Commissioners' Comments:

Commissioner Szoko stated that he meant no offense to Senate Engineering and Dodaro, Matta and Cambest in voting against their reappointment. He felt he was not really consulted regarding these reappointments and that there should have been more discussion.

Commissioner Padula responded to Commissioner Szoko that if the Board were going to discuss appointing alternate firms to these posts, those discussions should have taken place several months ago, as the manager indicated. Mr. Padula thanked Senate for their past years of service, congratulated Mrs. Martinelli, Mr. Costa and Mr. Porado on their re-elections, congratulated Mr. Wilson for all he had done for Wilkins Township and stated that he looks forward to Mr. Wilson's continued participation.

Commissioner Fialla stated that her vote against Dodaro, Matta and Cambest was not a vote of no-confidence, but that she thinks the Board should have taken a look at our expectations for the firm and held a relationship counseling session. Ms. Fialla welcomed Amber Yon from Senate Engineering; congratulated Mr. Porado on his re-election as Tax Collector; welcomed Mrs. Martinelli back to the Board and congratulated Mr. Costa for being duly elected by the voters. She stated that there are a lot of things pressing and the Board will have to make tough decisions, but that all five members of the Board have one common goal and that is doing what is in the best interest of the Township.

Commissioner Costa thanked the voters for their continued confidence in him and wished Mr. Wilson good luck and thanked him for all of his years of service.

Commissioner Martinelli thanked her husband, John, for being her biggest supporter, thanked her children, Justin and Jessica; her sisters and their spouses and the rest of her extended family for their help in her election campaign; thanked the Democrats and Republicans of Wilkins who voted for her; thanked the Democratic Committee for all of their support and especially thanked Angie Gialloretto for her leadership and support. Mrs. Martinelli stated that her re-election was a victory for Wilkins Township and she pledged to lead the Board to work as a team – together. She stated that there are no super stars on the Board and that not one of them stands alone. She further stated that all members of the public will be treated fairly and are welcome to attend and speak at any meeting. She further stated that she wishes to pursue a grant to purchase equipment to provide for the airing of Commissioners meetings on television and finally thanked the Democratic Committee for the reception which will follow the regular meeting.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

REGULAR MEETING, MONDAY, JANUARY 4, 2010

The Regular Meeting of Monday, January 4, 2010 was brought to order at 8:00 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Fialla
Mr. Padula	Mr. Costa	Mr. Szoko

(14-10) MOVED PADULA-COSTA to approve the minutes of the Budget Meeting and Regular Meeting of Monday, December 14, 2009. The motion was adopted by a 3 to 2 vote with Ms. Fialla and Mrs. Martinelli abstaining.

Communications:

Correspondence was submitted by Mr. Al DeRoy of 94 Ridgecrest Drive commenting on comments made by Commissioner Wilson at the end of the meeting of November 23, 2009. Mr. DeRoy agrees with Commissioner Wilson that government is not and cannot be operated as a business because business is focused on profits while government focuses on results benefiting its' constituents.

Mr. Dave Defide, Manager of Energy Efficiency and Demand Response Programs with Duquesne Light Company submitted correspondence regarding Act 129, which requires all electric distribution companies with more than 100,000 customers to reduce energy consumption and demand in Pennsylvania. In order to accomplish these goals, Duquesne Light is offering conservation and demand reduction measures for each residential, commercial and industrial customers. The costs of these programs are being passed onto customers at 0.11 cents per kilowatt hour. For Wilkins Township, this equates to about $340.00 annually.

Citizens' Comments:

Mr. N. Leonard Hill, Emergency Management Coordinator for Wilkins Township stated that the Township received correspondence from the Long Term Recovering Team which was formed following the flooding of June 2009 to aid residents in the Woodland Hills area. The team is made up of representatives of area churches, local emergency management services, the Westinghouse Valley Human Services Center, the Western Pennsylvania VOAD, Allegheny County Behavioral Health and the Woodland Hills School District Foundation. The Team recently announced that a caseworker is now working with them to assess and help meet the needs of area flood victims. Anyone seeking this assistance should contact Ms. Betty Dillon at 724-674-9165, Monday, Wednesday and Friday between the hours of 9:00 AM and 5:00 PM, or Tuesday and Thursday between the hours of 12:00 PM and 9:00 PM.

State Representative Paul Costa wished everyone a happy New Year, congratulated Mrs. Martinelli, Mr. Costa and Mr. Porado on their elections; thanked Mr. Wilson for his service and thanked the Board for serving the community and putting in the necessary amount of time to do so. Representative Costa also stated that his office is available to aid in anyway. Tom Caulfield usually attends the Township's meetings, but if the Board requires anything from him, they should always feel comfortable calling.

Mr. William Wilson, 201 Dorothy Street congratulated Mrs. Martinelli and Mr. Costa on their elections; thanked everyone for coming to the meeting this evening and stated that he loves Wilkins and is going to miss being a Commissioner, even if only for one year.

(15-10) MOVED SZOKO-COSTA to waive the reading of reports. The motion was adopted by a 4 to 1 vote with Mr. Padula voting "NO".

Commissioners' Comments:

Mrs. Angie Gialloretto, Chairman of the Wilkins Township Democratic Committee thanked Mr. William Wilson for his commitment to Wilkins Township, stated that he was a very dear friend who always offered guidance and presented him with a gift on behalf of the members of the Wilkins Township Democratic Committee.

Commissioner Szoko congratulated Mrs. Martinelli and Mr. Costa on their election; stated that residents can visit the Wilkins Township Times, a new website, to learn additional information about Wilkins Township's meetings; stated that he believes that government should run as a business insofar as that entails business analysis to effectively distribute profit. Mr. Szoko stated that the Township has a lot of financial challenges ahead and we must analyze and strategize to dig ourselves out, while continuing to have a positive attitude towards operating within our fiscal means.

Commissioner Padula commented that Wilkins' Township is not sinking yet and stated that the Wilkins Township Times is not a website that is a part of Wilkins Township, or one condoned by the Board of Commissioners. Residents should continue to review information available on the Township's website. Mr. Padula also offered that maybe Mr. Krary would like to help the Township with its' website, or contribute articles to the Township's newsletter, or help with one of the Volunteer Fire Companies' websites instead of writing a separate blog which is not condoned by the Township. Mr. Padula thanked everyone for coming to the meeting and stated that he hopes we can work together to keep Wilkins moving forward and asked that Mr. Krary please place an article in his blog regarding clearing snow and ice from in front of fire hydrants.

Commissioner Fialla stated that during 2009, we lost a lot of friends including Cindy Lowry, M. Jos Martinelli, Robert Skrbin, Jeff Wagner and Fran Colonella and she wishes to extend her condolences to their friends and family. Ms. Fialla also stated that she welcomes the opportunity to work with the Board as a team, no one is infallible and two heads are always better than one and five are better than two. Ms. Fialla commented on the water break on Rodi Road and questioned whether the Township should ask the Water Authority to provide bottled water to affected families.

Commissioner Costa stated that when he reads the business section of the newspaper, he cannot help but notice the number of communities that are struggling to balance their budgets and therefore, recognizes the need of the members of the Board to work together to keep the Township stable.

Commissioner Martinelli stated that the residents of the community need to be the watchdogs to determine whether the Board is working together and she welcomes that opportunity. Mrs. Martinelli also thanked Mr. Wilson for his dedication and service to Wilkins Township and stated that the next meeting of the Board is scheduled for January 25, 2010.

(22-10) MOVED PADULA-FIALLA to adjourn. The meeting was adjourned at 8:45 PM. The motion was adopted by unanimous roll call vote.

Communications:

Correspondence was submitted by Ralph & Gerry Marting of 309 Frazier Drive thanking the Wilkins Township Public Works Department for their efforts in snow removal this winter season.

Citizen's Comments:

Mr. N. Leonard Hill, Emergency Management Coordinator for Wilkins Township addressed the Board relative to the Emergency Management meeting that he attended on Friday regarding the potential for flooding in Allegheny County. It is currently anticipated that localized flooding will be minimal. It is however, anticipated that rivers will flood due to warming temperatures and forecasted rain over the next several days. Flooding will be the result of the melting of remaining snow pack in the Laurel Highlands and the mountains of West Virginia and Maryland which ultimately contribute to the Youghiogheny and Cheat Rivers.

Commissioners' Comments

Commissioner Fialla thanked Mr. Bruener for requesting to attend training; thanked everyone for their attendance and wished everyone a Happy Holiday.

Commissioner Szoko stated that it is getting harder and harder to spend any money on items without real value based upon the future financial projections.

Commissioner Padula stated that he attended a meeting to discuss police regionalization on March 20th with Senator Costa, Northeast Regional Police Chief Amman, and elected officials from Edgewood, Forest Hills, Churchill and Wilkins. The meeting was extremely positive and the group will continue talks with the goal of regionalization in the future. Mr. Padula also attended training provided by the American Red Cross for volunteers who would operate an emergency shelter/warming center at the Township building in the event of an evacuation. He was extremely pleased that at least 25 individuals volunteered and found it interesting how many different backgrounds were represented by the group. The group will meet again for the second of three training sessions on May 1, 2010. Anyone interested in volunteering should contact the Township offices for additional information. Mr. Padula stated that he also had the opportunity to attend the children's Easter Bunny Party which was held on Saturday, March 27th at the Community Center. The party was well-attended and organized. Finally, Mr. Padula reminded residents of the importance of completing their Census reports and mailing them back in and thanked everyone for coming to the meeting.

Commissioner Costa stated that the Easter Party was a success. There were 50 kids and 59 adults. The adults were required to pay for their lunch. In addition, a number of families donated additional dollars to the Board. Mr. Costa also thanked the Public Works Department for their work on the Wilbur Avenue wall. Wilbur Avenue is now reopened to traffic. Mr. Costa wished everyone a Happy Easter.

Commissioner Martinelli commented that it is essential that Wilkins residents complete and mail back their census forms. Currently, one polling place in Wilkins Township is represented by Mike Doyle. The other six polling places are represented by Tim Murphy. Because of this, the Township is not seeing funding from either.

Mrs. Martinelli also commented that she had an opportunity to attend the Senior Citizen Bingo/Luncheon which was sponsored by the Recreation Advisory Board and included about 15 young adults through the Pittsburgh Cares Foundation. These young adults were in Pittsburgh for a Boys and Girls Club Leadership Conference and were from different areas around the county, including Texas, New Jersey and Georgia. The Senior Citizens had a great time. Mrs. Martinelli also commented on a newly published book called "Dress Blues" which was written by a resident of Gilmore Drive, Mr. Bill Moore. Mr. Moore currently works at Starbucks in the morning, but served in the military where he received a silver star and four purple hearts. Mrs. Martinelli requested that Mrs. Bradley send Mr. Moore a letter congratulating him on the publication of his book.

(108-10) MOVED PADULA-FIALLA to adjourn. The meeting was adjourned at 8:15 pm. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley
Secretary

Commissioner Fialla stated that she voted against the bands this evening because of the economy and her belief that the Recreation Advisory Board may not be as successful in securing donations as in the past; passed out a memorandum directed to the Manager and Solicitor relative to the personnel code of the Township's Codified Book of Ordinances, specifically Section 33-10, sick leave and concern about liability by surcharge of the Board and thanked the Public Works and Police Department employees for all their hard work.

Commissioner Padula stated that only 76% of the Township's residents have returned their Census 2010 forms and urged the residents to complete and mail these forms back in; led a discussion with other Board members regarding reopening the Cline Street to Ridge Street pathway; thanked the Recreation Advisory Board for coming in under budget on the Easter Party and reminded residents that Clean-up Wilkins will be held on April 24, 2010.

Commissioner Szoko questioned whether or not it would be possible to hold band competitions during the Summer Festival; stated that he believes that political candidates who wish to use the Community Center for fundraising activities should be required to pay the rental fee; advised that there is an Act 32 Committee Meeting scheduled for April 22, 2010; discussed the need for a central location for a police department which would make it cost prohibited if the Township were to participate in a regional police department and requested a five minute executive session following the meeting to discuss a personnel issue.

Commissioner Costa stated that if Commissioner Szoko had attended the last meeting of the Regional Police Committee, he would understand how insignificant a central location for the regional department is at this point. He also stated that there are funds available through Senator Costa's office for additional equipment needs; reminded the audience of the spring clean-up scheduled for April 24 and reiterated that the main source of funding for many Wilkins Township nonprofits is Summer Festival.

Commissioner Martinelli requested that the Board review a section of the Police Collective Bargaining Agreement relative to the use of part time officers. Mr. Rushford will review this section of the contract and report back to the Board.

(126-10) MOVED PADULA FIALLA to adjourn. The meeting was adjourned at 8:45 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Presentation of Climate Action Plan

The Township of Wilkins, along with the Borough of Forest Hills and the Municipality of Penn Hills received grant funds to hire Duquesne University Center for Environmental Research and Education (CERE) staff and students to perform a greenhouse gas emissions study and prepare a Climate Action Plan (CAP). Dr. Stanley Kabala, Rebecca Day and Jacob Levine presented their findings thus far to the Board.

Greenhouse gas emissions include carbon monoxide, methane and Freon (CFC's). The aim of the greenhouse gas inventory is to quantify these gasses and then provide a plan to the municipalities on how to reduce that release, which will also result, generally speaking, in a reduction in expenditures.

The graduate students took raw data from the Township, such as utility bill information and gasoline invoices and used a computer program called "Clean Air Climate Protection" to calculate the total amount of emissions. The computer program converts all gasses to carbon monoxide emissions. The preliminary findings for Wilkins Township indicate that the municipality emitted 1,178 tons of carbon monoxide in 2008. Of that amount, 68% (or794 tons) was emitted through the use of street lights, 16% (190 tons) through the use of vehicles, 12% (146 tons) through the operation of buildings and 4% (48 tons) through the operation of traffic signals. Additional calculations regarding employee commutes and Freon usage are ongoing. The CERE students are also working on a commercial and residential component.

