. Dombrosky noted that this hearing was a continuation of the hearing of June 16, 1981 on the appeal of Thomas and Barbara Reilly and the Organ Grinder Pizza Parlor from a decision of the Zoning Officer to deny a driveway permit to Hawthorne Drive for property at 3333 William Penn Highway.

He called for testimony:

1. MR. PATRICK THOMASSEY, 502 Manor Building, Pittsburgh 15219, Attorney for Mr. Reilly introduced the following information:

   A. He noted this continued hearing had been postponed from August 24th at his request in order to become familiar with the case.

   B. He introduced a copy of a compilation of accidents in the area as prepared by the Township Police Department (Reilly Exhibit #3). He indicated these statistics supported the contention that the driveway on Hawthorne Drive was necessary.

   Mr. Means indicated that, at the previous hearing, the Board had asked for detailed information on specific accidents not just a statistical compilation. He suggested Mr. Thomassey obtain these from the police. Mr. Thomassey agreed to do this.

   C. Mr. Thomassey noted in support of his request that left turns into other businesses were not prohibited by the Township and that at the SPA there was no prohibition on left turns out of the Business. He also noted a signal had been provided at the Showcase Cinema. Mr. Dombrosky noted this was not at Township expense.

   D. Mr. Thomassey suggested the driveway was necessary because of Pendot's failure to provide a continuous left turn lane on the William Penn Highway.

   E. Mr. Thomassey presented ten photographs of traffic conditions in the area (Reilly Exhibit #4).

2. DR. MARTIN COHEN, 109 Calmont Drive made the following inquiries:

   A. Was adequate notice given of the continued hearing. Mr. Baldwin noted the proof of publication of the hearing notice and noted that copies of the notice had been sent to those testifying at the previous hearing.

   B. Is the stacking lane on the William Penn Highway at Hawthorne Drive of adequate length to handle the traffic? Mr. Means indicated that the Board could not answer this question.

Mr. Baldwin, Zoning Officer, then asked Mr. Raymond Hack to testify.

3. MR. RAYMOND HACK, Traffic Engineer, District 11B, PA Department of Transportation, 4 Parkway Center, 875 Greentree Road, Pittsburgh 15220

   Mr. Hack made the following points:

   A. Mr. Reilly had opened a driveway onto the William Penn Highway adjacent to Hawthorne Drive. This driveway was too close to the intersection.

   B. The State had closed this driveway.

   C. In a letter to Mr. Reilly dated May 13, 1981, Mr. Hack suggested a driveway to Hawthorne Drive, a municipal street. In his testimony Mr. Hack expressed an opinion that this driveway would be beneficial for ingress but that further traffic studies would be required regarding exiting from the property and the effect on the Hawthorne Drive - William Penn Highway intersection.

   D. Mr. Reilly never submitted the traffic study.

Mr. Means questioned Mr. Hack at length as to whether Mr. Hack had any statistics or studies to back up his opinions.

Mr. Hack indicated that he did not.

Mr. Means asked Mr. Hack if this degree of attention on a simple driveway permit was normal. Mr. Hack indicated that this was done in some cases.

E. Mr. Hack indicated that a continuous left turn lane would be installed on the William Penn Highway between Hawthorne Drive and the William Penn Highway in the Spring of 1982 after resurfacing and that if the Township permitted left turns from the premises this would eliminate the need for access to Hawthorne Drive. He made reference to his letter of May 18, 1981 on this subject.

Dr. Cohen questioned Mr. Hack on sizes of cartways etcetera if a fifth lane were added to the William Penn Highway.

Mr. Hack indicated the cartway was fifty two (52) feet wide giving room for five ten (10) feet lanes.

He indicated ten (10) feet lanes were in use on this road in Monroeville.

4. MR. BALDWIN introduced a letter (Township Exhibit #4) from Bettina Ferraro of PENDOT of December 10, 198 indicating that the William Penn Highway would be resurfaced in the Spring of 1982.

5. MR. DAVID E. WOOSTER, Township Traffic Consultant, 66 East Crafton Boulevard, Pittsburgh Pa.

   Mr. Wooster stated he had no comments on Mr. Hack's remarks. He then reviewed his previous remarks at the June 16th hearing and indicated that, in his opinion, the permit should still be denied.

6. MR. THOMASSEY questioned Mr. Wooster and Mr. Baldwin on turning restrictions at other businesses and access at the Suburban East Medical Center. Mr. Hanlon asked Mr. Baldwin to review this matter.

7. MR. BALDWIN indicated that many of these regulations were several years old and that in his recollection the following applied:

   A. The Medical Center access to Hawthorne Drive long predates the Driveway Permit Ordinance No. 621.

   B. Medical Center access to the William Penn Highway would be extremely difficult because of topography.

   C. The restrictions on left turns eastbound into the Organ Grinder property were imposed by PENDOT.

   D. The Township received PENDOT permission to limit left turns out of businesses on the William Penn Highway by Ordinance and to post signs. The Township also received permission from PENDOT to limit left turns into businesses but had never erected overhead signs because of the cost.

There was no further testimony.

Mr. Dombrosky noted the hearing would be continued for Mr. Thomassey to provide the requested accident reports and for his client to pay the balance of the review fees due and invoiced.

He directed the hearing adjourned at 7:59 P.M.

Respectfully submitted,

Wilmer K. Baldwin

Wilmer K. Baldwin, Secretary

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

MINUTES OF THE ADDITIONAL STATED AND BUDGET ADOPTION MEETING 12/28/81

The December 28th Additional Stated Meeting was called to order at 8:30 P. M. by President Dombrosky.

A quorum was present as follows:
Mr. Dombrosky
Mr. Rice
Mr. Bowlin
Mr. Hanlon
Mr. Porado

President Dombrosky led all present in the pledge to the flag.

Mr. Dombrosky noted that the primary items for consideration were ordinances fixing the 1982 Tax Rate, adopting the 1982 Budget and a Resolution reappropriating funds in the 1981 Budget.

The Secretary presented proof of publication of the notice of the budget examination period and proposed adoption.

AN ORDINANCE OF THE TOWNSHIP OF WILKINS, ALLEGHENY COUNTY, AND THE COMMONWEALTH OF PENNSYLVANIA, APPROPRIATING SPECIFIC SUMS ESTIMATED TO BE REQUIRED FOR THE SPECIFIC PURPOSES OF THE MUNICIPAL GOVERNMENT, HEREINAFTER SET FORTH, DURING THE YEAR 1982.

(4817) MOVED PORADO-HANLON to read Ordinance No. 682 for the 1st reading.
(4818) MOVED HANLON-BOWLIN to accept Ordinance No. 682 for the first reading.

MRS. MARY YAKIN, 35 Crestview Drive complained as follows:

1. She was not permitted to examine the budget.
2. The Secretary read the Ordinance too fast.

JOSEPH YAKIN, 37 Crestview Drive, Chief VFD #3 noted that the Fire Departments were not receiving the funding they requested; i.e., 20,000. operating allowance/Company and full financing by the Township of new trucks.

He indicated that, in his opinion, statements made at a recent meeting with the Fire Departments regarding future revenues were not correct and indicated his dissatisfaction with the amount of funding for officials training.

He then outlined the need for increased funding for the Fire Departments which he felt is required due to inflated operating costs.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS
MINUTES OF THE PUBLIC HEARING OF MARCH 22, 1982

The March 22nd public hearing was called to order at 7:00 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky
Mr. Rice
Mr. Bowlin
Mr. Hanlon
Mr. Porado

Also present was Solicitor Means.

