Introductory Section

September 29, 2016

To the Citizens of the City of Winfield, Kansas
Honorable Mayor and City Commissioners

This document is the Comprehensive Annual Financial Report (CAFR) of the City of Winfield, Kansas for the year ended December 31, 2015. This report was prepared by the City's finance department. Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures, rests with the management of the City. We believe the report, as presented, is accurate in all material respects. We also believe it is presented in a manner designed to set forth the financial position and results of operations of the City as measured by the financial activity of its various funds. Finally, we believe that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

The Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial, and Statistical. The introductory section includes a description of the City, including services provided, and explanation of the City's accounting system and budgetary controls, and a brief discussion of the city's economic condition and outlook. The City's organizational chart is also included to assist the reader in understanding the structure of the City. The financial section includes the independent auditor's report, Management's Discussion & Analysis, Government-wide financial statements, fund financial statements, notes to the financial statements, and individual and combining statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The reader is specifically directed to Management's Discussion and Analysis (MD&A) which immediately follows the independent auditor's report. MD&A provides a narrative explanation and overview of significant features and trends reflected by data in the financial statements.

Management of the City is responsible for establishing and maintaining an internal control structure to ensure that the assets of the City are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The cost of the internal controls should not outweigh their benefits. Thus, the City of Winfield's internal controls are designed to provide reasonable, rather than absolute, assurance that the financial statements are free from material misstatement.

Kansas statute 75-1122 requires an annual audit of all funds of the City by independent certified public accountants. The firm of Jarrett and Norton CPAs, LLC issued an unqualified opinion on the City of Winfield's financial statements for the year ended December 31, 2015. The independent auditor's report is located on page A-1 in the Financial Section of this report.

Profile of the Government

The City of Winfield, incorporated in 1873, has a population of 12,204 and has an incorporated area of 12.35 square miles. Winfield is located in south central Kansas, less than an hour away from Wichita, and two hours from Tulsa and Oklahoma City. Winfield serves as the county seat for Cowley County, population approximately 35,963.

The City is unique in providing a full range of municipal utility services to its citizens, including electric and gas utilities, water, wastewater, and sanitation services. Other municipal services include police and fire protection, ambulance services, construction and maintenance of streets, drainage facilities and other infrastructure, recreation and cultural activities, a municipal golf course, community and industrial development, planning and zoning, building inspection, cemetery operations and maintenance, general administration, and internal support services. The City provides single-stream recycling to its citizens, along with composting site facilities, available at no charge to area residents. In addition, library services and low-income housing are provided by component units of the City. Additional information on the component units can be found in Note 1.A. in the notes to the financial statements.

The City of Winfield operates under a Commission/Manager form of government. One member of the three-member commission is elected annually by the Commission to act as Mayor. The City Manager is appointed by the City Commission and is responsible to them for the management of all City employees and administration of all City affairs. Regular city elections are held in odd years. The person receiving the largest number of votes is elected to a four-year term and the person receiving the second largest number of votes is elected to a two-year term.

Expenditures are authorized by a budget approved by the City Commission as required by State statute. The State statute level of budgetary control (i.e. the level at which expenditures cannot legally exceed the appropriated amount) is established at an individual fund level, but is monitored by department within each fund. The finance department continually reviews and approves all significant deviations from budget authorizations. The Kansas cash basis and budget laws requires cash be on hand before an expenditure is authorized, that all expenditures be budgeted (unless specifically exempted by statute), and that the budget not exceed anticipated revenues, including carry forward balances. Budget-to-actual comparisons are provided in this report for each individual fund in which an adopted annual operating budget is required by Kansas statute.