Once the additional information is gathered, the CERE students will provide recommendations to reduce the municipal footprint. These recommendations will take into consideration economic and financial conditions, feasibility based upon political will and the changes which will result in the greatest decrease in emissions.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

PUBLIC HEARING, MONDAY JUNE 14, 2010

The Public Hearing – Lions Park Master Site Plan – was brought to order at 6:40 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Fialla
Mr. Padula	Mr. Costa	Mr. Szoko

Mr. Jim Feath and Mr. Jim Watenpool of HRG, Inc. presented the Lions Park Master Plan. This plan was developed over a years' time by a committee comprised of Township residents. The Plan was funded by a grant through CDBG Year 35.

The objectives of the master plan included evaluating the best use for the park; encouraging smart growth through a wise decision making process; encouraging development based on an evaluation of community needs; working with the natural processes and features of the site and developing a long-range plan for future development of the park (including costs, phasing and funding mechanisms).

A Community Needs Assessment survey was mailed to 810 homes in the Township. Of the surveys mailed, 140 were completed and returned and 62 were returned by the Post Office. The completion rate was 18.71% and was considered successful. The top ten facilities requested were: (1) walking trails, (2) nature trails, (3) bike trails, (4) hiking trails, (5) restrooms/dog park, (6) playground, (7) picnic shelter, (8) picnic areas/tables/ice skating, (9) deck hockey/tennis, (10) gardens.

Based upon the survey, the committee began looking at alternative site plans and finally agreed on one plan which incorporates a number of the top requested facilities – such as walking/hiking trails, a rain garden, a dog park, pavilions and restroom facilities, an amphitheater, an all purpose field, and a deck hockey court.

The final plan was then broken down into three phases. The total costs for each phase are: Phase 1 - $402,470; Phase 2 - $590,955 and Phase 3 - $212,466. Mr. Waterpool addressed ways that the Township could reduce those costs through the use of available resources such as Boy Scouts to build the walking trails, public works labor instead of contracted labor, volunteer services, grants and donations.

Commissioner Fialla questioned whether the ball park would be eliminated in Phase 1 or Phase 2. The ball park would be eliminated in Phase 2, once the all-purpose field was completed in Phase 1.

Commissioner Szoko questioned whether or not it was better to apply for grant funding for all three phases at once, or individually and questioned the increased day-to-day operational costs if the improvements were made to the park. Mr. Feath explained that typically, DCNR likes to see one project through completion prior to funding a new project (or phase). He recommended that the Township seek grant funds for each phase and allow each phase to take about 3 years to completion. Mr. Feath estimated increased day-to-day operational costs to be no more than 10% of current operational costs.

Mr. James Dick of Elizabeth Street questioned whether or not the estimated construction costs included the cost of inflation. Mr. Feath stated that the construction estimates do include the cost of inflation.

Mr. Erik Lawson of Penhurst Drive questioned whether the Master Site Plan anticipated the acquisition of any additional land. Mr. Feath stated that although the committee initially looked at the possibility of acquiring additional land, due to the steepness of the land behind the residential lots on Rita, they decided not to move in that direction.

(169-10) MOVED FIALLA-PADULA to adjourn. The Public Hearing was adjourned at 7:15 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley

Communications:

A petition signed by twenty-nine residents of the community was presented. The petition requests that the Board of Commissioners adopt a resolution authorizing the rental of the Community Center.

Cheryl A. Lees, Loss Control Manager for Penn Prime Insurance Trust submitted correspondence relative to the minimum member standards that must be met by the Township in order to qualify for the best pricing, safety committee discount, grants and Peak Performer Award beginning in 2012.

Correspondence was submitted by Mark M. Kleman, of the Pennsylvania Department of Environmental Protection, Bureau of Abandoned Mine Reclamation, Design Division, relative to acid mine drainage which is occurring on property owned by Gary and Debbie Weber at 614 Highland Avenue. She believes that there has been a misinterpretation of the zoning ordinance and is seeking the reversal of the decision of the Zoning Officer.

Mr. Carl Krary of 256 Penhurst Drive commented on the Solicitor's comment relative to the pending ordinance rule.

Mr. Leonard Hill of 405 Kingston Drive commented upon the section of the Zoning Ordinance which permits construction along a nonconforming side line if the front line conforms and requested that the Planning Commission and Board of Commissioners take this section into consideration as well if an amendment is made to the ordinance.

Commissioner Martinelli commented upon a number of abandoned, overgrown, infested residential properties within the Township and the inability of the Township to quickly address these structures; announced that there will be a rally at the Wolverina on September 4 and that the County will be baiting for raccoons on August 23, 2010 on land. The bait is not harmful to pets, but if seen by residents, should be picked up with gloves and properly disposed of. WILKINS TOWNSHIP BOARD OF COMMISSIONERS

PUBLIC HEARING, MONDAY, SEPTEMBER 13, 2010

The Public Hearing of Monday, September 13, 2010 was brought to order at 6:50 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Fialla
Mr. Padula	Mr. Costa	Mr. Szoko

The purpose of the public hearing was to receive public comments on proposed Ordinance 1007. The proposed ordinance would amend the zoning code as it pertains to three types of signs, as follows:

1. Temporary Special Advertising and Real Estate Signs: Signs of this nature advertise a special event, or a sale or lease of property. Examples of these types of signs are "Grand Opening" signs and "Now Serving Breakfast" signs. The ordinance proposes to increase the number of signs permitted per lot from one to two per street front; sets the timing of installation and termination of use; and sets the size based upon the distance of the sign from a public right of way.

2. Freestanding Pole Signs: Freestanding pole signs are most prevalent in the Route 22 corridor, such as "Wendy's", "D'Imperios", and "Pep Boys". The Township's current regulations only permit signs within this corridor to be a maximum of eight (8) feet in height. Because of the topography of Route 22, nearly all business owners have at one time or another approached the Zoning Hearing Board to request a variance from the height requirement. This has led to a hodgepodge of different sized signs within the area. The proposed ordinance separates streets based upon PennDot classification into arterial, collector and local. Commercial and industrial businesses located on arterial roadways, such as Route 22, will now be permitted to erect signs of no more than sixteen (16) feet in height. Commercial and industrial businesses located on collector roadways, such as Greensburg Pike and Brown Avenue will continue to be permitted to erect signs of no more than eight (8) feet. Commercial businesses located on local streets, such as Powell, will be permitted to erect signs of no more than six (6) feet in height. Signs on residential properties (R-1 through R-4) will be to a height of five (5) feet.

3. Political Signs: In March of 2010 the Township received correspondence from the American Civil Liberties Union seeking voluntary changes to the Township's existing political sign ordinance as it involved signs on private property. The proposed amendment reflects the request of the ACLU and eliminates the length of time a political sign can be displayed, the number of political signs that can be displayed and the requirement that a property owner receive a permit prior to placement of signs on private property. The Planning Commission also modified the height and size of political signs on both private and public property.

Public Comments: None

Commissioners' Comments:

Commissioner Padula asked Mr. Rushford whether the amendment met all of the requirements of the ACLU. Mr. Rushford replied in the affirmative.

Commissioner Fialla asked whether or not it was possible to get this amendment out to all businesses in the Township, like Sheetz, so they would be aware of the changes

Commissioner Szoko asked how this ordinance affects the Shop-N-Save super saver sale signs. Mr. Rushford stated that it does not affect Shop-N-Save because Shop-N-Save sought and received a variance to display their signs.

(224-10) MOVED PADULA-FIALLA to adjourn. The Public Hearing was adjourned at 6:59 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

BUDGET MEETING, MONDAY, OCTOBER 25, 2010

The Budget Meeting of Monday, October 25, 2010 was brought to order at 6:05 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Fialla
Mr. Padula	Mr. Costa	Mr. Szoko

Changes made to the Proposed 2011 General Fund Budget were outlined for the Board, as follows:

Revenues:

Line Item 301.100. Current Year Real Estate Taxes, was reduced by $40,000 to reflect successful tax assessment appeals filed by Circuit City, Penn Towers, NAAI Acquisitions, LP and PCELL, LP. Interest Earnings, line item 341.100, was increased by $500 and line item 380.200 Beginning Balance was increased from $326,900 to $359,700 due to changes in projections for end of year 2010.

Expenditures:

Budget line item 408.300, Engineering Service, was decreased by $5,000 due to the lack of paving and planned projects for 2011. Under the Police Department the following line items were changed: 410.143 Wages for Crossing Guards was raised by $1,400 due to current year experience, 410.151, Workers Compensation was increased from $110,000 to $115,000 to account for the Heart & Lung Insurance Premium; 410.231, Vehicle Fuel was decreased from $40,000 to $35,000 and 410.374, Traffic Signal Maintenance was decreased by $2,000. Under Recreation, the budget for Events, line item 452.451 was decreased from $18,200 to $15,100. Finally under intergovernmental Expenses, Line Item 481.420, Turtle Creek Valley Council of Governments Dues, was increased by $2,000 due to a proposed increase by the COG.

Total Revenues and Expenditures balance at $4,366,700, or $6,700 less than the proposed 2011 General Fund Budget which was presented initially on September 24, 2010. It should be noted that the proposed General Fund Budget does not include any increases in wages for any department. If contract negotiations and/or arbitration result in an increase in wages, the Board of Commissioners will either need to make additional concessions in the General Fund Budget, or utilize funds earmarked for 2012 in the Emergency Contingency Fund.

Estimated budgets for 2011, 2012 and 2013 were also reviewed by the Board. The projections do not include increases in millage for real estate tax purposes. The budgets freeze wages at 2010 levels and increase insurances (including "Workers' Compensation, Unemployment Compensation, Medical, Automobile, Police Professional Liability and General Liability) by 10%. It is currently estimated that the 2012 General Fund Budget will be short by at least $348,700, even with the utilization of the remainder of Emergency Contingency Funds. By the end of 2013, the deficit will be over $1.2 million.

The Board discussed ways to decrease spending in future years, including holding a public safety meeting with the three Fire Departments to discuss cost-sharing and potentially consolidation amongst themselves or in conjunction with other communities; and corresponding with surrounding municipalities to determine their willingness to participate in a study for consolidation or cost sharing of public works services.

The Board also discussed the benefits and detriments associated with using the 25% decrease in the required Minimum Municipal Obligation (MMO) to the Police Pension Plan which is available due to the passage of Act 44 of 2009 by the Commonwealth of Pennsylvania.

At this time, none of the Township's other proposed budgets for other funds require adjustment. The Township is, however, still awaiting correspondence from ALCOSAN as to fees for 2011 and it is expected that the Combined Sewer Fund Budget will change.

The next budget meeting is scheduled for November 8, 2010 beginning at 6:00 PM. First Reading of the 2011 budget ordinance is scheduled for the regular meeting immediately following the next budget meeting with adoption of the budget scheduled for Monday, December 13, 2010.

(273-10) The motion was adopted by unanimous roll call vote at 6:55 PM.

Respectfully submitted,

Rebecca Bradley
Secretary

Commissioners' Comments:

Commissioner Fialla commented upon the fact that Mr. Hoebel, who appeared before the Board at the last meeting to request that the Board amend their code to permit him to keep his pet boa constrictor, was not present at tonight's meeting, but that she has received a number of calls on this issue. Mr. Hoebel has an opportunity to appeal the decision of Mr. Hill within thirty days of the date that he received notification. As of today, Mr. Hoebel has not appealed Mr. Hill's decision. Ms. Fialla also thanked everyone for coming to the meeting.

Commissioner Padula thanked Mr. McConnell for his years of service on the Zoning Hearing Board; reminded residents to change the batteries in their smoke detectors when they move their clocks back on November 7th, thanked the Recreation Advisory Board for their hard work on the Pumpkin Patch Party; questioned when the Township will get the laptops back from Response; cautioned the Board regarding their approach of the Fire Departments, reminding them that their members are volunteers and we should not strong arm them and stated that he believes that the dialogue regarding shared services has already begun.

Commissioner Szoko stated that he really enjoyed the dialogue between the members of Board with regard to making a decision on the pension obligation; read correspondence that he received from the Penhurst Civic Association regarding a resident who was scammed by a home repairman and commented that he believes that the Township's animal ordinance needs to be tightened more, not relaxed and that if Mr. Hoebel wants to have a boa constrictor, he should move to a different community where they are permitted.

Commissioner Costa stated that he attended the Three Rivers Wet Weather Conference last week and that the materials are available for review in the manager's office; stated that the keynote speaker from the Environmental Protection Agency started things off by stating that while they realize that most municipalities are cash-strapped, they will require these municipalities to fund programs which clean our watersheds and make all of our waters drinkable; and commented upon ALCOSAN's desire to locate holding tanks next to ball fields and parks in their communities to hold sewage during wet weather events to eliminate overflows. Mr. Costa also commented upon the fact that many individuals in Wilkins are of the belief that it is acceptable to park in their front yards and partially on the street. He requested that Mr. Hill and the Police Department aggressively enforce the Township code in this regard to stop this practice and requested that this information be placed on the Township's website.

Commissioner Martinelli thanked Lerah Pasqualino and Melissa Brinza for all of their hard work in heading up the Recreation Advisory Committee that put together the Pumpkin Patch Party; thanked Mr. Costa and Mr. Padula for their attendance and help and thanked Mr. Matthews and Mr. McClelland for running the hay wagon. Mrs. Martinelli also thanked Mr. McConnell for his service as a member of the Zoning Hearing Board; and commented that she has received a number of phone calls and letters regarding the Township's exotic animal ordinance. Everyone that she has spoken to has requested that the ordinance not be changed to permit boa constrictors.

(287-10) MOVED FIALLA-COSTA to adjourn. The meeting was adjourned at 9:04 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley, Secretary

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

BUDGET MEETING, MONDAY, NOVEMBER 8, 2010

The Budget Meeting of Monday, November 8, 2010 was brought to order at 6:00 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs Martinelli		Ms Fialla
Mr. Padula	Mr. Costa	Mr. Szoko

The Board was provided with new copies of the Proposed 2011 General Fund Budget. Total revenues and expenditures increased by $2,500 from the previous proposal which was presented on October 25, 2010. The Township has now received information from Municipal Employers Insurance Trust (MEIT) relative to increases in health insurance for 2011. The increase amounted to approximately 7% across the Board. The Township initially budgeted a 10% increase in health care. The difference between what had been budgeted at 10% and what is now budgeted at 7% amounts to $45,300. Line item 438.210 (paving) was thus increased by the total amount of the decrease in health insurance.