Mr. Dombrosky led all present in the pledge to the flag.

The Secretary submitted proof of publication of the notice of the public hearing as it appeared in the Township's Official Newspaper.

Mr. Dombrosky noted that the purpose of the hearing was to take testimony on a proposed rate increase as filed by the Valley Cable TV Company on June 4, 1981. He noted that testimony would also be taken on proposed expansion of Cable TV service. Mr. Dombrosky indicated that questions should be addressed to Mr. Joseph Wilhoit, General Manager of the Valley Cable TV Company, who was present at the hearing.

Mr. Dombrosky then called for testimony:

1. Mr. George Liebling, 111 Hart Drive, expressed his desire that for the consideration of expanded service to at least a thirty five channel system. He noted no problem with the proposed rate increase if it was tied into a committment to provide the expanded service. He noted that he spoke for several residents in the neighborhood.

2. Mr. Joseph Wilhoit thanked Mr. Liebling for his comments. He noted the company had discussed the matter of expanded service with the Township and was ready to proceed. He passed out a list of proposed additional service (a copy of which is included with the minutes).

Mr. Wilhoit noted that construction of new physical plant will take about sixteen months primarily because of delay in the delivery of new equipment. He indicated that a thirty five channel system was under construction in Churchill Borough and would enter service in the fall of 1982.

3. Mr. Wilhoit introduced Mr. Michael Maythesse, Chief Technican of the company. Mr. Maythesse explained proposed construction procedure. He indicated that the existing system would remain intact during the construction period and would be removed after the new service was installed.

4. Mr. Liebling questioned the delay in construction time. Mr. Wilhoit again indicated problems with delivery of equipment and noted that the issue of expanded service that only recently come before the Township and the company.

5. Mr. Don Potts, 220 Harwick Drive, speaking for the Penhurst Civic Association noted that he had conducted a survey of cable television rates and services and indicated that Valley had the lowest rates in the area but also the smallest number of channels because of the age of the system.

Mr. Potts asked the following questions of Mr. Wilhoit:

Q. What would be the base service charge for a thirty five channel system?

A. At the present time it would be $7.95/month.

Q. What chances exist for the bringing of a new company into this service area?

A. Mr. Wilhoit said this could be done by action of the Township.

Q. Would it be possible to provide HBO (home box office service) without a separate converter box?

A. This would be provided on a regular channel if an expanded system were installed.

Q. What effect would an expanded system have on program preemption problems which exist with the present system.

A. This would be solved by the additional channel capability. The FCC

rulings on this procedure which require UHF stations to be carried at the expense of existing VHF facilities. Mr. Wilhoit also noted that local access programming would be expanded if a new system were installed.

Q. Could people on a fixed income get less expensive service (less channels) if the system were expanded?

A. This would not be, techanically, possible and the base service charge must be set assuming that all thirty five channels would be used.

6. Mr. Liebling questioned what control would exist over home box office price. Mr. Wilhoit indicated that legally this was not controlled by the municipal franchise per FCC rulings. Mr. Wilhoit indicated that additional optional services of this nature could be provided with the expanded system.

7. Mr. Potts asked what the present HBO rate was. Mr. Wilhoit responded that it was $9.95 per month at the present time.

8. Mr. George Wise, Dowling Avenue, inquired as to when the present two franchise expired. Mr. Wilhoit indicated that it ran to November 1986. He further indicated that the company would propose negotiations to institute a new franchise if the system were expanded at this time. Mr. Wise further commented that the present system was not current State of the Arts since there had been no technical change to it since 1966.

9. Mr. Potts inquired as to whether the company would be agreeable to a rate change after the new franchise was executed and the new system installed. Mr. Wilhoit indicated that the company was requesting the indicated rate increase at this time based on increase in expenses since the last rate increase of 1976. He indicated that the company would then consider negotiating a new franchise for expanded service.

10. Mr. Wise further inquired as to the sixteen month delay in construction of a new system. Mr. Wilhoit again explained the problems of design time and equipment ordering.

11. Mr. Michael Pluta, of Stevendale Drive, inquired as to whether NCAA basketball and additional sports coverage could be added to either the existing or new systems. Mr. Wilhoit indicated that there was not capacity for this type of programming on the present system but that it would be included with the proposed expanded system.

12. Mrs. Neva Potts, 220 Harwick Drive, expressed concern about the pre-empting of network channels 6, 7 and 9 by local UHF programming. Mr. Wilhoit again reviewed the FCC rules pertaining to this situation.

13. Mr. Liebling asked that the company make a formal committment for the record for a rebuilding of the system to thirty five channel capability. Mr. Wilhoit indicated that the company desires to do this and that discussions had been initiated with the Township approximately three weeks ago and that the company was willing to consider negotiation of the new franchise.

14. Commissioners Rice and Dombrosky indicated a concern of the Board of Commissioners with the question of increased cost versus expanded service. Mr. Rice indicated that we had the first cable system in this area and that the Board was now attempting to determine the consensus from the public as to whether the increased service would be justified with the resulting increased costs. Mr. Dombrosky noted that the Board would meet shortly with representatives of the company and the Township Solicitor to further develop a position on this. He further indicated the Township's concern with further rate increases and their effect on residents with fixed incomes.

15. Mr. Means, Township Solicitor, posed certain questions to Mr. Wilhoit. He indicated that there were two basic proposals before the Board:

A. A rate increase for the existing system.

B. The question of an expanded thirty five channel system.

Mr. Means noted that it was apparent that there was no way that people could continue with the old system at the present rates if the new one was installed and that there was no way the company would install the new system without resulting rate increases. He then asked Mr. Wilhoit if the possibility could exist of a discount to persons of limited income if proper controls were applied. Mr. Wilhoit indicated that company policy would not permit this.

16. Mr. Dombrosky asked Mr. Wilhoit to again comment on what the monthly base service charge would be with the expanded system. Mr. Wilhoit indicated that this would be $7.95 per month. Mr. Dombrosky then proposed a formula whereby a rate increase would be phased over a period of time as the new system was constructed and placed into operation. Mr. Wilhoit indicated that the company desired the base service increase from $5.95 to $6.95 at the present time based on inflated operating costs.

Mr. Rice and Mr. Dombrosky again emphasized the need for some type of a 'stepping' of rate increases to insure the orderly construction of the new system.

Mr. Dombrosky then asked for a show of hands as to how many members of the audience would be interested in the expanded service at additional cost if construction were to start in the near future. Thirteen of the fourteen people present indicated their agreement with this position.

17. Mr. Porado asked if any portions of a proposed expanded system would be in operation prior to the sixteen month timetable quoted by Mr. Wilhoit. Mr. Wilhoit indicated that a first phase covering a portion of the Township could be ready in approximately eight to nine months.

18. Mr. Gene Bellaserio, 113 Gilmore Drive, asked for specifics on the rate increase. Mr. Wilhoit indicated that the present request was for a $1.00 per month increase on base service with the existing system he further indicated that rate in adjacent municipalities was $2.00 per month over the Wilkins present rate for the thirty five channel system.

19. Mr. Baldwin asked if there would be any delay with additional pole attachment agreements for the construction of the new system. Mr. Maythesse indicated that there would not be. He also indicated that some new underground installations would be required.