Economic Condition and Outlook

The intersection of U.S. Highway 160 and U.S. 77 is located in the center of Winfield. The cities of Arkansas City and Winfield jointly own Strother Field Airport and Industrial Park, located less than seven miles from Winfield. Many of the county area's employers have work forces consisting of residents of both the City of Winfield and the City of Arkansas City, located twelve miles to the south of Winfield. Manufacturing and services are the largest sectors of employment in Cowley County of which include three Fortune 500 companies, Rubbermaid, WestRock, and GE Aviation. The GE aviation plant has announced it will begin making engines, specifically the Passport 20 engine. The Winfield location was chosen from 80 other potential GE sites for producing the engine. Building these engines in Winfield will not only create jobs, it will stabilize employment. GE, Strother Field location, will invest approximately \$7 million in machinery and equipment that will enable the Strother field plant to assemble, maintain, repair and overhaul the new engine.

Southwestern College, a private liberal arts four year institution established in 1885, has an estimated enrollment of 1,323 students. Southwestern has made major infrastructure improvements in recent years, including a \$4.8 million renovation of the Richard L. Jantz football stadium and the Richardson Performing Arts Auditorium.

2015 sales tax receipts still had a slight increase of .355% over the 2015 sales tax collections which does not include the increase in sales tax rate that went into effect July of 2014. The City of Winfield approved the imposition of a general purpose four-tenths of one percent (0.40%) City-wide retailers' sales tax for renovations to finance costs of certain library, street and other capital improvements throughout the City.

Real estate property assessed valuation increased 3.7% from 2014 to 2015, reflecting steady property values. The City issued 21 new dwelling unit permits, and a total of \$11,466,455 of building permits in 2015. This is a slight decrease to the 2014 statistics of dwelling permits, and an increase in building permits issued (overall) of \$2,186,060. Winfield was not shielded from the struggling national economy in late 2008 and through 2009. Mid 2009 unemployment peaked at 8.2%, compared to the January 2008 rate of 4.0%. The years 2010 through 2015 have shown gradual turnaround. At the end of 2015, Cowley County unemployment was at 4.5%, up very slightly from the 2014 unemployment rate of 4.4%. The

increases in sales tax, the gradual increase in permits issued, decreased unemployment rate and the upcoming industrial developments indicate an improving economic environment.

City Business and Financial Planning

The City annually revises the current year's budget during preparation of the upcoming year budget, to provide internal management with better oversight. Additionally, the City maintains a five year projected budget for its Capital Improvement Fund, for internal purposes.

The City manages its finances with a long term perspective. Reacting to the ongoing cutbacks in state funding, the City increased fees for many of its fee-based services. In 2014, the City increased water and electric service rates which will help cover debt for the maintenance performed on the water tower and will assist in building a fund balance in the water fund for future water projects. The electric utility increase comes after numerous years of increasing electric costs and no corresponding increase to base rates. The City has resisted tax increases in the past several years to cover ongoing services, instead looking at long term efficiencies and alternatives. The City had been able to sustain a level mill levy in dollars for a decade, though actual levies fluctuated slightly with changes in assessed valuation. The City monitors its utility funds' cash balances and future capital needs. Rate increases, when necessary, are designed to cover long term needs of the utility.

The City had numerous large capital projects in the past fifteen years, that have provided long term 'quality of life' enhancements, and maintained necessary city infrastructure. Years 2009-2012 were viewed as stabilization years as we paid down bonded indebtedness. The City-wide debt load has dropped from approximately \$28.6 million at the end of 2004 to \$21.9 million at the end of 2015. In October of 2015, the City refinanced existing debt and temporary notes into general obligation debt. We continue to evaluate our financial goals on the notion of an improving economy.

The City's insurance and self-insurance programs have been funded and administered as part of the City's Risk management. Funds were maintained in a reserve fund as authorized in Kansas Statutes. Additionally, the City maintains insurance policies and bonds as detailed in the Additional Information Section of this report. The City transitioned to full workers' compensation coverage in late 2011, through the Kansas Eastern Region Insurance Trust group (KERIT) but continues to fund the Risk Management reserve to fulfill liabilities prior to transitioning to KERIT.