Once again, there were no significant changes to report in any of the other funds of the Township.

Commissioner Szoko questioned why there is an increase in wages shown in the budget, when the manager stated that there will be no increase in wages. Mrs. Bradley explained that there are 2 employees in the police department and one employee in the Public Works Department who are in the middle of their hourly rate steps. These employees will receive an increase as required by the contract upon their anniversary dates. This increase is the increase to the next level of years of service. In addition, employees with more than five years of service receive longevity. Even though wages are frozen, employees' longevity, which is specified by contract will increase based upon their previous years' earnings and their number of years of service. It should be noted that if an increase in wages is granted either through arbitration or through negotiations, funds to pay for that increase will either need to be taken from the Emergency Contingency Fund allotment which is earmarked for 2012 or additional concessions will need to be made from the General Fund budget.

Commissioner Fialla questioned whether or not the budget could be reopened in January if increases were granted. Mr. Rushford stated that the budget cannot be reopened in January because it is not an election year. However, the budget can be reopened if estimated revenues and/or expenditures change in the aggregate by 10%, or in any one line item by 25%. Essentially, the Board would need to begin the process again, which would push the new budget adoption into January.

Commissioner Padula questioned the need to continue to retain funds in the Emergency Management Fund. These funds were initially earmarked to replace radios for police, fire and public works in 1999, in recognition of the County's desire to change over to an 800 system. The Volunteer Fire Companies have already purchased radios and the police are on the same system as the County. Public Works is on low band. Mrs. Bradley is to review information received from the County relative to this issue and report back to the Board. The total mount of funding available in the Emergency Contingency Fund for 2011 is $49,000.

(288-10) MOVED FIALLA-SZOKO to adjourn. The meeting was adjourned at 6:27 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley

Mr. Padula stated that he met with the Volunteer Fire Companies and discussed the Township's budget issues. A Public Safety Committee meeting will be scheduled for January 20, 2011 to further discuss this issue. Mr. Padula also commented about the laptop computers that have been returned from Response and whether or not the Township will be able to use them, or they should be given to the fire departments. Further, Mr. Padula stated that both he and Mr. Costa have agreed to contribute 25% of the increase in their healthcare premiums for 2011. Mr. Padula thanked everyone for coming to the meeting and wished all a Happy Thanksgiving.

Ms. Fialla stated that a memorandum which was recently distributed to the employees stated that the Board of Commissioners unanimously voted to require employees without

written agreements to contribute 25% of the increase in their healthcare premium in 2011 was wrong because she voted against that motion, but does not wish for the manager to issue a correction. Ms. Fialla also commented on the need to balance costs against benefits when determining whether or not to provide cable, phone and internet services to the Community Center for Red Cross services and wished everyone a Happy Thanksgiving and asked those individuals planning on hunting to be careful.

Mr. Szoko questioned whether or not the Township needed to amend the ordinance providing benefits to Commissioners in order to effect a change in the contribution rate; commented on the increase in the Township's U-Comp premium; and stated that the economic climate of the Country with lost revenues and deficits in budgets is also affecting the Township which is why the Board if looking at cost-cutting and the elimination of unnecessary services as a way to avoid mass layoffs. Mr. Szoko thanked Ms. Yon and Mr. Bruener for their work on the Balint Lane Bridge project.

Mr. Costa stated that he attended the latest ALCOSAN stakeholders meeting and is discouraged because he believes that they keep reviewing the same information over and over again. They are talking about putting together a steering committee, which is what he thought he was already a part of. There will not be a rate increase in 2011, but he believes that there will be a significant rate increase in 2012. He also cautioned the public to keep an eye out for informational meetings in their neighborhoods for additional information on what ALCOSAN is doing and planning to do with retention facilities. Mr. Costa wished everyone a Happy Thanksgiving and thanked Ms. Yon and Mr. Bruener for their work on the Balint Lane Bridge project.

Mrs. Martinelli wished everyone a Happy Thanksgiving and thanked everyone for coming to the meeting.

(327-10) MOVED FIALLA-PADULA to adjourn. The meeting was adjourned at 8:50 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley

Commissioners' Comments:

Commissioner Padula stated that he looked in to the purchase of AED's for the Community Center and the Municipal Building. He provided a quote from Phillips Healthcare in the amount of $1,775.92 for the purchase of two reconditioned AED's and two cabinets to house them.

(345-10) MOVED PADULA-FIALLA to purchase two AED's from the General Fund in 2010 at a cost of $1,775.92 from Phillips Healthcare and if not able to do so, to purchase the AED's in 2011 using funding from the Emergency Management Fund. The motion was adopted by unanimous roll call vote.

Commissioner Padula thanked Mrs. Bradley, the department heads and the employees for making and taking cuts to help balance the 2011 budget. If extra funding is available, maybe the Township will be able to do some paving. Mr. Padula thanked Mrs. Schubert and Mr. Stewart for their work on the Recreation Advisory Board; thanked Mr. Boyd and Mr. Landefeld for their interest in serving on the Zoning Hearing Board; reminded residents to remove snow from around fire hydrants in their neighborhoods and wished everyone Happy Holidays.

Commissioner Fialla thanked Mr. Boyd and Mr. Landefeld for their interest in wanting to get involved with the Zoning Hearing Board; stated that the Township has faced significant budget issues since ProCare appealed their mercantile taxes and then moved their operations to Monroeville and that difficult decisions have had to be made and we will need to make many more in years to come; requested an update on the construction of the bridge at Balint Lane; thanked Amber for her efforts in getting this project done; thanked the Public Works Department for salting the streets; thanked the members of the Fire Departments for continuing to voluntarily serve – even when it's freezing outside – and wished everyone a Happy Holiday season and a healthy 2011.

Commissioner Szoko questioned whether Mr. Boyd and Mr. Landefeld were in favor of growing business in Wilkins Township. Both responded that they were in favor of growing business in the Township. Mr. Szoko also stated that there was a lot of scrambling to get the budget adopted for 2011. He said that next years' budget includes the continued vacancy of two public works positions; the freezing of employee wages and no paving, along with the carryover of ProCare funds that were retained. Mr. Szoko believes that the Board has some very tough decisions to make in the next several years and they need to take a look at the number of vehicles and the number of employees. He also stated that he believes that the "best" is an unobtainable goal and that it is just an excuse to spend more money.

Commissioner Costa congratulated the Recreation Advisory Board on a successful Christmas party for the kids; thanked Mrs. Schubert and Mr. Stewart for their service on the Recreation Advisory Board; and stated that the Recreation Board recognizes that they need to raise significant funds in order to hold Summer Festival 2011; thanked Mrs. Bradley for another balanced budget and wished everyone Happy Holidays.

Commissioner Martinelli stated that the adoption of the 2011 budget was no insignificant task and that she is proud that we have adopted another budget that does not increase taxes – however, that may not be the case next year. Mrs. Martinelli thanked both Mrs. Bradley and the Department heads for their efforts to curb expenditures for 2011; thanked the Public Works Department for their continued terrific work in clearing the streets of snow; stated that she will miss Mrs. Schubert and Mr. Stewart and their input and efforts on the Recreation Advisory Board – Mrs. Schubert is an excellent leader; stated that she is proud to state that the Recreation Advisory Board received over $80 in donations at

their Christmas Party and thanked the Board of Commissioners for working together to adopt the budget. Mrs. Martinelli wished everyone Happy Holidays and stated that the Board met before the regular meeting to discuss an item of personnel in Executive Session and that no further action needed to be taken at this time.

(346-10) MOVED PADULA-FIALLA to adjourn. The meeting was adjourned at 8:30 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley
Secretary

Commissioners' Comments:

Mrs. Martinelli advised the Board that she and Mrs. Bradley, accompanied by Amanda Settelmeier, Executive Director of the Turtle Creek Valley Council of Governments and Steve Morus, the Manager of the Borough of Forest Hills met with David Miller, Associate Professor of the University of Pittsburgh Graduate School of Public and International Affairs (GSPIA). The purpose of the meeting was to determine whether or not GSPIA and the Turtle Creek Council of Governments could assist Wilkins and Forest Hills in creating substainable partnerships with surrounding communities to lower costs. GSPIA will work to arrange a meeting with surrounding communities in February. Mrs. Martinelli also advised the Board that she has received a request from the Woodland Hills School District for a donation for this year's musical – Phantom of the Opera. Each Commissioner's share will be $11.00 for a ¼ page advertisement.

Mr. Padula advised the Board that he has been speaking with Tom Caufield about the potential that Wilkins Township will no longer use the Forest Hills Magistrate's office. It is his current understanding that Wilkins will be moved to the Penn Hills Magistrate's office as a part of a recommendation made by Judge Donna Jo McDaniels to Chief Justice of the Pennsylvania Supreme Court, Judge Castille.

(19-11) MOVED PADULA-COSTA to authorize the Solicitor to prepare a letter to the appropriate Judge seeking reconsideration of a change in magistrate's offices for Wilkins Township. The motion was adopted by unanimous roll call vote.

Mr. Padula also reminded the Board that a Public Safety Committee meeting will be held on Thursday, January 20, 2011 beginning at 6:00 PM in the Municipal Building; thanked Mr. Miller and Ms. Yon for their work on Balint Bridge; thanked Mr. Bruener for his two-cents while he's been off of work and questioned when the newsletters would be going out to the residents.

Ms. Fialla thanked the residents for their interest in the various openings on the committees and thanked those who were no longer interested in serving for their past service; stated that the reason that she did not vote for Mr. Wilson's appointment to the Civil Service Board was due to Judge Conti's comments on page 22 of the Summary Judgment in the lawsuit filed by former Chief Guthrie.

Mr. Szoko questioned the Chief and Solicitor further about Ms. George's complaint on Hibiscus; commented on a copy of correspondence that he received regarding a landlord who takes offense to the Township's rental registration requirements; congratulated Mr. Boyd on his appointment to the Zoning Hearing Board and encouraged him to seek public office and commented upon his belief that the Township needs to be run like a business, which he believes is now occurring in Wilkins Township.

Mr. Costa congratulated Mr. Boyd and all other individuals appointed to the various Boards and stated that he believes Ms. Fialla's comments regarding Mr. Wilson were inappropriate because she clearly does not understand the final disposition of that case.

Mrs. Martinelli thanked Mr. Wilson for wanting to come on board; stated that she disagrees with Mr. Szoko with regard to running the Township like a business. The Township is a service provider and we need to think about the residents first. Mrs. Martinelli thanked the emergency service providers who responded to the accident that involved her personally and stated that the next meeting of the Board of Commissioners is scheduled for January 31, 2011.

(20-11) MOVED COSTA-FIALLA to adjourn. The meeting was adjourned at 8:45 PM. The motion was adopted by unanimous roll call vote.

SECOND STATED MEETING, MONDAY, JANUARY 31, 2011

The Second Stated Meeting of Monday, January 31, 2011 was brought to order by President Sylvia J. Martinelli at 7:00 PM. A quorum was present as follows:

Mrs. Martinelli		Ms. Fialla
Mr. Padula	Mr. Costa	Mr. Szoko

(21-11) MOVED PADULA-COSTA to approve the minutes of the regular meeting of January 10, 2011. The motion was adopted by unanimous roll call vote.

Communications:

ADJOURNMENT

ANNOUNCEMENTS:

1. The Wilkins Township Planning Commission will meet on Wednesday, February 16, 2011 beginning at 7:00 PM.
2. The Board of Commissioners will meet again on February 28, 2011 beginning at 7:00 PM.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

PUBLIC HEARING, MONDAY, FEBRUARY 14, 2011

The Public Hearing of Monday, February 14, 2011 was brought to order by President Sylvia J. Martinelli at 6:50 PM. A quorum was present as follows:

Mrs. Martinelli	Mr. Szoko
Mr. Padula	Mr. Costa

Ms. Fialla was absent

The purpose of the public hearing was to hear public comments on proposed Ordinance #1012, an ordinance which would amend the zoning ordinance to add the definition of a school building conversion and amend the definition of no-impact home-based businesses; permitting no-impact home-based businesses as a use by right in all residential zoning districts and permitting the use of converted school buildings as a conditional use in all residential districts.

Commissioner Martinelli questioned how much time and money was expended on this ordinance.

Mrs. Bradley explained that the main emphasis of this ordinance was to change the requirement that individuals who operate no-impact home-based businesses in residentially zoned neighborhoods must seek special exception approval from the Zoning Hearing Board. This conflicts with the Pennsylvania Municipalities Planning Code requirement that no-impact home-based businesses be permitted in all residentially zoned neighborhoods as a use by right. The addition of a definition for unused school buildings was ancillary to the proposed amendment. However, after review by Allegheny County, , the County recommended changing the name from "unused school building" to "school building conversion" and changing this as a use permitted by right in all residentially zoned districts to a conditional use in all residentially zoned districts.

Commissioner Szoko questioned whether or not this ordinance would impede redevelopment of former school buildings.

Mrs. Bradley stated that there would be a change in how unused school buildings could be reused because instead of permitting these uses by right in all residentially zoned neighborhoods, the new ordinance would require conditional use approval. This means that applicants seeking to reuse a former school building would be required to meet the conditional use terms of the existing zoning ordinance in addition to the new conditional use requirements of the amendment. There would be a hearing before the Planning Commission for conditional use approval and the Planning Commission would make a recommendation to the Board of Commissioners with regard to whether or not the applicant has met the requirements of the conditional use.

(35-11) MOVED PADULA-COSTA to adjourn. The meeting was adjourned at 6:55 PM. The motion was adopted by a 4 to 0 vote.

Respectfully submitted,

Citizens' Comments:

Mr. N. Leonard Hill of 405 Kingston Drive commented upon his disagreement with Commissioner Szoko as to the appropriate number of police officers that should staff the Wilkins Department; and requested that the Board engage the citizenry prior to deciding that the number of officers should be decreased from 12 to 10.