20. Mr. Bellaserio inquired as to whether a rate increase could be picked up solely through home box office subscriptions. Mr. Wilhoit indicated that approximately 36.5% of all houses passed by the cable system in the Township were on HBO; hence, the increase would not apply to all. He further noted that the HBO organization would take a percentage of the increased subscription fee and; hence, the self system would be defeated.

21. Mr. Means inquired as to whether the thirty five channel system was the best accepted standard in our area today. Mr. Wilhoit indicated that it was and that there would be room for further expansion. He mentioned specifically a second pay tv service. Mr. Wilhoit further noted that the present system was outmoded because of age versus technology. He then explained various services that could be offered on the new system including music channels and other packaged programs.

22. Mr. Rice asked for specifics on the Churchill franchise. Mr. Wilhoit indicated that it had been established in August of 1981, was for fifteen years with a thirty five channel system at the $7.95 monthly rate. Mr. Rice asked as to how rate increases would be calculated. Mr. Wilhoit responded that this would be on a formula based on the Consumer Price Index.

23. Mr. Bellaserio questioned the validity of using the general CPI as a means for determining rate increases since it covered many areas such as housing and transportation which did not fit this particular issue. Mr. Wilhoit indicated that under the Churchill franchise the rate increases were calculated on 70% of the CPI. Mr. Dombrosky assured Mr. Wilhoit that the Township would insist on a formula which was equitable to residents.

24. Mr. Pluta inquired as to whether the company would provide a performance bond insuring rapid construction of the new system. Mr. Wilhoit agreed to do this.

25. Mr. Joseph Rausch, Dunbar Drive, and Mr. Liebling requested that the Township, in the future, take additional steps to publicize hearings of this nature.

There was no further testimony.

Mr. Dombrosky noted that the Board would review the comments of this hearing and would render a decision in the near future.

(4858) MOVED HANLON-BOWLIN to adjourn. The motion being unanimously adopted, the meeting was adjourned at 8:15 P.M.

Respectfully submitted,

WILKINS TOWNSHIP BOARD OF COMMISSIONERS
MINUTES OF THE REGULAR MEETING OF MONDAY, JULY 12, 1982

The regular meeting of the Board of Commissioners of the Township of Wilkins was called to order at 7:30 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky		Mr. Hanlon
Mr. Rice	Mr. Bowlin	Mr. Porado

At the invitation of President Dombrosky all present arose and participated in the pledge of allegiance to the flag of the U.S.A.

CITIZEN'S HEARINGS:

1. MR. ROBERT GRUBER, 3938 Dowling Avenue requested that the NO PARKING signs on his street be returned to their original location. He cited pedestrian safety as a reason. Mr. Hanlon indicated the signs would be returned to their original location in the near future.

2. MR. AL YAMNITSKY, Rita Drive again spoke concerning the Magistrate's presence in the municipal building. He also again spoke against the slurry seal program. Mr. Bowlin discussed details of the program. He noted that cracks would reappear but were sealed. Mr. Yamnitsky inquired as to whether the seal would endure winter weather. Mr. Bowlin indicated that on streets with normal traffic it would last about three years. It was noted that the future of the program was being studied.

3. MR. LAWRENCE LUCAS, 331 Frazier Drive spoke again in favor or retaining the Magistrate's office in the Municipal Building. He made the following points:

   A. Easy access
   B. Notary service
   C. Revenue produced
   D. Access to lockup

   He noted the problem could be resolved by revised scheduling of building use and complimented the Board on their administration. Mr. Lucas noted, in his opinion, the issue was one of service not of senior citizens versus younger citizens. He complimented the Senior Citizens on their activities.

4. MRS. MARY YAKIN, 35 Crestview Drive noted that the original intention was to use the building for all. She suggested that the County be asked to alter the Magistrate's schedule, including evening hours, to resolve the problem. She noted the Magistrate was required to sit during evening hours at Courtdowntown. She noted the primary use of the building should be for public business such as the Magistrate.

At the invitation of President Dombrosky, all present arose and participated in the pledge of allegiance to the flag of the U.S.A.

CITIZEN'S HEARINGS:

1. Mrs. Virginia Brieghton, 119 Lucinda Drive, complained regarding vandalism on her street and to her property. She indicated this has been going on for some time, that she had an idea as to who was doing it and had, on this date, reported same to the Police Department. Mr. Hanlon indicated he would discuss the matter with the Chief. Mr. Dombrosky asked Patrolman LaPaglia who was present to immediately patrol the area. The Officer complied.

2. Nick Traficante, 123 Lucinda Drive, complained about the same problem. He indicated it had stopped after police involvement but had started up again. He indicated more patrolling was necessary. Mr. Dombrosky indicated that the Board would direct the Police to increase patrolling in this area. Mr. Dombrosky asked the Solicitor to discuss legal procedures. Mr. Means reviewed the limits of laws pertaining to parental responsibility. He noted that the youths must be caught in the act to prosecute the child. This results in parental involvement. He indicated that use of the curfew ordinance was in order. He indicated the parents could be sued if the child is caught committing vandalism.

3. Mary Yakin, 35 Crestview Drive, requested clarification of the Resolution requesting community development funds on Quarry and Grandview Avenue for sewers. She asked what area was involved. Mr. Porado indicated that if possible, the whole area would be served. Mr. Dombrosky and Mr. Baldwin further explained this. Mrs. Yakin then questioned the involvement of various property owners in the area and of possible sewer routing through adjacent properties to Electric Avenue. Mr. Porado indicated that sewer and right of way design was under review with the Greek Orthodox Church who owned the land along Electric Avenue.

(4989) MOVED BOWLIN-HANLON to approve the minutes of the regular meeting of September 13th and the additional stated meeting of September 27, 1982 as presented. The motion was approved by unanimous roll call vote of all present.

CITIZEN'S HEARINGS:

President Dombrosky indicated that the first order of business was a public hearing on the request by the Faith Bible Baptist Church to amend the Conditional Zoning Use on church property off Curry Avenue.

The Secretary introduced the following documentation:

Documentation Re: Request for Amendment to Conditional Zoning Use - Faith Bible Baptist Church - January 1983

1. Letter of January 5, 1983 from Rev. LaPietra requesting amendment to construct caretakers house from existing pump house - referred to Planning Commission.

2. Application form with plans - 1/10/83 - Referred to Plng. Comm.

3. Copy of section of Conditional Use 8/25/80 indicating permission for one dwelling unit for Parsonage.

4. Letter from Secretary 1/13 setting Planning Commission Review 1/19/83

5. Minutes of Planning Commission meeting 1/19/83 wherein request was made for two units. Recommended to Commissioners by Planning Commission.

6. Copy of Notice of 3/14/83 Hearing to be advertised in THE PROGRESS with letter from paper indicating advertised 3/2/83 and Proofs of Publication.

7. Affadavits from Mr. Kuszajewski and Mrs. Franc Re: Distribution of Hearing Notices.

President Dombrosky called for testimony:

1. Rev. Gary LaPietra, Pastor, referred to the letter of January 5th and the applications of January 10th. He testified that the church was suffering severe vandalism problems and stated that an on site caretaker was viewed as a deterrent to vandalism.

In answer to questions from Mr. Dombrosky, Rev. LaPietra requested permission for a second dwelling unit as quarters for future pastors.