Cash Management Policies and Practices

The City maintains its cash and investments under a pooled concept. This mechanism enhances the City's investment possibilities. The City requests competitive bids on all investments in accordance with K.S.A. 12-1675. Idle funds are used to purchase certificates of deposit or other allowable investments, with maturities scheduled to meet anticipated cash flow requirements. During 2015, an average of \$8.65 million was invested for an average of 229 days, at an average rate of 0.567%.

Major Initiatives

- City of Winfield continues to maintain its single family home builds., but still surpassing 2008 numbers.
- The City began collecting sales tax from an increase for a 7 year period for library renovations and street/infrastructure improvements. Voters approved an additional .4% sales tax increase in February 2014, with 81% of those voting in favor of the increase. The increase went into effect July 1, 2014. The library portion of \$900,000 was reached in March of 2016. Going forward, all collections will be used for street and ADA projects.
- The Island Park Playground located in north Winfield, Kansas was destroyed by fire in March of 2013. Damage sustained to the playground was extensive, most of which was insured by EMC Insurance Co. The City of Winfield, members of the Playground Advisory Board, Winfield Rotarians, and the community as a whole regrouped for the second time in five years to determine how to rebuild the family-friendly attraction. It was decided that the playground would be rebuilt. The playground was re-opened in April of 2014.

- In March 2013, the City entered into an agreement with the Kansas Department of Transportation (KDOT) authorizing a Geometric improvement project. This project began in 2014 and was financed with general obligation temporary notes in 2014, and then re-financed into general obligation debt in 2015. The State of Kansas' participation in the cost of preliminary engineering, construction and construction engineering will be 90% of total actual costs. This project completed in early 2015.
- The City entered into an agreement with the Kansas Department of Transportation (KDOT) authorizing a KLINK resurfacing improvement project on US-160 from Mill Street to Main Street. The State of Kansas' participation in the cost of construction and construction engineering will be 50%, This project was completed in early 2015.
- The Kansas Sampler Foundation announced that Winfield will be the host for the 2016-2017 Kansas Sample Festival. The event is designed to provide the public a sample of what there is to see, do, hear, taste, buy, and learn in Kansas. The statewide showcase is the only one of its kind in the United States and is always held the first full weekend in May.
- Standard & Poor's Rating Services affirmed its 'A+' long-term rating on Winfield, Kansas' General Obligation (GO) bonds, based on improved general fund balance levels, strong management team, and strong liquidity.
- The City continued its sidewalk and other infrastructure improvements, related to ADA compliance.

Certificate of Achievement and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Winfield for its comprehensive annual financial report for the year ended December 31, 2014. This was the fourteenth consecutive year that the City has received this prestigious award.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the assistance of numerous persons both in and out of local government. The firm of Jarrett & Norton CPA's, LLC provided independent audit services. Specific appreciation is expressed to the dedicated staff of the City accounting department. We would also like to thank members of the other City departments who assisted and contributed to this report. Finally, preparation of this report would not be possible without the support of the City Commission. We express special appreciation to them for their leadership in planning and conducting the financial operations of the City in a professional, responsible and progressive manner in the best interests of the residents of Winfield.

Respectfully submitted,

 Warren Porter

INDEPENDENT AUDITOR'S REPORT

September 29, 2016

To the City Manager, and City Council
City of Winfield
Winfield, Kansas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Winfield, Kansas, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

We did not audit the financial statements of the Winfield Public Library, a discretely presented component unit, which represents 58 percent, 59 percent, and 79 percent, of the assets, respectively, of the discretely presented Component Units, net, net position of the discretely presented Component Units, and revenues of the discretely presented component units.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statement of Winfield Public Library, a discretely presented component unit, which represent 58 percent, 59 percent, and 79 percent, respectively, of the assets, net position, and revenues of the discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for Winfield Public Library, is based solely on the report of those auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and report of other auditors, the financial statements referred to above present fairly, in all material aspects, the respective financial position of the governmental activities, the business-type activities, the aggregate

discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Winfield, Kansas as of December 31, 2015, and the respective changes in financial position and where applicable, cash flows thereof, and the respective budgetary comparison of the general fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Notes 1 and 23 to the financial statements, in 2015 the City adopted Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No 27* and Governmental Accounting Standards Board Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. Our opinion is not modified with respect to this matter.