Mr. Michael Boyd of 105 George Street commented upon the "Downspout Disconnect" program sponsored by the Pennsylvania Environment Council that he attended last week.

Mr. Karl Crary of 256 Penhurst Drive commented upon the projected budget deficits and the fact that because there are no frivolous expenditures in the Township's Budget, any cut in expenses is difficult.

Commissioner Padula reminded the Board and staff that a Public Safety Committee meeting will be held on Thursday, March 31st; stated that the VFC will hold CPR certification on March 24th; commented upon the installation of the AED in the room; commented upon the possibility of WHEMS expanding and needing space to build a facility in Wilkins; and commented upon the House of Representatives's recent vote to eliminate the requirement that newly constructed one and two family residential units be required to be sprinklered.

Commissioner Martinelli stated that the State budget that Governor Corbett has proposed will severely wound the Woodland Hills School District. A budget meeting has been scheduled by the School Board for Wednesday, March 16, 2011 and Mrs. Martinelli urged the residents to attend. Governor Corbett's cuts could mean the furlough of up to 100 teachers, the closure of one school building and the elimination of the Woodland Hills Academy.

Citizens' Comments:

Mr. N. Leonard Hill of 405 Kingston Drive discussed the recent news of a merger between the Wilkinsburg Fire Department and the City of Pittsburgh Fire Department and specifically pointed out the similarities in size between Wilkinsburg (2.3 square miles) and Wilkins Township (2.75 square miles) and the differences in expenditures for fire services in Wilkinsburg ($2.2 million) versus Wilkins (less than $300,000).

(89-11) MOVED SZOKO-FIALLA to adopt the following Statement of Senior Management Support for Employee Safety Risk Management: "It is the policy of the Township of Wilkins to protect the safety and health of our employees. Commissioner Fialla questioned whether or not Mr. Padula or the Township had any additional information on property for the Woodland Hills Emergency Management ambulance company.

Commissioner Szoko commented upon Penn Prime's statement of "Doing more with less," and suggested that the Board focus on that when making decisions; and reminded everyone that the Finance Committee is scheduled to meet again before the April 25th meeting.

Commissioner Costa complimented the members of the Public Works Department on their skill-level and ability to perform different tasks, which makes it easy for the Board to make decisions to do work in-house as opposed to contracting it out; advised the Board and residents that Meals on Wheels is looking for volunteers, especially drivers. Anyone interested in volunteering can stop in the office for additional information.

Commissioners' Comments:

Commissioner Szoko presented a four step plan that he believes will save the Township money and help WHEMS find a new facility. First, he believes that VFC #1 and #3 should merge; second, WHEMS should assume the space at #1; third, the two remaining VFC's would receive an annual allocation of $50,000 each year. Fourth, every three years, the Township would make a $100,000 contribution to one of the two fire companies. Commissioner Szoko also commended the Recreation Advisory Board for their ingenuity in spending for the Easter party; reiterated his belief that the Township must "Do more with less;" talked about the pending projected deficits and reminded the Board that a Finance Committee meeting will be held prior to the next regular meeting beginning at 6:30 PM.

Commissioner Fialla commented upon an article that she read in the Winter edition of the Municipal Reporter regarding cost savings associated with Police Departments who have been accredited and thanked the members of the fire companies for coming to the meeting.

Commissioner Costa reminded the Commissioners that a Recreation Advisory Board meeting, initially scheduled to be held last Tuesday, will be held tomorrow night at 7:00 PM at the Community Center and congratulated the Recreation Advisory Committee for the great job they did with the Easter party.

Commissioner Padula cautioned those writing news stories about the meeting to not publish that the Township is consolidating fire department and moving people around, because at this point, it is all part of the on-going discussion. The Public Safety Committee had a positive 2 hour meeting last week and he does not want that to get blown open because of tonight's discussion, Mr. Padula also stated that the role of the Commissioner is not to just oversee one aspect of municipal government, but to oversee all aspects of municipal government and that all Commissioners should be participating in all events – whether they are Easter parties or Public Safety Committee meetings. Mr. Padula also commented on the need to purchase patrol rifles.

Commissioner Martinelli stated that the Township has been a member of the Churchill Area Environmental Council for many years and as a part of that membership, has annually donated funds toward a scholarship for a student seeking to continue his/her education in the environmental sciences field; thanked Commissioner Padula for volunteering with the Spaghetti Dinner and for all his volunteer service in the community; reminded the members of the Board that there will be a Shared Services meeting at the Community Center beginning at 6:30 PM on Thursday, April 21, 2011; commented upon the ALOM conference that she attended over the weekend at her own expense and thanked everyone for taking time out of their schedules to attend the meeting this evening.

Commissioners' Comments:

Mr. Szoko stated that his number one goal as an elected official is to balance the budget without raising taxes; further discussed his idea for merging fire services as presented at the last meeting; stated that he was bothered that when he asked for specific numbers at the last meeting, he was told that that was not the way it worked and that he is standing by his AMENDED proposal and hopes to hear recommendations for improvements to that proposal.

Mr. Costa commented on the Letter to the Editor written by James Dick which was published in the Thursday, April 21st edition of the Pittsburgh Post-Gazette and stated that if Mr. Dick attended any meetings of the Board, he would understand that donations for the fire departments are way down and that we cannot continue to require our volunteers to fundraise to provide funds for firefighting equipment. Residents should be aware that if we do not have a fire department, they will not be able to get fire insurance on their homes and then we will all have to hook up our garden hoses to help our neighbors if their houses catch on fire.

Ms. Fialla stated that she believes residents of Wilkins Township are experiencing extreme anxiety because of the budget cuts that the Woodland Hills School District is going to make and because of increasing fuel and food prices. She believes that residents want to support their local fire departments, but are unable to due to economic conditions. She stated that she believes that it is up to the Board of Commissioners to find out how we can run things more efficiently without raising taxes and continue to provide funding to the VFC's. At this time, she believes that a dedicated fire tax should be an option of last resort.

Mr. Padula stated that VFC #3, of which he is a member, recently sent out 1,037 subscription applications to residents in their district. Of those applications, they received 226 back. They have received funding in the amount of $10,750. Out of that, they have to pay $1,300 to the company that sent out the subscriptions. VFC #3 just got done holding fish fry's and will have a dance next week and sell hoagies for Election Day. Mr. Padula questioned how much more the volunteers are expected to do. He stated that he is not asking for a tax, but a service fee, similar to Forest Hills.

Mrs. Martinelli stated that she does not want to add fuel to the fire department debate, but she cannot envision the merger of the departments. She also advised everyone that the new date for Clean-Up Wilkins will be on May 7th and stated that she has received a complaint about littering from on Highland Avenue.

(125-11) MOVED FIALLA-COSTA to adjourn. The meeting was adjourned at 8:25 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley

Commissioners' Comments:

Commissioner Fialla reiterated that she does not have anything against the bands that the Recreation Advisory Board selected, but she does not believe that if we are asking employees to cut back and make concessions, that we should be funding these bands without knowing that there is an absolute recovery of the funds; and congratulated the Woodland Hills School students on their production of "Phantom of the Opera."

Commissioner Szoko stated that he is glad that the contract between Wilkins and Tropical Amusements is coming to an end because he believes that the Board should really consider cutting the event down to a day or two; commented upon an article in the Pittsburgh Post-Gazette May 9th edition which compared East Liberty to Homewood; and questioned the Solicitor regarding his research on fees for fire department services and how a municipality goes about having a referendum placed on the ballot.

Commissioner Costa responded to Commissioner Fialla's comments regarding the bands for Summer Festival and explained that the Recreation meetings are open to the public and that Ms. Fialla should have attended those meetings to see how well the Recreation Board has done at shaving costs. Further, Mr. Costa stated that the worse year the Township ever sustained at Summer Festival was last year and the Township's total contribution was $4,000. Finally, Mr. Costa welcomed Tory Parish, a reporter with the Pittsburgh Tribune Review.

Commissioner Padula also welcomed Tory Parish to the meeting and stated that he feels the same way about the Recreation Advisory Board as Mr. Costa and also stated that the Board needs to support those residents of the community who give their own time to volunteer for various boards and committees. Mr. Padula reminded the residents that next Tuesday, May 17th is the Primary Election and asked everyone to get out and vote. Finally, Mr. Padula requested that the Manager send letters to the residents of Dowling Avenue to let them know why the Public Works Department and Senate's surveyors have been in their back yards.

Commissioner Martinelli advised that Swissvale Borough will be holding a "Meet the Candidate" night tomorrow night at their Municipal Building for School Board candidates; stated that she concurs with Ms. Fialla that the Woodland Hills School District's production of Phantom of the Opera was phenomenal; thanked the members of the Board, Mr. Bruener and Mrs. Bradley and the 30-40 volunteers who helped with the clean-up this past weekend; stated that Residence Inn had their Monroeville Area Chamber of Commerce Ribbon Cutting Ceremony today and she, Mr. Costa and Mrs. Bradley attended on the Township's behalf; and finally, encouraged the Township residents to take part in the Memorial Day events on Monday, May 30, 2011 at 11:00 AM at the Churchill Cemetery. Mr. Wilson has once again volunteered to chair this committee and has done an outstanding job.

(145-11) MOVED COSTA-FIALLA to adjourn. The Meeting was adjourned at 8:55 PM. The motion was adopted by unanimous roll call vote.

Mr. Szoko commented upon the upcoming budget meetings for 2012 and the need for each department to trim 20-25% off of their respective budgets.

Mr. Costa thanked Pat Lanigan for the presentation at Olympia Hall in commemoration of 9/11 and also commented upon the luminary display at the McMasters Church.

Mr. Padula also thanked Pat Lanigan for the presentation at Olympia Hall and the plaque and for all the things that he's done for the Township in the past; commented upon the need to contact PennDot to clear the debris away from the catchbasins on Route 22 and stated that he does not understand why, and believes it is a waste of taxpayer money for Commissioner Fialla to attend the ALOM conference at Seven Springs later this month when she will no longer serve in the capacity of Commissioner next year.

Mrs. Martinelli thanked everyone for coming to the meeting tonight; thanked Mr. Lanigan for the presentation and stated that the next meeting is scheduled for September 26, 2011.

Presentation:

Mr. Pete Nychis, Esquire, and Mr. Dan Cessna, District Manager for Penn Dot #11 presented information to the Board regarding the proposed addition of traffic lanes and installation of a traffic signal at the intersection of Maple Lane and Rodi Road in Penn Hills. At this point, it appears that there are two issued which are stopping the project, which is ready to proceed. First, in accordance with Penn Dot's newly revised policy, all stormwater improvements and/or changes associated with the project are required to be maintained post-construction by the municipal HOP permittee. In this particular case, Penn Hills is the HOP permittee. Penn Hills has refused to accept maintenance responsibilities for the new stormwater system, which is proposed to encompass 520 lineal feet of 18" concrete pipe. Of that amount approximately 380' will be located on Rodi Road and the remaining will be located on Maple Lane. Five catch basins and one manhole are also included in the upgraded stormwater facilities. Penn Hills and PennDot are requesting that the Township Board of Commissioners agrees to accept maintenance responsibilities for this system. Second, PennDot, as a part of its Contribution Agreement with Penn Hills, stipulates (at Paragraph 8) that: "Unless otherwise agreed to by the parties in writing, the MUNICIPALITY shall, subject to Federal Highway Administration cost participation where applicable, indemnify, save harmless and if requested defend the DEPARTMENT and/or the Commonwealth, its agents and employees from and be solely responsible for the payment and satisfaction of all awards, judgments, claims, costs, and damages including the costs of appraisers and attorneys, witness fees, and other court costs brought for or on account of any injuries to or damages received or sustained by any person, persons, or property arising out of PROJECT, including but not limited to the additional work required by the

MUNICIPALITY; or resulting from any act or omission of the MUNICIPALITY undertaken as a result of this Agreement." Penn Hills has refused to sign the Contribution Agreement with this language and is requesting that Wilkins Township assume that responsibility.

Mr. Cessna indicated that time is of the essence because their contractor, Folino, was to start on the project on September 16th. They requested that the Township fast-track their decision making on this issue.

(232-11) MOVED PADULA-COSTA to authorize the Solicitor and the Engineer to review the information and provide the Commissioners with their recommendations on how to proceed with all costs associated with that review to be borne by the developer and further authorizing the Manager to advertise for a public meeting to be held on Monday, October 3, 2011 beginning at 6:00 PM for the purpose of hearing those recommendations and making a decision. The motion was adopted by unanimous roll call vote.

Citizens' Comments:

Mr. William Wilson of 201 Dorothy Street, Wilkins Township asked Commissioner Szoko to resign as a Commissioner due to the fact that a Protection from Abuse (PFA) order had been filed against him by his live-in girlfriend.

Dorothy Musial of 313 Frazier Drive advised that she has a high deductable Highmark Blue Cross Medicare Part D Advantage Plan for hospitalization and that it does not cost her anything except for her deductable.

(233-11) MOVED FIALLA-COSTA to approve the proposed tax settlement for AWK (Lot/Block #542-J-150) for the tax years 2009, 2010 and 2011 at an assessed value of $450,000 per year. The motion was adopted by unanimous roll call vote.

(234-11) MOVED COSTA-PADULA to authorize the Manager to advertise a proposed ordinance amending Chapter 156 of the Codified Book of Ordinances, to reflect the changes in the law as effected by Act 32 of 2008. The motion was adopted by unanimous roll call vote.

(235-11) MOVED SZOKO-PADULA to authorize the Manager to advise the COG of the Township's interest in exploring the formation of a Joint Uniform Construction Code Appeals Board. The motion was adopted by unanimous roll call vote.

(236-11) MOVED COSTA-PADULA to approve the budget submitted by the Recreation Advisory Board for the Pumpkin Patch Party scheduled to be held on October 22nd, beginning at 12:00 PM. The motion was adopted by unanimous roll call vote.

Commissioners' Comments:

Commissioner Szoko commented upon the termination of Workers' Compensation Insurance by Penn Prime and the need for employees to recognize that workers' compensation is not a bottomless pit and should be used appropriately; and commented upon the issues facing the Township in the 2012 and future budgets.