2. Mr. Dombrosky noted that the structure appeared rather large for a single family dwelling.

3. Mrs. Mary Yakin, 35 Crestview Drive, asked what was the objection to the size of the structure. Mr. Dombrosky stated that he had none.

4. Mr. Walter Kivinski, 143 Gardenia Drive, questioned the need for a 4-5 bedrooms in a single family structure.

Rev. LaPietra indicated the structure was large since the housing would be the sole renumeration of the caretaker.

There was no further testimony.

President Dombrosky declared the hearing closed at 7:45 P.M.

President Dombrosky indicated that the floor was open for other Citizen's Hearings.

1. Mr. Joseph Yakin, 37 Crestview Drive, questioned Mr. Means as to the proceedings for inspection of documents. He was answered by Mr. Means. He indicated that there was a Resolution regarding this matter. Mr. Dombrosky also indicated the requirement for prior notice.

2. Mrs. Mary Yakin, 35 Crestview Drive, again questioned items regarding the 1983 Budget claiming items in the public inspection copy of the budget differed from that sent to the State. Mr. Dombrosky stated that this matter had been discussed previously and declined to answer further.

Mrs. Yakin then began a series of remarks regarding Township Finances and those of the PA State Association of Township Commissioners.

After about two minutes of speech she directed profane remarks toward the Board President.

At this point, President Dombrosky advised Mrs. Yakin that her privilege to speak at public meetings was again revoked. He directed that the Secretary save the tape recording of these proceedings.

(5065) MOVED HANLON-PORADO to approve the minutes of the Regular Meeting of February 14th and the Additional Stated Meeting of February 28, 1983 as presented. The motion was approved by unanimous roll call vote of all present.

CITIZEN'S HEARINGS:

1. Mr. Vincent Galloro, 160 Dorothy Street inquired as to the status of a land development project off the end of Dorothy Street. He asked if there would be any costs to residents as a result of sanitary sewer construction. Mr. Baldwin noted that Mr. Eugene Litman had filed an application for a Planned Residential Development for a twenty-four (24) unit "garden apartment". He noted that the Planning Commission had rejected the application since the sanitary sewage component was not completed.
   Mr. Galloro inquired as to whether Federal financing was involved. Mr. Baldwin answered that this was not known at this time.
   Mr. Dombrosky explained the review procedure and noted that, if the application were to proceed, hearings would be held where questions could be answered.

Mr. Dombrosky asked that the applicant explain the proposal.

Mr. James Schwartz, representing Highland Manor Associates, reviewed the drawings presented and made the following points:

1. The proposal involves twenty four garden apartment units on five plus acres of land.
2. The proposal would be located off the end of Dorothy Street.
3. Complete landscaping would be provided.
4. 36,000 square feet of common open space would be provided.
5. The building would be of masonry construction.
6. The Developer to provide, own and maintain all streets, storm and sanitary sewers.

Mr. Dombrosky then called for comment from the audience.

In answer to questions answered by Mr. Schwartz, Mr. Litman and others, the following points were made.

1. A level area needs to be provided around the building for access by fire apparatus.
2. A fire hydrant will be provided.
3. The building will be three hundred feet from the nearest house.
4. There will be a twenty foot difference in elevation front to rear.
5. There will be no entrance from Grandview Avenue at this time.
6. The project would not be public housing, rents would not be subsidized.
7. Units would rent from $215. - $300./month plus utilities.
8. Soils engineering studies had been completed, indicating that buildings could be constructed on the site.
9. The rest of the tract is not at issue at this time.
10. The sewer agreement with Chalfant Borough permits up to fifty units based on the Borough's estimate of sewer capacity. The proposal before the Township is for twenty four units.
11. No access will be permitted from Chalfant Borough to the development. The developer indicated that he was advised by Chalfant Borough that persons in Chalfant now having access may continue to do so.
12. A need exists for proper sanitary sewers in the area; i.e., Dorothy, Peter, John Streets and Quarry and Grandview Avenues. The Township indicated that applications for Community Development Funds for these projects have been filed.

13. Storm sewer plans were on file.

14. Erosion Control Plans would be submitted to the County Soil Conservation District.

15. A concern exists regarding traffic flow on Dorothy Street particularly if additional development occurs.

16. The developer will have to be bonded against any damages to Dorothy Street.

17. There are no plans to widen Dorothy Street.

At the conclusion of comment, Mr. Dombrosky indicated that the Board would consider the various issues raised.

(5184) MOVED HANLON-RICE to adjourn. The motion being unanimously adopted, by those present, the meeting was adjourned at 8:28 P.M.

Respectfully submitted,

turnout gear (coats, helmets, boots, etc.) was stored in the garage of one of the office buildings of the Sampson Company.

On property which was then the end of Frazier Drive, a two-bay garage was constructed which served the civic association as a combination building — a recreation center for youth and a fire station. In the late 1950's the civic association turned over the ownership and the mortgage for the building to the Eastmont Volunteer Fire Department. By that time the fire company had its own non-profit charter from the courts and was no longer operating as a division of the civic association. In the 1960's the fire company added a second floor room which has been able to serve both fire company and community organization needs.

With Eastmont using fire engines manufactured in the 1920's, and the other two Wilkins Fire Companies using fire engines manufactured before World War II, by 1955 the Wilkins Township Board of Commissioners agreed to grant financial assistance to each of the three fire companies to obtain new fire apparatus. The Eastmont Station received a brand new pumper in December of 1956. This was the start of a plan that has been continued by the Wilkins Township Commissioners to provide financial aid for fire engine replacement approximately every 12 years.

In the 1950's Wilkins Township was still using part-time police officers. Although paid an hourly wage, these men worked only during hours that agreed with their normal employment. To obtain police assistance one had to call the Pittsburgh Police Radio dispatch, they announced the call to Wilkins, and the Wilkins officer then had to telephone Pittsburgh radio dispatch to learn the nature of the call. When in the 1960's Wilkins Township began increasing their police force to include full-time career police officers, they also entered into a joint emergency dispatch and radio center serving Churchill Area communities and located in the Forest Hills Municipal Building. The fire companies were then afforded a full-time, manned dispatch center and were given the opportunity to become radio controlled.

In December of 1970 we received a new fire engine according to a replacement plan arranged with the Board of Commissioners and with partial financial assistance from the Board. The 1956 engine became a reserve fire engine. In the summer of 1975 we received the current squad truck which we paid for by taking out a five-year bank loan. The purpose of this vehicle was to carry tools and equipment that, due to weight and size, could not fit on a pumper and also to serve as a personnel carrier. Now, in 1983, we have retired completely the 27-year-old pumper and are using the new 1983 fire engine, and the 1970 model.

All of this growth and development by Eastmont Volunteer Fire Department would never have been possible without the total community support and commitment over the last three decades. For this we are especially grateful. We hope that we will never lose your confidence and your support.

The total cost of the new fire engine was $136,000.00 and the price tag for the equipment it carries exceeds $15,000.00. The Wilkins Township Board of Commissioners made a contribution of $63,000.00 toward this purchase. The fire company officers signed a ten-year note with the State of Pennsylvania for a Volunteer Firefighter's Loan in the amount of $60,000.00 to complete purchasing and equipping this fire engine. We look forward to your continued support and assistance to meet our financial obligations.

In the near future we must also look, financially, toward the probable replacement of the fire station roof plus rebuilding the driveway. The length of the driveway is a problem, but that was part of the original deed restriction at the time the property site was acquired. Residents in that immediate area in the mid-1950's required that the fire station be located as far back as possible on the property site to reduce being a problem to the residential nature of the area.