Other Matters***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the City of Winfield, Kansas basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section as listed in supplementary information in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the procedures performed as described above, and the report of other auditors, the combining and individual nonmajor fund financial statements are fairly presented, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Jarrett & Norton CPAs, LLC

Winfield, Kansas

Management's Discussion and Analysis

The following discussion and analysis of the City of Winfield's financial performance provides an overview of the City financial activities for the fiscal year ended December 31, 2015. The management discussion and analysis is presented in conjunction with the transmittal letter at the front of this report and the City of Winfield's financial statements, which follow this section.

Financial Highlights for 2015

- Assets and deferred outflows of resources of the City exceeded liabilities and deferred inflows of resources at the close of 2015 by \$63 million. Of this amount, \$4.5 million of unrestricted net position may be used to meet the City's ongoing obligations.
- The City's total net position increased by \$812 thousand, or 1.3 percent, from \$63 million as restated at year-end 2014.
- At year-end 2015, the City's governmental funds reported combined ending fund balances of \$3.9 million, a decrease of \$452 thousand, or 10.3 percent.
- At year-end 2015, the budgetary fund balance for the general fund was \$612 thousand, or 6 percent of the general fund non-GAAP budgetary expenditures.
- The City's total bonded debt, temporary notes, and capital leases decreased by \$2.4 million during 2015 to \$19.5 million.

Overview of the Financial Statements

The Comprehensive Annual Financial Report consists of three sections: Introductory, financial, and statistical. The financial statements include government-wide financial statements, fund financial statements and notes to the financial statements. Supplementary information, provided in addition to the basic financial statements, is located in the sections titled Supplemental information and Statistical Section.

The City presents two kinds of statements, each providing a different snapshot of the City's finances. The reporting focus is on both the City as a whole (government-wide) and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the City's overall financial status. The fund financial statements focus on the individual parts of the City government, reporting the City's operations in more detail than the government-wide statements. Both perspectives allow the user to address relevant questions, broaden the basis of comparison and enhance the City's accountability.

Government-wide Financial Statements

The government-wide statements are prepared using accounting methods similar to those used by private-sector businesses. The *Statement of Net Position* presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position can be monitored to determine whether the City's financial position is improving or deteriorating.

The *Statement of Activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position (current year's revenues and expenses) are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in the statement of activities for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The Statement of Net Position and the Statement of Activities are divided into three types of activities:

- Governmental activities – are principally supported by taxes and intergovernmental revenues. Most of the City's basic services are reported in governmental activities: police, fire & ambulance, public works, streets, and stormwater drainage, cemetery, parks and recreation, health, and general administration.
- Business-type activities – are functions that are intended to recover all or a portion of their costs through user fees and charges. They include these City activities: electric production and distribution, gas distribution, water purification and distribution, refuse collection, wastewater collection and treatment, and the municipal golf course.

- Component units – The Winfield Public Library and the Winfield Public Housing Authority are presented as component units of the City of Winfield. Complete financial statements of those individual component units can be obtained from their respective administrative addresses:

Winfield Public Library
605 College
Winfield, KS 67156

Winfield Housing Authority
1417 Pine Terrace
Winfield, KS 67156

The government-wide financial statements can be found on pages A-13 through A-15 of the audited financial statements.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, used fund accounting to ensure and demonstrate compliance with finance—related legal requirements. The fund financial statements provide more information about the City's individual funds – not the City as a whole. All of the funds of the City of Winfield can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- *Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Governmental fund financial statements focus on cash flows and other financial assets that can be readily converted to cash and are available in the near future to finance the City's programs. The differences between the short-term view of governmental fund statements and the long-term view of the governmental activities on the entity-wide financial statements are provided in reconciliations on pages A-17 and A-19. Primary differences are the impact of accounting for capital assets, their long-term financing, and other long-term obligations.