Commissioner Padula also commented upon the Township's loss of Workers' Compensation insurance and questioned whether or not the Township stress to the new carrier that one of the individuals who was on workers compensation for two years has retired and will not be a recurring claim; questioned where the Manager was in the exploration of laptops for Commissioners and requested that Commissioner Fialla bring back information from the conference at Seven Springs.

Commissioner Fialla questioned how the Township is rated for Workers Compensation insurance and thanked Mr. Nychis, Mr. Cessna, Mr. D'Andrea, Mr. Caruso and Mr. Brosnan for attending the meeting and presenting the information relative to the traffic signal and road widening project in Penn Hills and stated that this is an example of how the Township can maximize revenues without the need to cut services or raise taxes.

Commissioner Costa stated that he hopes that the issues on Rodi can be resolved because that intersection is routinely a mess.

Commissioner Martinelli commented on VoCollect and what a great company it is; thanked Mrs. Bradley for forming a safety Committee to help address concerns related to Workers' Compensation claims; apologized to Mr. Wilson for cutting him off during Citizens' Comments and requested that Public Works oil Commissioner Szoko's chair so that it does not squeak when he rocks in it.

(237-11) MOVED COSTA-PADULA to adjourn, the meeting was adjourned at 8:43 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

SPECIAL MEETING , MONDAY, OCTOBER 3, 2011

A Special Meeting of Monday, October 3, 2011 was brought to order at 6:00 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Fialla
Mr. Padula	Mr. Costa	Mr. Szoko

Purpose:

The purpose of this Special Meeting of the Board of Commissioners was to hear the recommendation of the Solicitor and the Engineer in regard to whether or not the Township of Wilkins should assume the indemnity clause in the Contribution Agreement between the Municipality of Penn Hills and the PA Department of Transportation and whether the Township should assume the maintenance of a new storm water system (520 +/-lineal feet of new 18" pipe, 5 catch basins and one manhole) all in relation with the installation of a traffic signal at the intersection of Rodi Road and Maple Lane. Penn Hills has agreed to be the Highway Occupancy Permit Applicant and Wilkins Township has agreed to be the permittee for the traffic signal.

Prior to hearing the recommendation of the Solicitor, Mr. Daniel Cessna, Manager, PA Department of Transportation, District 11, advised the Board that they were removing the indemnification clause from the Contribution Agreement with Penn Hills and it was, therefore, no longer necessary for the Township to consider assumption.

Mr. Rushford previously provided the Board of Commissioners with his written recommendation as it pertained to the maintenance of the storm water facilities. He believed that Commissioners needed to weigh the liability of ownership with the risk associated with VoCollect moving out. He recommended that the Board not approve this transaction without approval from the insurance carrier as to coverage for maintenance and repair. He also questioned whether or not insurance would be available to cover Public Works employees who would be required to work on these facilities. Mr. Rushford modified the proposed Intergovernmental Agreement between Wilkins and Penn Hills to state that Penn Hills would hold Wilkins harmless for the care and control of the facility.

Ms. Yon also provided her written recommendations to the Board prior to the meeting. She believes that the storm water design is technically sound, but the calculations provided were for a 10 year storm and the Township's ordinance requires a 25 year storm calculation. However, Ms. Yon does not believe that those new calculations would establish a different result because the amount of additional runoff associated with this development is minimal. As a condition of the approval, Ms. Yon requested that the developer provide the township with additional information as to the location of the points of connection and if it is determined that there are existing issues at these locations, that they are addressed by the developer.

Mrs. Bradley advised the Board that the Insurance Carrier, Selective would not provide insurance for assets that are not owned by the Township and therefore, the only way that the storm water facilities would be insured would be for the Township to physically own them. In addition, Mrs. Bradley provided information as to the annual tax payment that the Township receives from VoCollect. ($21,250 in mercantile and local service tax and $32,200 in real estate taxes).

Mr. Cessna and Mr. Brosnan believed that Penn Hills would not have a problem with the Township owning the storm water facilities.

(238-11) MOVED COSTA - PADULA to authorize the Solicitor, Manager and Engineer to move forward with obtaining ownership of the proposed new storm water facilities (pipe, catch basins and manhole) for the Rodi Road / Maple Lane Traffic Signal Project and to enter into agreements with the appropriate entities for this project, contingent upon Paragraph 8 of the contribution agreement between the PA Department of Transportation and Penn Hills being deleted and upon receipt of approval of the Wilkins Township insurance carrier of ability to insure. The motion was adopted by unanimous roll call vote.

Commissioners' Comments:

Commissioner Martinelli announced that the Board of Commissioners, upon adjourning the meeting, would be meeting in Executive Session to discuss an item of litigation and would not be returning for a vote.

(239-11) MOVED PADULA - FIALLA to adjourn. The meeting was adjourned at 6:30 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

BUDGET MEETING , MONDAY, OCTOBER 10, 2011

A Budget Meeting of Monday, October 10, 2011 was brought to order at 6:00 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Fialla
Mr. Padula	Mr. Costa	Mr. Szoko

Mrs. Bradley presented the proposed 2012 budget for all funds, as follows:

IDA Fund: This fund is projected to begin the year with a balance of $32,800. All funds will be transferred to the General Fund during 2012 and this fund will be closed.

Combined Sewer Fund: The final bond payment was made in 2011. Therefore, the 2012 budget proposes a decrease of $0.75 per 1,000 gallons of water usage. This seventy-five cent surcharge was added in 2004 to offset the cost of the bond issue. The sewer fee is based upon water consumption. The average water consumption per year is 172,762,000 gallons. A seventy-five cent decrease is expected to reduce revenue by about $129,571. The anticipated project for 2012 is Phase I of the Dowling Street sanitary sewer line replacement ($267,670). Additionally, a feasibility study, mandated by the EPA CO&A is due in July ($75,000). The proposed Sewer fund is balanced with revenues and expenditures of $1,412,200. The Township has not yet received notice from ALCOSAN with regard to the 2012 Budget Requirement. Therefore, it is anticipated that this proposed budget will be adjusted.

Emergency Contingency Fund: The proposed carryover balance of $562,700 plus $100 in interest will be transferred to the General Fund during 2012.

Emergency Management Fund: The proposed carryover balance of $29,000 will be transferred to the General fund in 2012 and this fund will be closed.

Capital Reserve Fund: Preliminarily, it is anticipated that the carryover balance from 2011 to 2012 will be about $15,000. This carryover is subject to change, based upon the final cost of the Balint Bridge project. A copy of the cost-to-date for the bridge is included in the budget narrative for this fund. Funds remaining in Capital Reserve will be used solely for the purpose of reimbursing assessment appeals for prior years.

Liquid Fuels Fund: The Township received its estimated 2012 Liquid Fuels allocation from the Commonwealth of Pennsylvania Department of Transportation. These funds ($145,300) plus a carryover of $100 and interest of $100 represent revenues and are offset by expenses for street lights and public works wages. Revenues and expenses are each estimated at $145,500.

Police Pension Fund: The Police Pension Fund's net actuarial loss between 01/01/09 and 01/01/11 was $238,700. The Township's Minimum Municipal Obligation to the Plan for 2012 is $336,530. Anticipated revenues include carryover balance of $1,500; Interest $100; Employee Contributions $48,000, Employer Contributions $231,600 and State Aid $105,000. Expenses include PNC and Mockenhaupt Management Fees: $5,000 and a transfer to the PNC Pension Fund $381,200.

Retired Member Death Benefit: Carryover funds are projected to be $103,950. The Township's annual allocation is $8,050 and interest of $100 is projected, bringing total revenues to $112,100. Mrs. Bradley will determine whether or not the fund is fully funded; whether or not a policy for each retiree can be taken out at a low cost and whether these funds can be transferred into the General Fund for use – if a policy is secured.

Disaster Relief Fund: Estimated revenues and expenditures for 2012 are $1,990.

General Fund: The proposed General Fund is balanced with revenues and expenditures equaling $4,809,300. This amount includes a .44 mill increase in taxes, which is basically equivalent to the decrease in the sewer user's fee that residents will experience. The year 2012 represents the first year of Act 32 implementation and it is anticipated that the Township will suffer a decrease

in Earned Income Tax revenue during the first year of implementation. The budget also allows for the procurement of a loan in the approximate amount of $144,000 for a period of 5 years at an estimated interest rate of 8%. These funds will be donated to VFC #4, in accordance with Resolution #11-2011. The budget relies upon a carryover balance of $315,800, the transfer of $562,800 from Emergency Contingency, the transfer of $29,000 from Emergency Management and the transfer of $32,800 from IDA. The Township was recently notified that health insurance costs for active employees and retirees who are not Medicare eligible will increase by 49% between 2011 and 2012. This equates to approximately $250,000 that was not anticipated. Additionally, Penn Prime notified Wilkins that it would not be renewing the Township's workers compensation policy due to higher than average claims. The Township's agent is currently working to secure other coverage. It is anticipated that the Township's premium will increase by at least 20%. Better estimates will be available at the next meeting. The proposed expenses eliminate all training dollars with the exception of mandatory training for the Police department; a 2% increase in wages for Maintenance Employee Association members and fulltime administrative staff pursuant to the tentative agreement between the WTMEA and the Township; no capital purchases; and no street paving. The Township is currently in arbitration with the Police Union and therefore, no costs associated with an arbitration award have been assigned to date.

The next budget meeting is scheduled for October 24, 2011 beginning at 6:00 PM.

(240-11) MOVED PADULA - COSTA to adjourn. The motion was adopted by a unanimous roll call vote of all present. The meeting was adjourned at 6:55 PM.

Respectfully submitted,

Rebecca Bradley

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

BUDGET MEETING, MONDAY, OCTOBER 24, 2011

The Budget Meeting of Monday, October 24, 2011 was brought to order at 6:00 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli — Ms. Fialla
Mr. Padula — Mr. Costa
Mr. Szoko was absent.

Mrs. Bradley discussed developments since the last budget meeting. It now appears that Blue Cross will be able to forward invoices for Medicare eligible retirees directly to Wilkins Township for payment, instead of the Township reimbursing the individual retirees. The premium for the Security Blue HMO Deluxe will actually be about $25 less per individual per month, for a total savings of about $4,000 per year. According to Tammy Capo of MEIT, the Township should not expect much movement from the 49% increase in active employee / non-Medicare eligible retiree health care. The rates are being driven by both the age of the group and the overall claims of the group. Vision and Dental premiums will remain the same. Workers Compensation rates have not yet been provided, but a model provided by Seubert indicates that at least a 20% increase should be expected. The Township received notification from U-COMP that the rate for Unemployment Compensation will increase from 1.2% for the first $8,000 in employee wages to 1.34% for the first $8,000 in employee wages. Overall, this is a minor change, but a surprise because the township has only had one claim in the last several years. That claim was successfully challenged by the township. Based upon current revenue and expenditure projections, the carry forward balance in the General Fund is expected to increase from the original presentation by about $37,000, as noted in the following table.

The Proposed General Fund still includes an increase in millage of about .44 mills. The Sewer Fund includes a decrease of $0.75 per thousand gallons of water. The increase in millage equals $29.57 on a home assessed at $67,200, the median property value in Wilkins. The decrease in sewer user fee equals $48.00 per year based upon an average quarterly water consumption of 16,000 gallons.

Other funds have not been amended. The Township has not yet received the requirements notification from ALCOSAN, and it is still anticipated that that fund will be amended prior to adoption.

The next meeting to discuss the 2012 Budget is scheduled for November 14, 2011 at 6:00 PM. First reading of the budget for adoption will occur at the regular meeting of the Board immediately following.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

BUDGET MEETING, MONDAY, NOVEMBER 14, 2011

The Budget Meeting of Monday, November 14, 2011 was brought to order at 6:00 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Fialla
Mr. Padula	Mr. Szoko	Mr. Costa

Mrs. Bradley reported that since the last budget meeting, the Township received actual health care rates for 2012 and also received correspondence from the Commonwealth advising that because the Township's population has decreased, the liquid fuels allocation will be decreased by about $10,000. Several changes were also made to 2011 projections, resulting in a net decrease of the 2012 beginning balance of $33,600 (from $352,800 to $319,200). Earned Income Tax revenues were reduced to further reflect the negative effects of the commencement of Act 32. It is highly anticipated that municipalities will lose an entire quarter of revenues due to the changeover. The Township's budget reflects a downward shift of about $81,000. Mercantile Taxes were increased by $25,000 in 2012 at the recommendation of the Monroeville Tax Office, who collects business privilege, mercantile and local service taxes for the Township.

Commissioners' Comments:

Commissioner Fialla stated that the Board of Commissioners will need to reopen the budget in January to take into consideration the changing landscape of the County's reassessment of properties as well as a new Collective Bargaining Agreement with the Police Department. She stated that it has been her honor and privilege to have served the residents of Wilkins Township for eight years and that she received many phone calls over the last couple of months thanking her for her service. She commented that it is extremely challenging to determine what the essential governmental functions are and how these should be funded. She hopes that the newly elected Commissioners will find their public service to be as rewarding as she has and wished everyone a Merry Christmas.

Commissioner Szoko provided the Commissioners and Department Heads with a handout entitled "Blueprint for all future budgets". He also stated that he believes that the Commissioners should treat the citizens with kindness and respect and never get personal. It has been an honor to serve for four years and thanked all of the residents that supported him. He wished the citizens good luck and best wishes and congratulated Ms. Fialla on her eight years of public service.