Quite sincerely, there is one vital need we face at this time which can not be solved by financial contribution, and that is membership. During the past 12 to 18 months we have lost a half-dozen very active (and somewhat younger) members mainly because of moving elsewhere for employment reasons. At least three very active members took jobs elsewhere as paid firefighters, and two others entered the military service. Another two moved for job relocation. We also have a few long-standing members who have now entered the ranks of retired, senior citizens. The work load and community service load is falling upon an increasing smaller number of persons. In plain, straight forward language, we are not a closed shop. We need new members and we would welcome the addition of more personnel. We must be honest enough to say that membership does require time for training both for the firefighter's safety and the community's safety and it requires time to maintain the fire house and equipment. Feel free to stop by the fire house on Frazier Drive any Tuesday evening or Saturday morning just to look around or to discuss membership.

THANK YOU
FOR YOUR CONTINUED SUPPORT

Through contributions to our fund drives, our street fairs, and other activities, your support has made it possible for us to purchase and maintain the most modern equipment possible. Pictured on the front cover, bottom right, is our latest purchase, a 1983 Sutphen pumper, delivered in late March of this, our 30th anniversary year.

The special features of this pumper include: a 750-gallon water tank for immediate attack on a house fire until a water supply line can be placed in service from the nearest hydrant; a heavy-duty diesel engine; a heavy-duty automatic transmission; and a large capacity electrical generator to provide lighting at night and to power emergency rescue tools. The vehicle is also equipped with 1,200-feet of large diameter water supply line and carries two smaller sizes of hose line used to apply water directly onto a fire. In addition it has the capacity to run air powered rescue tools directly from the truck's air supply.

When the Eastmont plan of homes began to open in 1953, several small fires and one large fire in an abandoned farm building (scheduled for demolition), convinced a number of new residents of the wisdom of establishing a volunteer fire company in this section of Wilkins Township. The establishment of a fire company became a function of the Eastmont Civic Association in the very early years.

Through a local fire equipment salesman and a member of the Wilkins Township Board of Commissioners who worked for the Allegheny County Road Department, several interested residents learned about a 1929 vintage fire engine for sale in the McKeesport area. In November of 1953 four local gentlemen each contributed the grand sum of 25¢ in order to purchase the first fire engine and complete what amounted to a good-will donation to a group struggling to start a new fire protection service — thus Eastmont Volunteer Fire Department was born. A year later, through the fund raising efforts and willingness of members to co-sign a bank note, a loan of $500 was obtained to purchase a 1926 vintage fire engine in order to increase the ability to respond to fire calls with aged equipment.

For approximately the first two years, until property could be obtained and funds were raised for a building, the fire engines were housed under tarpauline where the Croation Fraternal Union Building now stands. This was, at that time, the parking lot for the model homes and sales offices for the Sampson Brothers Development Company. To report a fire, residents had to call the home of one of several listed volunteer firemen. The first alerting siren was mounted on the home of a fireman on Kingston Drive. The

Several years ago the Township Secretary was authorized by the Board to dispose of obsolete records in keeping with the guidelines of the most recent edition of the Retention and Disposition Schedule for Records of Pennsylvania Municipalities, as issued for the local government records committee by the Pennsylvania Historical and Museum Commission, Division of Archives and Manuscripts, Harrisburg (17 May 1982).

As the Board is aware, every two-three years we houseclean files. If we did not we would be buried in same. From January 1, 1984 to date, the front office files less the vault have been overhauled. In the near future we will work on those records in the check room and the vault.

Payroll Records four years
Tax Reports (not bound duplicate) five years
Audit Records - less reports - seven years
Department Reports two years
Extra copies of minutes - no standard (we have bound volumes and a microfilm copy from 1901 to date)

Under these standards, the following documents have been thrown out:

Mr. Hanlon	Mr. Bowlin	Mr. Porado

Mr. Dombrosky indicated that the Board would act in a judicial capacity and that all questions should be placed to the applicants. He also stated that the hearing would be conducted under provisions of PA Act 247 and that the Township Solicitor would act as legal counsel to the Board.

Mr. Dombrosky administered the oath to all witnesses.

The Secretary introduced proof of publication of the hearing notice and an affadavit indicating distribution of same.

Mr. Dombrosky called upon Mr. Robert Ament, Petitioner.

Mr. Ament indicated he was an attorney representing the Faith Bible Baptist Church, 150 Curry Avenue. He presented a petition for a Curative Amendment to Zoning Ordinance No. 542 to permit private schools in Residential Zoning Districts.

Mr. Ament made the following comments and introduced members of the Church's Board of Trustees:

1. The petition is filed under Section 504, Ordinance No. 542.

2. The Church owns 8.5 acres of land on Curry Avenue located in the R-2 Residence Zoning District.

3. The Church desires to transfer a portion of it's private school operation (now on Thompson Street) to the Curry Avenue site. This is not possible under Ordinance No. 542.

4. Ordinance No. 542 permits private schools only in Commercial Zoning Districts. The Church does not feel this is proper.

5. Through its petition, the Church requests that Ordinance No. 542 be amended to permit private schools in Residential Zoning Districts.

6. The original (1980) application for a Conditional Use of the Curry Avenue property was for a church and school. At the hearing, the Pastor indicated that the School request would be withdrawn but would be submitted at a later date. The Church has chosen to do so now.

7. The present Ordinance is challanged as being involved and exclusionary.

8. The health and safety of children is not promoted by limiting private schools to Commercial Districts.

9. The Zoning Ordinance is discriminatory in that public schools are permitted in R-4 Residence Districts.

10. Such exclusionary or discriminatory language in a Municipal Zoning Ordinance is contrary to PA Law. Cases cited were O'Hara appeal and Ross Township vs Harsh.

11. A Church sponsored school is an auxiliary use to the Church since the Church Charter lists operations of a school as one of it's purposes.

12. The Church can meet all other applicable Zoning requirements for it's school.

13. The present school covers grades K-12 and has an enrollment of 140-160 students. In answer to a question from Mr. Hanlon, Mr. Ament indicated he had no information on the number of students walking vs those bussed at present or proposed school locations. He indicated that the information could be made available.

14 Further evidence of exclusionary nature of the Zoning Ordinance is that public buildings are permitted in Residential Zoning Districts but that schools are not. Mr. Ament then introduced members of the Church Board of Trustees, some of whom are parents of students in the existing school:

1. Mr. George Dargay, 579 Negley Avenue
2. Mr. James Ekis, 984 Roland Road
3. Mr. John Mospan, 931 Greensburg Pike
4. Mr. Mark Gray, 129 Gardenia Drive

In testimony and in answer to questions from Mr. Dombrosky and Mr. Hanlon, the following comments were made:

1. No problem exists with traffic flow at the Thompson Street site and none is expected on Curry Avenue.

2. The Church has no desire to disturb the Curry Avenue neighborhood.

3. Street widths to both sites are narrow.

4. A portion of the student body would remain at the Thompson Street site.

5. About 15-20 students now walk to school. The same number of walk-in students is expected at the proposed site. The rest are bussed.

6. The Church desires to make more efficient use of the Curry Avenue site. Room for school expansion is needed.

7. There are no apparent problems with existing public schools in Residence Zoning Districts.

Mr. Dombrosky called for testimony from the public.