- The City of Winfield maintained 36 individual governmental funds in 2015. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Capital Improvements Fund, and the Debt Service Fund, all considered to be major funds. Information from the other 33 governmental funds is combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements beginning on page B-1.

The City of Winfield adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund on page A-21 to demonstrate compliance with the appropriated budget.

Proprietary funds, which include enterprise and internal service funds, account for services for which the City charges customers a fee. Enterprise funds account for electric, gas, water, sewer, and refuse utilities, stormwater drainage, and golf course operations. Internal service funds are used to accumulate and allocate costs internally among the City's various functions. The City uses six internal service funds to account for its internal functions: risk management, workers compensation reserve, health insurance, management services, short term disability, and fleet services. Because internal services benefits both the governmental and the business-type functions, the assets and activities of the internal service funds have been split equally between the governmental activities and the business-type activities in the government-wide financial statements.

Proprietary funds report the same types of information as the government-wide financial statements, however in greater detail. The proprietary fund financial statements provide separate information for the Electric, Gas, Water, and Sewer Utilities, all considered to be major funds of the City. The nonmajor funds are consolidated into an aggregated presentation on the proprietary fund financial statements, as are the internal service funds. Individual fund data for proprietary funds (enterprise and internal service funds) begin on C-1 and D-1 of this report.

Fiduciary funds report on activities for which the City is the trustee or fiduciary, and like proprietary funds, present information based on the full accrual basis of accounting. The City's fiduciary funds include the sales tax agency fund, the payroll claims agency fund, the fire insurance proceeds fund, and the flex medical fund. The City is responsible for ensuring that the assets reported in fiduciary funds be used for the intended purposes only. Activities conducted in a fiduciary capacity are excluded from the City's government-wide financial statements because the City is prohibited from using fiduciary assets to finance its operations.

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used. The City has one permanent fund: the Cemetery endowment fund.

Financial Analysis of the City

Net Position of the primary government – Over time, net position can serve as a useful indicator of the City's financial position. Table 1 summarizes net assets of the City of Winfield.

Table 1

**City of Winfield, Kansas
Net Position
As of December 31, 2015
(with comparative totals for December 31, 2014)
(in thousands of dollars)**

Other liabilities	3,002	9,713	3,315	4,630	6,317	14,343
Total liabilities	<u>21,206</u>	<u>15,521</u>	<u>12,575</u>	<u>11,194</u>	<u>33,781</u>	<u>26,715</u>
Deferred Inflows						
Deferred inflows	4,701	3,875	297	-	4,998	3,875
Total deferred inflows	<u>4,701</u>	<u>3,875</u>	<u>297</u>	<u>-</u>	<u>4,998</u>	<u>3,875</u>
Net Position:						
Net investment in capital assets	17,577	16,436	38,571	38,289	56,148	54,725
Restricted	2,425	898	-	-	2,425	898
Unrestricted	(2,176)	6,018	6,656	10,406	4,480	16,424
Total net position	<u>\$ 17,826</u>	<u>\$ 23,352</u>	<u>\$ 45,227</u>	<u>\$ 48,695</u>	<u>\$ 63,053</u>	<u>\$ 72,047</u>

The City's net position increased \$813 thousand in 2015. Approximately 89 percent of the City's net position reflect investment in capital assets (e.g. land, buildings, improvements, equipment), less any outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently the capital assets are not available for future spending. An additional portion of these assets, 4 percent, represents resources that are subject to external restrictions on how they may be spent. The unrestricted portion of total net position is \$4.5, or 7 percent, available to meet the city's ongoing obligations.