Commissioner Padula thanked Judge Caulfield for his service to Wilkins Township and stated that he will be sadly missed; thanked Ed Bruener and the Public Works Department; Amber Yon, John Rushford and Rebecca Bradley for their efforts on the Balint Bridge project and for finishing the bridge; asked that Mr. Patchell be invited to the ribbon cutting ceremony; congratulated the recreation Board on another fine job and stated that they continue to step up to the plate and go the extra mile; thanked Mr. Hill and the office employees for filling in during Mrs. Franc's absence and commented that while the 2012 budget is not the best budget, it is balanced and we will make do with what we have. Mr. Padula wished everyone Happy Holidays, and made the following motion:

(293-11) MOVED PADULA – FIALLA authorizing the Manager to send a letter of thanks and appreciation to Mr. Lawrence Patchell for his patience and cooperation during the rebuilding of the Balint Bridge. The motion was adopted by a unanimous roll call vote of all present

Commissioner Costa thanked Ed Bruener and the Public Works Department employees on their hard work and for the completion of the Balint Bridge; thanked the Recreation Board for their continued volunteer work; and commented upon the pension audit that was just completed in Wilkins Township as a result of correspondence filed by Commissioner Fialla with the

Commonwealth. Mr. Costa stated that the auditor reported no findings in either the Police Pension Plan or the Non-uniform Pension Plan for the period January 1, 2009 through December 31, 2010 and that Ms. Fialla basically wasted taxpayer dollars at both the local and state level for the purpose of her personal witch hunt.

Commissioner Martinelli stated that she would reserve comments on the Balint Bridge for the ribbon cutting ceremony on Wednesday. She requested that the residents of the Woodland Hills School District take the time to complete the survey which is available on the Woodland Hills website. Mrs. Martinelli serves on an ad-hoc committee which is focusing on where the residents believe the School District should be in five years. Mrs. Martinelli wished everyone Happy Holidays.

(294-11) MOVED PADULA - FIALLA to adjourn. The motion was adopted by a unanimous roll call vote of all present. The meeting was adjourned at 8:38 P.M.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

RE-ORGANIZATION MEETING – TUESDAY, JANUARY 3, 2012

The Re-Organization Meeting of Tuesday, January 3, 2012 was brought to order at 7:11 PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli — Ms. Criner
Mr. Padula — Mr. Costa
Mr. Boyd

Prior to the Certification and Oath of Office, Commissioner Padula read the following statement: "To the Residents of Wilkins Township: With deep regret, I must resign my position as Wilkins Township Commissioner, effective immediately. My employer, PNC Bank, has asked me to step down from this position to protect myself as well as PNC Bank. Due to strict Pennsylvania Conflict of Interest Laws that have been recently reviewed by the bank, I have been asked to step down and not hold Public Office. This is part of a general effort to preserve the company's ability to do business at the municipal level in the future. Any questions can be directed to Frederick Solomon, in PNC Corporate Communications. With that said, it has been an honor and pleasure these past twelve years to serve the residents of Wilkins Township. When asked to run for this position in 1999, I was told it was a four year term and I replied are you kidding me 4 years, I'll never make it! And guess what – those 4 years passed and I ran for another 2 terms. I have enjoyed my endeavor minus a few rough times...but have many great memories! I have great respect for folks that hold public office. I have had the privilege of working with great folks such as our Township employees our Solicitors and Engineers, from the past as well as the current ones. I gained a wealth of knowledge working with current and past Commissioners and Managers. I deeply care for Wilkins Township and will continue my tenure with the Wilkins #3 Volunteer Fire Company as I have in the past 20 years. I leave you in great hands with the current Board of Commissioners and management staff as well as the township employees. I know together with your help, we can keep Wilkins Township moving forward! Once again, thank you for your support and votes of confidence...I will miss serving you in my capacity as Wilkins Township Commissioner! Thank you!"

Mr. Boyd commented upon the re-adoption of the 2012 Budget and stated that with the reassessment, the Board will be reviewing the millage again next year. We have significantly more money for paving and we will put some money towards next year. Mr. Boyd again stated that he wants to reduce the amount of funds expended on refuse by increasing recycling in the Township.

Mrs. Martinelli commented upon the reassessment and the fact that Mr. Fitzgerald, the County Executive, is not in favor of what has been occurring. There will be regional meetings concerning the assessments within the near future and they are trying to put into place satellite offices for assessment appeals-one will be located in Point Breeze. Mrs. Martinelli also recognized Inori Sakai, a 16 year old Wilkins Township resident who will compete against seven other string players for the top prize of $2,000 at the national competition of the Music Teachers National Association at the Hilton Hotel in New York City and requested that the Township send her a letter recognizing her accomplishments.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

PUBLIC HEARING, MONDAY, APRIL 9, 2012

The Public Hearing of Monday, April 9, 2012 was brought to order at 6:30PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Criner
Mr. Boyd	Mr. Costa	Mr. Wilson

The purpose of the public hearing was to hear public comments on a proposed ordinance which would amend the zoning ordinance and zoning map by rezoning certain properties on Penn Center Boulevard from M-1 to R-4. The Wilkins Township Planning Commission, at their meeting of February 15, 2012 unanimously recommended that the Board of Commissioners amend the zoning map as requested.

Attorney Kevin McKeegan of Meyer, Unkovic and Scott presented the details of the proposed changes to the Board of Commissioners. He stated that when PCETT purchased the property in 2007, the zoning of the parcels was perceived as C-1. It was only after ownership that PCETT became aware of the need to rezone. There are three reasons that the Board should consider rezoning: 1) The rezoning will result in consistency between the zoning district and the historical use of the property; 2) The zoning will now be parcel-based, instead of cutting through parcels of land; 3) Existing nonconforming uses created by zoning that is not consistent with use will be eliminated.

Commissioner Wilson questioned why there was a swath of R-4 proposed to remain. Mr. McKeegan explained that that swath represents Laurel Village and the Brentmoor, which are both residential apartments and R-4 is the appropriate zoning designation for that area. Commissioner Criner questioned where the orange (or M-1) area was located. Mr. McKeegan responded that all of the M-1 is outside of the Penn Center property. This property is on Lower Rodi Road (Pemar's, Hood, Eles Brother, Italian Club).

There were no public comments regarding the proposal.

(115-12) MOVED WILSON-COSTA to adjourn, the meeting was adjourned at 6:45 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

PUBLIC HEARING, MONDAY, APRIL 30, 2012

The Public Hearing of Monday, April 30, 2012 was brought to order at 6:32PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Criner
Mr. Boyd	Mr. Costa	Mr. Wilson

Mrs. Bradley stated that the purpose of the public hearing was to hear the recommendations of the Planning Commission and public comments on an application for Conditional Use presented by PCELL, LP for property located at 600 Penn Center Boulevard (Building #6)-Lot/Block #542-J-201. The application is for the lease of 2 ½ floors of Building #6 to STREAM Academy, a cyber charter school, for the purpose of operating a private school.

Mrs. Bradley further stated that the Wilkins Township Planning Commission met on Wednesday, April 18, 2012 to hear the request from STREAM. The Planning Commission unanimously voted to recommend that the Board of Commissioners accept the conditional use application of STREAM to operate a private school at Building #6 at Penn Center, contingent upon the administrators of the school providing the Township Manager with a written parking plan for students, faculty and visitors prior to the beginning of the school year.

Mr. Kevin McKeegan, Esquire, of Meyer, Unkovic and Scott addressed the Board of Commissioners on behalf of the applicant and STREAM Academy. Also present was Barry Layton, General Manager of Penn Center, representing the property owner and Dave Martin, the principal of STREAM. Mr. McKeegan stated that, as Mrs. Bradley indicated, STREAM Academy wishes to occupy 2 ½ floors of Building #6. Mr. McKeegan advised that this property is currently zoned R-4, but that Ordinance 1026, advertised for adoption at the regularly scheduled meeting of the Board this evening, will change that zoning district from R-4 to C-1. STREAM Academy is a charter cyber school. The Township's zoning ordinance permits private schools by conditional use in commercially zoned areas. The Township's ordinance does not include any specific requirements for private schools, but does include general requirements for conditional use. The applicant believes that these requirements are either not applicable or that they meet them, as follows:
(Section 173-49)

A. "The proposed use conforms to the district and conditional use provision and all general regulations of this Chapter." As discussed above, the property is/will be Zoned C-1. A private school is permitted by Conditional Use approval in a C-1 zoning district.

B. "The proposed use meets all special standards which may apply to its class of conditional uses as set forth in this article." There are no special standards listed for a private school.

C. "The proposed use shall not involve any element or cause any condition that may be dangerous, injurious or noxious to any other property or persons and shall comply with the performance standards of §173-50." There are no elements of the proposed use which would cause any condition, or involve any element that is dangerous injurious or noxious.

D. "The proposed use shall be sited, oriented and landscaped to produce a harmonious relationship of buildings and grounds to adjacent buildings and properties." Mr.

McKeegan provided the Board with photographs of the surrounding area. The closest property to Building #6 is Penn Towers, an apartment complex. This complex sits over the hill from Building #6 and therefore, the facility is oriented in such a way as to be harmonious with surrounding uses.

E. "The proposed use shall produce a visual impression and environment which is consistent with the environment of the neighborhood." The use of the facility as a private school is consistent with the environment of the neighborhood. The private school will be physically separated from the remainder of the buildings and the remainder of the tenants.

F. "The proposed use shall organize vehicular access and parking to minimize traffic congestion in the neighborhood." Mr. McKeegan stated that on average, students will visit the school 2 days a month. Access to the facility will be by private vehicle, or public transportation. There will be no large assembly halls, or meeting and/or gathering rooms. The largest classroom will support approximately 50 students. The expectation for necessary parking spaces is less than 150 and the site can readily support that expectation. Children will be transported by vehicle to the west side entrance of the facility. Traffic will flow out of the parking area from that point.

G. "The proposed use shall preserve the objectives of this chapter and shall be consistent with the Comprehensive Plan." The proposed use of the facility preserves the objectives of the Zoning Ordinance and is consistent with the Comprehensive Plan.

(Section 173-50)

A. "Fire protection. Fire prevention and fighting equipment acceptable to the Board of Fire Underwriters shall be readily available when any activity involving the handling or storage of flammable or explosive materials is carried on." No testimony indicated that flammable or explosive materials will be stored or handled in the operation of STREAM Academy.

B. "Electrical disturbances. No activity shall cause electrical disturbance adversely affecting radio or other equipment in the vicinity." No testimony indicated that any of the activities at the school will result in an electrical disturbance.

C. "Noise. Noise which is determined to be objectionable because of volume, frequency or beat shall be muffled or otherwise controlled, except fire sirens and related apparatus used solely for public purposes shall be exempt from this requirement." No testimony was given which would indicate that the school plans to create objectionable noise.

D. "Vibrations. Vibrations detectable without instruments on neighboring property in any district shall be prohibited." There was no testimony given that the school will create vibrations that are detectable from neighboring properties.

E. "Odors. No malodorous gas or mater shall be permitted which is discernible on any adjoining lot or property." There was no testimony presented indicating that gases or other mater with an odor will be used in a manner where their odor is detectable on adjoining properties or lots.

F. "Air pollution. No pollution or air by flyash, dust, smoke, vapors or other substance shall be permitted which is harmful to health, animals, vegetation or property." No testimony was provided indicating that the school would pollute the air by any substance.

G. "Glare. Lighting devises which produce objectionable direct or reflected glare on adjoining properties or thoroughfares shall not be permitted." There was no testimony as to the need and/or intent to place additional lighting on the site which would produce an objectionable glare.

H. "Erosion. No erosion by wind or water shall be permitted which will carry objectionable substances onto neighboring properties." This is not applicable to the application.

I. "Water pollution. Water pollution shall be subject to the standards established by the Department of Environmental Resources." This in not applicable to the application.

PUBLIC COMMENTS:

None.

COMMISSIONERS' COMMENTS:

Mr. Rushford clarified that the existing zoning of this property is R-4 and that by proposed ordinance 1026, advertised for adoption this evening, this zoning will be changed to C-1.

Mrs. Criner questioned the hours of operation. Mr. McKeegan stated that the private school will operate Monday through Friday and will not be open on Saturday or Sunday.

There being no further testimony, the meeting was adjourned by unanimous roll call vote at 6:45 PM.

Respectfully submitted,

Rebecca Bradley

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

PUBLIC HEARING, MONDAY, MAY 21, 2012

The Public Hearing of Monday, May 21, 2012 was brought to order at 6:02PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli		Ms. Criner
Mr. Boyd	Mr. Costa	Mr. Wilson

After calling the meeting to order, Mrs. Martinelli stated that the purpose of the public hearing was to take public testimony relative to property located at 172 Churchill Lane (Lot/Block 454-P-094); 687 Negley Avenue (Lot/Block 454-P-226); 245 Harrison Road (Lot/Block 453-R-200) and 255 Harrison Road (Lot/Block 453-R-234). The purpose of the testimony was to determine whether or not the structures located on these properties should be declared a public nuisance and be condemned for demolition.

Mrs. Bradley advised the Board that Mr. Hill, who was prepared to testify at length in these matters, was unable to attend the meeting this evening because he has what he believes to be the flu. In his place, Mrs. Bradley provided the following concerning each of the properties on behalf of the Township.

172 Churchill Road (Lot/Block 454-P-094): The property is currently owned by Citifinicial Mortgage Company, Inc. The house was built in 1919 and has a grade of C-from the County. The house is a two story wood framed structure. It has been vacant for at least 14 years. The property was previously owned by Ramona Spencer. In 2008, the Township began condemnation proceedings and the property was taken over by the mortgage company. Taxes on the property have not been paid for at least the last four years. The roof and right rear wall of the house have collapsed. The right rear room is open to access, making it a fire hazard. The front right second floor window is also open. All utilities have been disconnected. The property is overgrown with weeds, vines and trees. Mr. Rushford stated that notice was sent to Citifinancial at the address provided on the Allegheny County Assessment website. The notice was returned as undeliverable. A title search was also performed. The property was posted and the public hearing was advertised.

687 Negley Avenue (Lot/Block 454-P-226): The property is owned by Thomas Moore. The house was constructed in 1890 and is graded D+ by Allegheny County. It is a two story wood frame structure with some type of siding. The front porch is rotting and collapsing. The house has been vacant for at least four years. The owner was incarcerated for a period of time and by letter dated March 1, 2012 advised Mr. Hill that while he recognizes the need to demolish the property, he is physically and financially unable to do so. He suggested that the Township accept the deed for the home so that the Township could demolish the structure. The grass is overgrown and there is trash in the yard. Mr. Rushford stated that Mr. Moore was provided notice at his last known mailing address, according to the Allegheny County Assessment office. This notice came back as undeliverable. The property was posted and the public hearing was advertised.