The following testified in the order listed:

1. Mr. Robert Kush, 158 Curry Avenue
2. Mr. John Brewer, 131 Curry Avenue
3. Mr. Edgar Keggeris, 145 Curry Avenue
4. Mr. William Driscoll, 149 Curry Avenue
5. Mr. George M. Porado, 174 Curry Avenue
6. Mr. Avery Thomas, 159 Curry Avenue
7. Mrs. Norma Kush, 158 Curry Avenue

In their testimony and in answers to questions to Mr. Ament and Mr. Means, the following comments were made:

1. There exists a desire to keep the neighborhood residential in character.

2. The road system will not carry any increased traffic loads even if mini-busses are used.

3. The present Conditional Use specifies a Church and certain other uses. No further expansion should be permitted in a residential neighborhood.

4. Increased traffic will increase cost of road maintenance.

5. The Church was aware of Zoning Regulations when it bought the property.

6. Increased traffic would adversly effect pedestrian safety of public school students.

7. There have been "housekeeping" problems with the Church properties.

8. In answer to a question to Mr. Means, it was noted that the Curative Amendment petition was not a request for Commercial Zoning.

9. In answer to questions to Mr. Ament, it was noted that the proposed Curative Amendment would apply to all Residential Zoning Districts in the Township.

10. The School use would produce little tax revenue.

11. There exists a traffic flow problem with present Church bussing operation on Sunday and Wednesday. This would greatly increase if a school use were permitted.

12. The Church operations have not followed existing Conditional Use requirements.

13. In answer to a question by Mr. Dombrosky, based on testimony, Mr. Ament indicated there were now no school classes conducted on the Curry Avenue property.

Mr. Dombrosky then called on the following for testimony:

1. Mr. Joseph Wagner, 4044 Miller Street, member of the Wilkins Township Planning Commission, read a report prepared by the Commission as a result of a review of the Petition for Curative Amendment. The review was conducted on July 3rd. (Copy attached to minutes)

He asked that the report be made a part of the record. Mr. Ament agreed to this.

2. Mr. Wilmer Baldwin, Township Zoning Officer, presented the following exhibits for the record. Admission of same was agreed to by Mr. Ament:

A. Zoning Map of Wilkins Township indicating approximately thirty acres of Commercially Zoned land available for private school use.

B. Copy of Conditional Use ajudication of August 25, 1980 indicating that a school was not part of the original Conditional Use.

Mr. Baldwin also indicated that Zoning Ordinances of three adjacent municipalities (Chalfant, Churchill and Forest Hills) as well as that of Wilkins Township were prepared based on the Regional Plan for the Churchill Area 1971 as issued by the Churchill Area Regional Planning Commission.

The ordinances of the adjacent municipalities also permit private schools in various locations. Mr. Baldwin indicated that the entire region was only about 8-9 square miles; hence, there were several locations both in and near the Township where private schools could be built or operated under present Zoning regulations.

Mr. Baldwin introduced the Regional Plan and the Wilkins Township Comprehensive Plan into the record. Mr. Ament expressed no objection.

Mr. Dombrosky asked if there was further testimony.

1. Mr. Ament asked that minutes of the Conditional Use Hearing of August 4, 1980 be introduced as an exhibit to indicate the Church's intentions regarding a school.

Mr. Dombrosky expressed no objection and directed that the Secretary provide the stenographer with a copy. (Note: this was done 7/10/84)

2. Linda Porado, 174 Curry Avenue, noted that bus traffic to the private school, if permitted, would occur at the same time as neighborhood children were walking to or from other schools or bus stops. This would pose a safety hazard.

3. Mrs. Mary Yakin, 35 Crestview Drive, accused Mr. Wagner of a conflict of interest and made several comments concerning others who testified. Mr. Means ruled her testimony irrelevant. When she continued, Mr. Dombrosky ruled her out of order.

4. Mr. Ament commented as follows:

A. The Church does pay some taxes.

B. He took issue with testimony that the Church had not adhered to the requirements of previous Conditional Uses or had not been factual in it's application for various approvals.

5. Traffic is not judged to be a problem.

6. The Curative Amendment should be approved.

Mr. Dombrosky indicated that the Board would review the testimony and exhibits and would consider further action at a future meeting.

(5312) MOVED POHL-BOWLIN to adjourn. The motion being unanimously adopted, the hearing was adjourned at 10:17 P.M.

Respectfully submitted,

Wilmer K. Baldwin
Secretary

SUBJECT: Review of Petition for Curative Amendment to permit Private Schools in Residential Zoning Districts, as submitted by Faith Bible Baptist Church

TO: The Board of Commissioners

Ladies and Gentlemen:

As required by the Pennsylvania Municipalities Planning Code, the Commission conducted a review on the above matter on July 3, 1984.

In the Commission's opinion, the Petition for Curative Amendment poses two questions:

1. Does the present Table of Land Uses (Table 201, Ord. 542), which permits private schools in only commercial zoning districts, make the ordinance exclusionary?
2. Would there be an adverse impact on residential neighborhoods if private schools were permitted therein?

The Commission feels the answer to Question No. 1 is no and the answer to the second question is yes.

In answering these questions, the Commission takes note of the following documents:

a. Regional Plan for the Churchill Area - 1971.

b. Comprehensive Plan for Wilkins Township - 1973. This has been officially adopted by the Township.

c. Township Zoning Ordinance No. 542, as amended adopted, July 9, 1973, which is based on the Comprehensive Plan and Regional Plan.

d. Current Zoning Ordinances and Maps of the Boroughs of Chalfant, Churchill and Forest Hills, also based on the Regional and Comprehensive Plan.

Specific reference is made to the following statements:

1. P8 Wilkins Comprehensive Plan "Future Land Use Policy"

   a. "Commercial Land Utilization shall be limited to easily accessible locations in the valley transportation corridors." While Ordinance No. 542 does not categorize a private school as being commercial, it is the Commission's opinion that this type of use with a large building, a number of employees, and the provision of services to a large number of people has all the attributes of a commercial use.

      The Curry Avenue site owned by the Church is not in a valley nor is it near a transportation corridor. The property is in an R-2 single-family residence district.

   b. "The character of existing residential neighborhoods shall be maintained with concurrent efforts to encourage a variety of housing types in the developable areas of the Township."

2. Table I (Land Use Area) - Regional Plan for Churchill Area. Noting, as of 1971, that the total acreage used for commercial purposes in Wilkins Township is 92.40, 61% or 56.36 acres as developed. The current situation is similar.

Based on the above noted documents, the Commission makes the following comments in answering the two basic questions.

1. The permitting of Private Schools only in Commercial Districts does not exclude them since there is ample land available for Private School Use in the Commercial Zoning District. Private Schools are also permitted in various locations in three (3) adjacent municipalites as evidenced by their Zoning Ordinances and Zoning Maps.

2. Nothing has occurred to warrant a change in the guideline for Commercial Land Utilization contained in the 1971 Comprehensive Plan.

3. Only the Faith Bible Baptist Church now operates, or has made application to operate, a private school anywhere in the Township since Ordinance No. 542 was adopted in 1973. The Church now operates a private school on Thompson Street located in the R-4 Zoning District. This existing private school operates as a continuation of a non-conforming use per a decision of the Zoning Hearing Board and is located about one-half mile from the site at issue.