245 Harrison Road (Lot/Block 453-R-200): The property is owned by Judith Kane and John Sholder. The house was built in 1940 and is graded as a C- by the County. The property has been vacant for at least 14 years. The rear two rooms collapsed and were demolished. The home is used for hoarding and storage. It is filled with mold. Taxes have been unpaid since at least 2008. The electric and gas are turned off. Interior walls are now acting as exterior walls and are rotting and deteriorating. The basement is filled with rubbish.

Mr. John Sholder and Mr. Chris Kane, representing his mother, were present. Mr. Sholder stated that the property has only been vacant for about 6 years, not 14. He also stated that while the two rooms in the back collapsed and had to be demolished, it should be noted that the interior walls (which are now exterior) used to be exterior walls, as these two rooms were an addition. However, Mr. Sholder and Mr. Kane agree that the property should be demolished, they are concerned about who will pay the cost of the demolition. Mr. Rushford advised that the cost of the demolition, if and when it occurs, would be borne by the Township. The property will be liened for the cost of that demolition, however, and when the property is sold, the lien will need to be satisfied. Mr. Rushford also advised that the notice of the hearing which was sent by his office was returned as unclaimed. Mr. Kane stated that they did receive the card from the post office regarding the mail, but since no one has a car, they were unable to retrieve the mail from the post office.

255 Harrison Road (Lot/Block 453-R-235): This property is owned by Frank Spena, who declared bankruptcy several years ago. The house was built in 1935 and has a D grade from the County. This wood frame, one story home was stripped for remodeling and never completed. It is lacking at least one wall and a ceiling covering. The studs and joists are fully exposed. The gas meter is gone. The house is vacant and has been since at least 2007. Taxes have not been paid since at least 2009. Mr. Spena has received numerous notices regarding high grass and weeds. Mr. Boyd stated that he has seen the interior of this property and there are no floors either. They are gravel. Mr. Rushford stated that notice was sent to the last known address for Mr. Spena and that notice was returned as undeliverable. The property was posted and the hearing was advertised.

(155-12) MOVED BOYD-COSTA to adjourn, the meeting was adjourned at 6:21 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

PUBLIC HEARING, MONDAY, JULY 9, 2012

The Public Hearing of Monday, July 9, 2012 was brought to order at 6:30PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli Ms. Criner
Mr. Costa Mr. Wilson

Mr. Boyd was absent

Mrs. Bradley stated that the purpose of the Public Hearing was to hear recommendations from the Wilkins Township Planning Commission and public comments on an application for Conditional Use for Building #1 at Penn Center East – 201 Penn Center Boulevard, Lot/Block 542-K-15. The application is for the lease of the 2nd floor of Building #1 to STREAM Academy, a cyber charter school, for the purpose of operating a private school.

Present on behalf of STREAM were: Attorney Kevin McKeegan of the law firm of Meyer, Unkovic and Scott; Mr. Larry Gumberg, LG Realty Associates; Mr. Barry Layton, Manager, Penn Center East and Mr. David Martin, Principal, STREAM Academy.

By memorandum dated June 14, 2012, the Wilkins Township Planning Commission advised that it met on June 13th and heard the request for the Conditional Use presented on behalf of STREAM. STREAM is now interested in occupying the second floor of Building #1. The Academy had formerly applied for and received conditional use approval to locate in Building #6 of Penn Center. However, the administrators have determined that it would be in their best interest to locate in Building #1. The second floor of Building #1 was previously occupied by Phoenix University and it is therefore already arranged in classroom style and more conducive to the current operation of STREAM Academy.

The Planning Commission recommended that the Board of Commissioners approve the Conditional Use Application, however the commission is concerned about the drop-off and pick-up of students because as currently anticipated, this will occur within an active lane of the public roadway. Therefore, the Planning Commission recommends that the Board approve the application contingent upon: 1) The Chief of Police meeting with and determining an appropriate traffic pattern/method for student drop off and pick up; and 2) that the school be required to follow those recommendations and upon review by the Chief after the beginning of the school year, that the Chief advise of the need to revise that methodology, and that the Chief report his findings back to the Planning Commission within 2 months or less of the start of the new school year.

Chief Krancic met with the school administrators and management from Penn Center. The Chief, by memorandum dated June 26th approved the plan as outlined by the Academy. Parents and students will be instructed to use the Rodi Road entrance to Penn Center Boulevard when travelling east on Route 22 and will be instructed to use the Kingston Drive entrance to Penn Center when traveling west on Route 22. In this manner, all students will be within the closest lane of traffic when entering and exiting vehicles in front of the school. For parents and/or students who use the Penn Center Boulevard access, they will be instructed to park across the street from the school and walk their children across-within a dedicated crosswalk and with the assistance of school administrators who will be present at all times during loading and unloading of students.

Mr. McKeegan agreed that the new space will be more conducive to STREAM's current operation. He stated that there is a total of 61,000 Square Feet of office space available in Building #1, which requires a total of 103 parking spaces. There are currently 213 parking spaces assigned to Building #1. Mr. McKeegan outlined the agreement that the administrators from the school and the principals from Penn Center came to with Chief Krancic for loading and unloading students. There will be continual monitoring of this situation and if there is a need to modify the procedure, the administrators from STREAM will work it out with the Chief. There is security provided for this space. The second floor will be completely segregated from other building tenants and key access will be required to enter.

PUBLIC COMMENTS:

None.

COMMISSIONERS' COMMENTS:

Mr. Wilson questioned whether or not Penn Center management will be painting a crosswalk for the students. Mr. Layton stated that the Township tarred and chipped the road and it is his understanding that the Township will be providing striping as necessary in the near future.

Mrs. Martinelli asked whether STREAM would use markers like TELI has for students who are required to cross Penn Center Boulevard. Mr. Layton said that they would work on that, however, those markers are routinely run over by trucks. Mrs. Martinelli also asked how much moving into this smaller space will limit the growth of STREAM. Mr. Martin responded that initially, they do not see that as a problem, but they are planning to grow into Building #6 within the next 14 months.

Mrs. Criner asked how many students make up the current population and how many students would be attending the school on any one day. Mr. McKeegan stated that there are about 600 students and there would be approximately 200 students attending at any one time.

The meeting was adjourned at 6:44 PM.

Respectfully submitted,

Rebecca Bradley

Ms. Thelma Landy of 1444 Laurel Drive questioned whether or not the rumors that she keeps hearing about Walmart locating in the Sears building are accurate.

Mr. Russell Hall of 114 Quarry Street advised the Board that one of the no parking signs on the dead end of Quarry had been knocked down by a salt truck over the winter and not replaced, which has led to problems with vehicles parking on that side of the street.

Mr. Costa Mr. Wilson

(197-12) MOVED WILSON-COSTA to approve the minutes of the Public Hearing of July 9 2012, and the minutes of the Regular Meeting of Monday, July 9, 2012 as presented. The motion was adopted by a 4-1 vote with Mr. Boyd abstaining.

Mrs. Martinelli read correspondence submitted by Sharon Polski of 798 Greensburg Pike thanking Officer Lehew for his diligence in recovering her laptop which was stolen from her home and requesting that the Board of Commissioners consider installing a street light in front of her home.

Citizens' Comments:

Chardae Seligsohn of 106 Hart Drive requested that the Board of Commissioners consider waiving the fee for her application for a variance before the Zoning Hearing Board. Ms. Seligsohn's three year old son, Billy, has autism and in order to protect him, it is necessary for his parents to install a 6' high fence around the entire property. Ms. Seligsohn stated that her son has twice recently slipped past his caregivers and was found once in the neighbor's garage and once was almost hit by a car on the street. The property next to 106 Hart has a pool, which is very concerning to the family. The fence will provide a measure of protection necessary for her child.

(198-12) Moved WILSON to waive the fee for Ms. Seligsohn to apply for a variance before the Zoning Hearing Board. Motion dies for a lack of a second.

(199-12) Moved MARTINELLI-COSTA to reduce the fee for a variance hearing to $200 for Ms. Seligsohn due to the medical necessity presented at the meeting to be used for the purpose of requesting an increase in the permitted height of a fence at the September, 2012 meeting of the Zoning Hearing Board. The motion was adopted with a 3-2 vote with Mr. Wilson and Ms. Criner abstaining.

Mr. Steve Friedman of 1481 Laurel Drive questioned the Board about Walmart and the process that would need to be followed if Walmart were interested in locating in Wilkins Township. Mr. Friedman also expressed his unequivocal opposition to the location of a Walmart in the Township.

(206-12) MOVED COSTA-BOYD to accept the recommendation of the Engineer to pay W.A. Petrakis $32,502.41 representing Payroll Estimate #2 for work substantially complete on the 2012 Dowling Avenue Sanitary Sewer Replacement Project.

Motions 202-12 to 210-12 inclusive were adopted by unanimous roll call vote of all present.

Commissioners' Comments:

Mr. Boyd stated that there have been several local accidents recently – two which were fatal – involving a vehicle and an individual on a bicycle. He asked residents to pay attention to and obey the new law which requires that motorists give at least four feet of clearance to bicyclists. If it is not possible to safely provide four feet due to on-coming traffic, motorists are asked to wait to pass until they are able to provide that clearance. Mr. Boyd also commented on the many different recycling opportunities that exist. He mentioned specifically a pay-as-you throw program in Cranberry, where residents are required to pay for refuse removal in an attempt to increase recycling.

Mr. Costa commended Joy Voeltzel and the Recreation Advisory Board for their outstanding job at the Summer Festival.

Mr. Wilson stated that the remainder of Roland Road will be paved next year. He's received several questions on why the Township did not pave the whole road. The Township did not have sufficient funding to do so. The cost of the area paved this year was just shy of $100,000.

Mrs. Martinelli stated that she was happy that the Recreation Advisory Board did such and outstanding job.

(211-12) MOVED WILSON-BOYD to adjourn. The meeting adjourned at 8:25 PM. The motion was adopted by unanimous roll call vote of all present.

Respectfully submitted,

Rebecca Bradley
Secretary

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

BUDGET MEETING, MONDAY, OCTOBER 8, 2012

The Budget Meeting of Monday, October 8, 2012 was brought to order at 6:00PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli Ms. Criner
Mr. Costa Mr. Wilson Mr. Boyd

Mrs. Bradley presented the first draft of the 2013 Budget for the following funds: General, Capital Reserve, Combined Sewer, Emergency Contingency, Emergency Management, Industrial Development Authority, Liquid Fuels, Police Pension, Retired Members Death Benefit and WT Disaster Relief.

General Fund:

Revenues and expenditures are balanced at $4,832.500. It is anticipated that a carry forward balance of approximately $213,000 will be applied to next year's revenues along with the remaining funds in the Emergency Contingency Fund ($450,000). It is not currently anticipated that there will be an increase in millage.

Mrs. Bradley expressed concern over what assessed value the Township will be required to use for 2013. Allegheny County sent out certified assessed rolls for 2013 back in March of 2012. These rolls increased the assessed value of property (cumulative) in Wilkins Township by 31% over the certified assessed value for 2012. If the Township is required to use these certified values, then the Board will need to decrease the millage rate to be in compliance with anti-windfall provisions. These provisions require the township to reap no more than a 5% benefit from the assessment. Presently, the Real Estate Tax revenue included in the 2013 proposed budget is comprised of the 2012 total budgeted number plus 5%. Once the manager is advised of the appropriate data to utilize, the value and millage rate will be recalculated. Mrs. Bradley also expressed concern regarding the amount of earned income tax that has been collected to date. As of the beginning of October, total collections exceeded $625,000, which is more than the Township has ever received in any one fiscal year, let alone in a nine month period. Because of the change in the law and the change in collectors, it is possible that the increase in collection reflects an accurate accounting of funds due and remitted to the township. However, Mrs. Bradley has contacted Keystone and requested that they review the census of Township residents to ensure that the Township is not receiving funds due to other municipalities.

The General Fund budget does not project an increase in wages. The Collective Bargaining Agreement between the Township and the Maintenance Employees (non-uniform) Association calls for a 0% increase in 2013. The Township and the Wage Policy Committee (police) are currently participating in an arbitration to determine the level of wage increase, if any, for 2013. The 2013 budget also does not call for an increase in health care rates. The Township received a preliminary rate notice from Municipal Employers Insurance Trust (MEIT) that indicates a decrease in healthcare premiums from 2012 to 2013 of -0.2%. It should be noted that the Township and the Maintenance Employees Association are awaiting the results of interest arbitration relative to the parity provisions of the Collective Bargaining Agreement and the health insurance plan awarded by the Police arbitrator. The Township has not yet received renewal rates for the package policies or workers compensation and therefore, these rates are preliminarily estimated to increase by 10%. The General Fund includes the purchase of one Ford Interceptor 4x4 for the police department along with one new in-car video recorder. The budget also provides for the purchase of a new Case Backhoe to replace the existing which has

reached the end of its useful life. This purchase will be aided by the use of grant funds from the DEP.

Capital Reserve Fund:

Currently, revenues and expenses are balanced at $2,500. This fund has been depleted through the years. The remaining funds will be used to satisfy assessment appeals for years prior to 2013. Depending on the certified assessed value to be used by the Township for 2013, additional funds may be transferred to the Capital Reserve Fund to aid in refunds for 2013 as well.

Combined Sewer Fund:

The Township has not yet received notice from ALCOSAN relative to the required 2013 Budget Requirement (i.e., the amount of funding that is required to be budgeted for expenses). That requirement letter is usually received the first week of November and may require substantial modification to this budget. However, at this time, the Township is projecting a carry forward balance of $250,000. Projects scheduled for next year include the next phase of the Dowling Avenue Sanitary Sewer Replacement, the completion of a CO&A mandated Feasibility Study and some spot repairs. The budget is currently balanced at $1,312,200.

Emergency Contingency Fund:

The majority of funds remaining in this account will be utilized to balance the General Fund Budget. Additionally, the funds remaining in the Emergency Management Fund will be transferred to this Fund and the Emergency Management Fund, which was slated to be closed in 2012, will be closed in 2013. The transferred funds, estimated to be $29,000, will be placed in the Contingency Fund to aid in the event of unforeseen losses. The Emergency Contingency Fund is balanced at $479,100.

Emergency Management Fund:

As noted in the previous section, the Emergency Management Fund, which was to be closed in 2012 by a transfer to the General Fund, will remain open into 2013. However, these funds will then be transferred to the Emergency Contingency Fund. This fund is currently balanced at $29,000.

Industrial Development Authority/IDA Fund:

This past year, the Public Works Department paved the Community Center parking lot and placed bike racks and new grills in the three parks. The IDA came through with a $15,000 donation for that project. For next year, assuming an additional donation, Mrs. Bradley suggested working on the plan that was prepared for Lions Park. The budget for 2013, therefore, is balanced at $57,950 with all expenditures geared toward park improvements.

Liquid Fuels Fund:

The Township received notice from the Commonwealth that the allocation for 2013 will amount to approximately $129,767.11. It is anticipated that this number will increase slightly for the addition of Vineseian Place to the list of Township streets. These funds will be used to offset street lighting and public works wages for roadwork. The budget is balanced at $130,000.

Police Pension Plan:

The Township is required to contribute a minimum of $342,364 to the Police Pension Plan for 2013. It is anticipated that the Township will receive approximately $105,000 in State Aid and employees will contribute $48,000. Therefore the budget is balanced at $392,000, with all funds transferring to the Police Pension Account held with PNC.

Retired Members Death Benefits (RMDB):

This fund is currently balanced at $112,150. Mrs. Bradley shared with the Board a proposal to eliminate the annual contribution of $8,050 to this account by insuring active employees for roughly $4,000 per year and just using the balance of this fund to pay for existing retirees. This will be explored further before the next Board meeting.

Disaster Relief Fund:

This fund contains $1,990 in fund balance to be used to aid in disasters, such as floods.

The meeting was adjourned at 6:45 PM.

Rebecca Bradley

The Wilkins Township Recreational Advisory Board submitted correspondence informing the Board that the inaugural farmers' market held on Wednesday, June 20th was a huge success and to ask permission to hold the 2013 Farmers' Market from Wednesday, June 12th to Wednesday, October 23rd.

(243-12) MOVED WILSON-COSTA to grant permission to the Recreational Advisory Board and Farmers' Market Committee to hold their annual Farmers' Market from Wednesday June 12, 2013 through Wednesday October 23, 2013. The motion was adopted by unanimous roll call vote.

Citizens' Comments:

Ms. Chardae Seligsohn of 106 Hart Drive stated that it is recorded in the August 13, 2012 Meeting Minutes that she requested a 6' fence around her home, but she only requested a 4' fence. Ms. Seligsohn also requests a reimbursement of the Variance Application Fee, at the recommendation of the Zoning Hearing Board due to unnecessary application.

Mr. Bob Wingrove of 338 Braddsley stated his concern over the rising deer population and asked if the Township could check into the possibility of thinning the deer herd.

Ms. Cheryl Stanton of 103 Peffer Road listed her concerns over Walmart moving into the area. Ms. Stanton mentioned that traffic would be a nightmare, the crime rate would rise, Community Days would cease causing a loss of $1000 a year for the Woman's Club, and home values would decrease.

Ms. Beth Humberston of 118 Frazier Drive was under the impression that Walmart Representatives would be at the meeting. Ms. Humberston is opposed to Walmart moving into the area stating that it would cause a higher traffic flow, would ruin Shop-N-Save and asked if any of the current owners of establishments in Penn Center have been contacted for input. Walmart will not attract new homeowners.

Ms. Thelma Landay of 1444 Laurel Drive is opposed to Walmart coming into the area saying that crime would increase, it would ruin the community and voiced her concern of enough parking for existing businesses and for the traffic and congestion that the residents of Laurel Village and Brentmoore Apartments will have to deal with.

Ms. Debbie Friedman of 1481 Laurel Drive is vehemently opposed to Walmart coming to the Sears location. Ms. Friedman is concerned about the increase in traffic, noise and light pollution, decrease in property value, and having to hire additional police. Ms. Friedman questioned to whom petitions could be sent.

Mr. Charles Ranii of 1437 Jefferson Heights Road stated that he is opposed to Walmart coming into the area because it would cause a traffic gridlock and decrease property values.

Ms. Jan McMahon of 256 Kingston Drive would like to go on record as being vehemently opposed to Walmart coming to Penn Center because the crime rate and traffic would increase.

Mr. Mark Dappolonia of 438 Dunbar Drive stated that he is opposed to the Walmart coming into the area; questioned the benefit to Wilkins and asked if Wilkins is able to stop it from happening.

Mr. N. Leonard Hill of 405 Kingston Drive advised the Board that due to a lack of space and a public restroom, representatives of VFC #4 spoke with the Bureau of Elections asking that they move the polling location from VFC #4 to the Bricklayers Union Building. Mr. Hill also stated that the Halloween Parade has been cancelled due to a lack of available volunteers at 5:00 pm to handle the intersections.

Ms. Monica Ranii of 1437 Jefferson Heights Road is opposed to Walmart coming to Penn Center. She fears there will be an increase in crime and a decrease in property value.

Ms. Gloria McNavish of 125 Queeston Drive is opposed to Walmart coming into the area and stated that if Walmart does locate there, the Township will need to hire more Police Officers.

Mr. Shawn Calloway of 17 Thorncrest Drive is opposed to Walmart coming to the area and questioned what the zoning requirements are and what, if anything, the Township can do if Walmart meets all the legal requirements.

(244-12) MOVED WILSON-COSTA to send VFC #4 a letter thanking them for the many years of providing a Halloween Parade for the residents of Eastmont. The motion was adopted by unanimous roll call vote.

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

BUDGET MEETING, MONDAY, OCTOBER 29, 2012

The Budget Meeting of Monday, October 29, 2012 was brought to order at 6:00PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli Ms. Criner
Mr. Costa Mr. Wilson Mr. Boyd

Mrs. Bradley reviewed changes that were made to the General Fund Budget since the last meeting. It should be noted that as of this time, there are no changes recommended for any of the other funds of the Township. For the General Fund, the following issues still need to be resolved: 1) the first reading of the budget is less than a month away and we still do not know what Assessed values to use to establish a millage rate; 2) the Township has not yet received rates for Workers Compensation, Property, Liability and the blanket policies and 3) the Collective Bargaining Unit Agreement for the Wage Policy Committee (Police) is still open for the issues of healthcare and wages. There is another executive session scheduled on November 20th at that time, we are hopeful that an agreement regarding wages will be made. At this time, the budget does not reflect any increases in wages for any department.

The General Fund remains balanced. Some changes and items of note discussed included:

1) The projected number for deed transfer tax for 2012 was increased by $9,000 to account for the sale of 3484-3500 William Penn Highway ($1,900,000). This property sold in October, so the Township anticipates receiving the funds in November.

2) The projected number for earned income tax collections (2012) was increased again based upon current collections.

3) At the last meeting, Mrs. Bradley advised that she believed that the law had changed regarding the allocation of State Police fines. The law did change, but the change does not affect the Township. State police fines of $5,000 were added to the 2013 budget.

4) The line item 392.002, Transfer from Emergency Contingency Fund, was decreased by $34,200. Due to changes in the projections for 2012

5) The Township was notified that unemployment compensation tax would increase from 1.1% of the first $8,000 of employee earnings to 1.45% of the first $8,500 of employee earnings. The change in rate is through U-Comp and Mrs. Bradley is currently talking to PSAB to determine whether or not we can get a better rate. The change in the amount of compensation that is taxable is a change in the state law (Act 60). With the passage of this law, the wage base will increase each year beginning of 2013 until it reaches a base of $10,000 in 2018. Changes were made to all of the unemployment compensation accounts in the budget (expense accounts ending in 162).

Additional relatively small adjustments were made to the budget, but it remains balanced with $4,833,200 in Revenues and Expenditures.

The next budget meeting will be held on November 12, 2012.

The meeting adjourned at 6:30 PM.

Respectfully submitted,

Rebecca Bradley
Secretary

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

BUDGET MEETING, MONDAY, NOVEMBER 12, 2012

The Budget Meeting of Monday, November 12, 2012 was brought to order at 6:00PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli Ms. Criner
Mr. Costa Mr. Wilson Mr. Boyd

Mrs. Bradley discussed final changes to the 2013 General Fund Budget with the Board of Commissioners. At this point, it was necessary to calculate a millage rate to be used for the Budget Ordinance. In doing so, Mrs. Bradley first calculated the 2012 Net Real Estate Tax to be $1,816,410. Based upon the anti-wind fall statute (16 P.S. §4980, as amended), the Township cannot collect more than 5% above the 2012 net real estate figure, or no more than (1,816,410 x 1.05) $1,907,231. The Township's 2013 Budget calls for Real Estate Tax in the amount of $1,864,000. In determining the millage rate, it is necessary to estimate the reduction in the 2013 assessed valuation due to successful appeals. Based upon what the Township has received back thus far, the average decrease in assessed value is 10%. The Township's 2013 Assessed Value, as provided in March of 2012 is $444,665,470. This figure has been reduced by $1,553,800 in successful appeals and is now $443,111,670. Based upon a 10% reduction in assessed value, it is anticipated that the new assessed value will be ($443,111,670 x 90%) $398,800,503. Therefore, in determining the millage, the Budgeted Real Estate Tax is divided by the anticipated assessed value ($1,864,000/$398,800,503) resulting in a millage rate of .04674. Because these numbers represent best estimates at this point, the Board should be aware that the line-item for Current Year Real Estate Tax Refunds (491.000) was increased from $5,000 to $63,900 and that it may be necessary to establish an escrow account to hold funds received in addition to those anticipated. If that occurs, then the Board will need to discuss either reimbursement or tax credits.

Other items of note were also discussed. Mrs. Bradley stated that it appears that VFC #4 is not going to be successful in purchasing fire apparatus in 2012. Therefore, and in anticipation of that, the funds for a loan $170,500 (line number 342.200), as well as the payment of principal and interest for two periods (estimated at $41,500 per period) $83,000 (line number 474.200) and the payment of the proceeds of the loan to VFC #4 ($170,500 of line number 411.524) were all moved from 2012 into the 2013 budget. Local Service Tax (LST) at line number 310.500 was reduced by $15,000 in the 2013 budget, based upon the history of that account. The Township will carry over a total of $529,500 from 2012 to 2013 and will use an additional $415,800 in Emergency Contingency fund balance. If Earned Income Tax continues to come in at the current pace, fewer funds will need to be used from the Contingency Account. Finally, it should be noted that the Township still does not have a final ruling from the arbitrator on wages for the police department for 2013 and still does not have premiums for workers compensation and the package policies which include general liability, automobile, and property insurance.

The only other fund that needed to be adjusted was the Emergency Contingency Fund to account for $34,200 in funds that will not be transferred to the General Fund. If the Township is required to establish an escrow account for real estate tax purposes, it will be established in this account. Also, if the Township is required to refund more than what is included in the General Fund Budget Line-item 491.000, it will be drawn from the Emergency Contingency Fund.

Mr. Boyd asked several questions regarding the calculation of the millage rate and the procedure for the 2013 assessed valuation.

Mrs. Criner questioned whether or not the Township would see a reduction in premiums due to the change in agents from Seubert to Babb.

The meeting adjourned at 6:18 PM.

Respectfully submitted,

Rebecca Bradley
Secretary

WILKINS TOWNSHIP BOARD OF COMMISSIONERS

PUBLIC HEARING, MONDAY, NOVEMBER 12 2012

The Public Hearing of Monday, November 12, 2012 was brought to order at 6:30PM by President Sylvia J. Martinelli. A quorum was present as follows:

Mrs. Martinelli Ms. Criner
Mr. Costa Mr. Boyd Mr. Wilson

Mrs. Bradley stated that the purpose of the Public Hearing was to hear public comment on a proposed ordinance which is advertised for adoption at the regular meeting this evening. The ordinance amends the Township's Subdivision and Land Development Ordinance by changing the requirements for Stormwater Management to be in compliance with state and federal regulations.

Mr. Arnold explained the highlights of the new legislation. He stated that the ordinance includes updated references for modeling and rainfall data and makes it tougher to get an exemption from the requirements of stormwater management. When the Township receives its new MS4 Permit in March of 2013, it will need to show that it is in compliance with the new requirements. While the ordinance is more stringent for development in excess of one acre, there are requirements for small developments as well.

PUBLIC COMMENTS:

Mrs. Dorothy Musial of 313 Frazier Drive questioned whether the Board had considered requiring developers to include green construction in their design plans as a way to alleviate stormwater. Mr. Wilson stated that the Board of Commissioners recently heard a request from the Planning Commission to begin reviewing incentives for green construction, which they approved. He advised Ms. Musial that that should be forthcoming in the next several months.

The meeting was adjourned at 6:41 PM.

Respectfully submitted,

Rebecca Bradley

Commissioners' Comments:

Mr. Wilson thanked Mr. Palmer for being the only other person other than himself to complain about the PA system in the auditorium and wished everyone a Happy Holiday.

Mr. Boyd questioned if the recycling grant came through. Mrs. Bradley informed him that the funding received recently is the reward money that the Township receives for requiring residents and commercial establishments to recycle and stated that the Township should be hearing about the grant in the near future.

Ms. Criner wished everyone a Happy Holiday and stated that a gentleman at the corner of Kingston and Delaney has a sign up in his yard advertising the Planning Commission Meeting for December 19 2012. Ms. Criner went to the gentleman's door and explained to him that the meeting has been cancelled, but he did not believe her and will not change or remove his sign. Perhaps it would be a good idea to post signs on the building in case residents show up on the 19th.

Mrs. Martinelli wished everyone a Happy Holiday; to enjoy and be safe.

(304-12) MOVED WILSON-COSTA to adjourn. The meeting adjourned at 8:06 PM. The motion was adopted by unanimous roll call vote.

Respectfully submitted,

Rebecca Bradley