4. As noted in the Comprehensive Plan and in Table 201, Ordinance No. 542, the character of existing single-family residential neighborhoods has been set and maintained by permitting only single-family dwellings and certain limited conditional uses. This is true on Curry Avenue. The operation of a private school would have an adverse impact on the single-family residence character of this neighborhood as follows:

    a. Increased traffic loading on narrow streets with sharp curves and steep grades. It is assumed that a large proportion of the pupils would be bussed to the site creating major morning and afternoon periods of heavy traffic on at least a five (5) day a week basis. This is in addition to the existing Church bus traffic permitted as a conditional use.

    b. The traffic load problem is of particular concern since there is not a viable secondary access to the property.

BOARD OF COMMISSIONERS OF THE TOWNSHIP OF WILKINS

In Re:

Request for Curative Amendment
Filed By Faith Bible Baptist Church

Hearing of July 9, 1984

DECISION OF THE BOARD OF COMMISSIONERS

Faith Bible Baptist Church (the "Church") filed a request in the form of a Petition for Curative Amendment with this Board on May 11, 1984. The Petition alleges that Ordinance No. 542 is exclusionary because it precludes private schools in a residential district; prohibits the landowner's proposed development and requests the Township to adopt a curative amendment to Ordinance No. 542 to permit private schools in residential districts.

The request did not contain any plans or other materials describing the use or development proposed by the landowner for a private school nor was there provided the text of an amendment to the Ordinance proposed by the landowner.

A hearing on the request was duly advertised. The landowner's request was submitted to Allegheny County Planning Commission and to the Wilkins Township Planning Commission for review.

Both Commissions submitted reports which have been made part of the record.

At the hearing, the Church presented as evidence the testimony of four Church Trustees. None of the Church witnesses was an expert or testified as such. The Trustees were Messrs. Dargay, Ekis, Mossman and Gray. These gentlemen testified generally that they wished to use an eight acre property on Curry Avenue for private school purposes in conjunction with an existing private school on Thompson Street, owned by the Church.

The Thompson Street school exists as a non-conforming use.

The Church did not present any testimony as to the physical location of the school on its property; the details of operation, the number of class rooms, the number of teachers or other employees, or the number of prospective students.

Nor was there any testimony regarding the inability of the Church to find and use land in the Commercial District where private schools are permitted as a conditional use.

The report of the Wilkins Township Planning Commission was introduced into evidence together with the Comprehensive Plan for Wilkins Township, Regional Plan for Churchill Area, the Wilkins Township Zone Map.

The Zoning Officer testified as to acreage available in the Commercial District and introduced into evidence the Township Adjudication approving the Church's request for conditional use as a church as of August, 1980.

Upon consideration of all the testimony and evidence, the Board of Commissioners makes the following findings of fact, conclusions of law and order.

FINDINGS OF FACT

1. Wilkins Township Zoning Ordinance No. 542, as amended, permits private schools as a conditional use in the Commercial District. Private schools are not a permitted use elsewhere.

2. The Township contains approximately two and one-half square miles and 1,760 acres.

3. The Commercial District contains 92.40 acres, of which 56.36 acres is undeveloped.

4. The Zoning Ordinance was adopted pursuant to a Comprehensive Land Use Policy and Comprehensive Plan financed in part by a grant from the Pennsylvania Department of Community Affairs and adopted on the advice of Beckman, Yoder and Seay, Inc., professional land use planners.

5. The Comprehensive Plan provides in pertinent part:

Future Land Use Policy

The Land Use Plan and its policies indicate the future character of the built community, the extent of different activity types, and the intensity of Township land utilization. The Plan's determination relates directly to future community service needs in terms of schools, parks and water and sewer utility service areas. The Plan also provides guidance to individuals and developers wishing to establish homes or initiate broader scale development activities.

The "Future Land Use Plan" indicates the pattern of future uses. As shown, Wilkins Township is divided into two basic land capability areas - industrial and commercial land along the transportation corridors, within the valleys; and the major residential and public service areas primarily on the ridges.

The following policies and principles are provided as basic guidelines for the type, location, and distribution of the Township's future land use activities.

> **Commercial land utilization shall be limited to easily accessible locations in the valley transportation corridors.**

Future land use policy favors the limitation of retail and service commercial activities to the existing transportation corridors within the Township. The two areas where this activity has dominated and will continue to do so are flanking Beulah Road and Route 22. The Route 22 corridor is presently devoted entirely to commercial activities and the homes in the vicinity are effectively buffered by the difference in elevation. The location of the Penn Center complex in the area has increased land values to a level where economics dictate the continuation of commercial land utilization.

The Beulah Road Corridor presently has a situation of mixed land uses with residences located adjacent to commercial activities. The present character of the valley is commercial, however, and continued commercial development is logical. The topographic difference between the valley floor and the residences located on the ridgetops is sufficient to protect residential development from any possible adverse influences.

> **The character of existing residential neighborhoods shall be maintained with concurrent efforts to encourage a variety of housing types in the developable areas of the Townships.**

The Future Land Use Plan recognized the established single-family residential neighborhoods of the Township. Existing housing should be preserved, with new housing in these

> neighborhoods conforming to the existing intensity and character of development. The provision of townhouses and apartments in Wilkins Township should be accomplished without altering the character of existing residential areas. The location and density of the housing types should be carefully examined to protect the residents of the new housing as well as the entire community.

6. The Church's property is located in the Residential-2 District on a ridge top remote from major transportation corridors.

7. According to the Church's solicitor, the Church does not now have any specific plans and the present request for curative amendment is in anticipation of future growth. (R-34).

8. The Planning Commission found that the private school would have the attributes of a commercial use, such as a large building, a number of employees and provision of services to a large number of people. (R-46). We adopt this finding of fact.

9. The only application by anyone for a private school use since the adoption of Ordinance No. 542 in July 1973, has been the Church. (R-47).

10. There is ample land available in the Township, where private schools are permitted, to provide for the demand for this use.

11. Access to the Church property on Curry Avenue is by way of narrow streets with sharp curves and steep grades with no viable secondary access to the property. (R-48).

12. The Church property is abutted by a built up residential neighborhood.

13. The use of the Church property for a private school is not consistent with the objectives of the Comprehensive Plan because:

(a) Such a use will adversely affect the character of an existing residential neighborhood.

(b) A private school use is similar to a commercial use which should be limited to easily accessible locations in the valley transportation corridors.

CONCLUSIONS OF LAW

1. The Church has the burden of proving the invalidity of Ordinance No. 542.

2. The Church did not submit the text of a curative amendment with its request for a curative amendment and its request is defective.

3. The Church did not submit any plans or other materials describing the proposed private school, nor was the project described at the hearing except in the most vague manner; therefore, the request is defective.

4. The Church has no present plans for development of a private school and its request is in anticipation of future growth, rendering its request defective.

5. Zoning Ordinance No. 542 provides ample land for the existing demand for private school use and is not exclusionary or otherwise constitutionally invalid.

The Board has not relied upon or considered the Regional Plan or the Ordinances and land use regulations of Regional Plan participants in reaching this Decision.

4. Mrs. Rawson, 136 Delaney Drive, asked if the Township would acquire the Churchill Valley Shopping Center property and correct the water problem or convey the property to the residents so that they could correct the problem.

Mr. Means indicated that there were many problems of this nature and that in fairness all would have to be addressed. He then reviewed the procedures involved.

She indicated the Township had owned and cleaned the pipe in the past. Mr. Dombrosky and Mr. Porado indicated this was not correct. Mr. Porado discussed the economic realities of acquiring and maintaining all such properties in the Township. She inquired as to the amount of back taxes due. WILKINS TOWNSHIP BOARD OF COMMISSIONERS

MINUTES OF THE ADDITIONAL STATED MEETING OF NOVEMBER 26, 1984

The Additional Stated Meeting of November 26th was called to order at 8:30 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky		Miss Pohl
Mr. Hanlon	Mr. Bowlin	Mr. Porado

President Dombrosky led all present in the pledge to the flag.

Mr. Dombrosky noted that the principle item on the agenda was a Public Hearing on the proposed use of Revenue Sharing Funds.

The Secretary introduced proof of publication of the Hearing Notice.

Mr. Dombrosky asked the Secretary to present the proposed Revenue Sharing Budget.

The Secretary presented and commented on the following:

NOTE: 1. Future bridge funding NOT included
2. Solid Waste Contract, garbage average 6,802./mo
trash 1,121./mo
7,923./mo

The Secretary noted that, after this proposed Budget was prepared, a decision was made to start the Larimer Avenue Sewer in 1985 rather than 1984. This expenditure would, therefore, be shown in 1985 with a resultant increase in year end cash balance in 1984.

Mr. Dombrosky then called for public comment:

1. Mrs. Mary Yakin, 35 Crestview Drive, made several comments regarding the General Fund Budget of 1984 and proposed for 1985. Mr. Dombrosky indicated that these items were not at issue at this hearing. It was further noted that comment on budget items other than Revenue Sharing could be made at meeting on December 10, 1984 and January 2, 1985.

   Mrs. Yakin accused the Secretary of "loosing" 9-10,000. in the Revenue Sharing Fund between the 1984 and 1985 Budgets. The Secretary explained that the revised 1984 allocation was about 10,000. less than the information used to prepare the 1984 Budget. This resulted in a lower projected 12/31/84 balance.

   Mrs. Yakin indicated the Secretary's explanation was not clear. Mr. Hanlon disagreed and further explained the matter.

   Mrs. Yakin made the following further comments:

1. The litigation with the Police Wage Policy Committee should be dropped.

2. Revenue Sharing Funds should be used to:

   A. Raise Police Salaries

   B. Raise allocations to Volunteer Fire Departments.

Mrs. Yakin than made a series of statements regarding the proposed 1985 General Fund Budget. She indicated that certain insurance expenditures for officials were illegal and that the Volunteer Fire Services were ill treated.

After several minutes, Mr. Dombrosky asked Mrs. Yakin to relinquish the floor.

2. Mr. Joseph Yakin, 25 Crestview Drive, also made comments on various budget items not related to Revenue Sharing. The Chair asked him to confine his remarks to the matter at hand.

Mr. Yakin suggested that 1985 Revenue Sharing Funds plus the $12,000.00 allocation for the Larimer Avenue Sewer be used for the following:

A. Raise police salaries

B. Additional Department of Public Works equipment

C. Increase an allocation to Fire Departments

D. Quarry Street Sewers

E. Repair of street in front of his house

No one else testified.

Total attendance at the hearing was about seven persons of which three-four were media representatives.

(5293) MOVED BOWLIN-HANLON to adjourn. The motion being unanimously adopted the meeting was adjourned at 9:05 P.M.

Respectfully submitted,

Wilmer K. Baldwin
Secretary

WILKINS TOWNSHIP BOARD OF COMMISSIONERS
MINUTES OF THE REGULAR MEETING OF MONDAY, APRIL 8, 1985

The regular meeting of the Board of Commissioners of the Township of Wilkins was called to order at 7:30 P.M. by President Dombrosky. A quorum was present as follows:

Mr. Dombrosky		Miss Pohl
Mr. Hanlon	Mr. Bowlin	Mr. Porado

Mr. Charles Means was present acting for Mr. John Means, Solicitor.

At the invitation of President Dombrosky all present arose and participated in the pledge of allegiance to the flag of the U.S.A.

PUBLIC HEARINGS:

Mr. Dombrosky indicated that a Public Hearing would be held on a request by Penn Center Management to rezone a tract of land on the north side of Penn Center Boulevard from R-4 to Commercial.

The Secretary introduced proofs of publication of the hearing notice and affadavits of posting of same.

Mr. Richard Ballon of Penn Center Management and Mr. Donald Hausley of Triangle Engineering appeared in support of the request.

Mr. Ballon noted that the purpose of the request was to permit construction of a ten (10) story office building to be known as Penn Center Building #8. He stated that the structure would cover 135,000 square feet with parking for four hundred eleven cars. He further stated there would be access from Penn Center Boulevard at the first floor and from the main Penn Center level at the Seventh Floor.

Mr. Ballon further indicated that a portion of the land required for the structure had been rezoned in the late 1970's but that the additional commercial zoning was required in order to provide for required parking.

Mr. Dombrosky asked the Secretary to read into the record the Planning Commission's review. Mr. Baldwin reviewed the minutes of the March 20, 1985 Planning Commission Meeting indicating a favorable recommendation to the Board of Commissioners subject to a traffic study.

Mr. Baldwin presented a map of the tracts involved.

Mr. Ballon introduced a rendering of the proposed structure.

Mr. Dombrosky called for testimony.

Mr. Joseph Yakin inquired if any dwelling units were involved. Mr. Ballon indicated that the structure was to be office use. No one else appeared to testify.

(5356) MOVED BOWLIN-POHL to declare the hearing closed at 7:45 P.M. The motion was adopted by unanimous roll call vote.

CITIZEN'S HEARINGS:

1. Mr. Brian Fitchwell, 900 Stevendale Drive questioned the practice of charging $1.00/page for copies. Mr. Hanlon indicated this had been done to cover supplies and labor costs in obtaining records from the files and reproducing same. He noted that similar practices were established in the County and in other municipalities. Mr. Fitchwell suggested posting a copy of the minutes for public examination or providing same on a "sign out" basis as is done in other municipalities.

Mr. Hanlon indicated this would be looked into.

2. Mr. Donald Morosini, 1009 Larimer Avenue complained regarding parking problems at his store. He claimed a Township employe was issuing improper citations.

After questioning by Mr. Bowlin it was established that license numbers were being taken rather than citations being issued.

Mr. Bowlin indicated that the Safety Committee would look into the matter.

3. Mrs. Mary Yakin and Mr. Joseph Yakin, 35 Crestview Drive registered their usual complaints regarding:

- policy on copies of records
- access to records
- corrections to minutes
- quality of audit reports

Mr. Yakin requested information regarding the recent litigations with the Police Department Wage Policy Committee.

Mr. Dombrosky replied that the Board would review his request but that no answer would be given at this meeting due to the Solicitor's absence.

4. Mrs. Jean Burek, 103 Quarry Street requested a storm drain extension adjacent to her property. The Board indicated this would be reviewed. She also indicated a rodent problem in the drainage ditch. The Manager was directed to investigate this.

5. Mrs. Mary Yakin, 35 Crestview Drive again took the floor with her usual series of complaints. After several minutes she was declared out of order by the chair.

(5357) MOVED BOWLIN-HANLON to approve the minutes of the regular meeting of March 11th and the additional stated and bid opening meeting of March 23, 1985 as corrected. The motion was approved by unanimous roll call vote.