Long-term liabilities increased by \$15 million, due to the net pension liability of \$9.6 million, and the payoff of \$8.1 million of temporary notes with long-term general obligation bonds. Unrestricted net position decreased \$11.9 million, primarily because of the net pension liability reflected in 2015 as a long-term liability

Major sources of revenue of the governmental activities continue to be property, sales, and other taxes, as illustrated in the above graph. Property taxes comprised \$4.1 million, or 30 percent of the City's governmental activities 2 revenue. 'Other taxes' includes alcohol beverage, franchise, and transient guest taxes. The electric, gas, water, and refuse funds pay the general fund 'in lieu of' franchise fees, a set percentage of gross revenues, similar to what would be assessed third-party utility companies supplying services to Winfield citizens. These are reflected as transfers in the above chart. Operating grants included primarily public works and public safety operational and maintenance funding through the State of Kansas. Capital grants and contributions include special assessments, contributions, and federal grants revenues.

Sales tax collections in the governmental activities increased \$593 thousand, 21 percent, due to the 2014 mid-year sales tax rate increase of 0.40%, for library and street improvements.

Public safety expense continues to represent the largest governmental expense, \$6.5 million, or 53 percent of the City's total governmental expenses of \$12.4 million. Public safety expenses include police, fire, ambulance, building inspection, and public parking services

Business-type activities - The City operates five utilities and a municipal golf course. Combined, the electric and gas utilities comprise 84 percent of the total business-type activity charges.

Highlights in the business-type activities area include:

- For business-type activities, 2015 overall expenses decreased \$3.8 million from the prior year, and program revenues decreased \$4 million. This is offset by a decrease of \$3.8 million in total business-type activities expenses, primarily due to the cost of electric and gas purchases for resale.
- Electric kwh sales were stable in comparison to 2014 sales, less than 0,2% decrease. Electric dollar billings were 8 percent lower than the prior year, because of the decreased cost of energy purchases for resale. Net operating income of the electric fund was \$2.1 million, compared to \$1.9 million in 2014.
- Water gallons sales decreased 24% from the prior year, due to weather related conditions (increased rain and lower summer temperatures). Net operating income of the water fund was \$58 thousand, compared to \$74 thousand in 2014.
- Gas MCF sales decreased 20% in 2015 due to weather related conditions (warmer winter period). Net operating income of the gas fund was \$618 thousand in 2015, compared to \$597 thousand in 2014.

Financial Analysis of the Government's Funds

As noted earlier, the City of Winfield uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds - The focus of the City of Winfield's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Winfield's financing requirements.

As of the end of the fiscal year ending December 31, 2015, the City's governmental funds reported a combined ending fund balance of \$3.9 million, a decrease of \$452 thousand in comparison to the prior year. Approximately 45 percent of fund balance is restricted for specific purposes, 36 percent is committed or assigned by management for specific purposes, and 19 percent is nonspendable (not available for current operations).

General Fund - The general fund is the major operating and taxing fund for the City of Winfield. At the close of 2015, the general fund balance was \$1.2 million, comparable to the 2014 fund balance of \$1.2 million. Excluding transfers to and from the general fund and the debt payments related to a purchase of a \$1 million fire truck, the overall general fund expenditures increased 5 percent over 2014, while revenues increased 2 percent.

Major revenue sources in the General fund include:

- Property taxes collected were \$2.7 million. Property tax collections were 98 percent of projected revenues in 2015. The 2014 City mill levy remained approximately the same as the prior year.
- Sales taxes collected were \$2.8 million. Sales tax collections were greater than 100 percent of projected revenues in 2015. In February 2014, the City of Winfield approved the imposition of a general purpose four tenths of one percent City-wide retailers sales tax for renovations to finance costs for certain library, street and other capital improvements throughout the City. The collection of the capital improvements sales tax began on July 1, 2014 and will terminate seven years after its commencement.
- In 2015, total 'in lieu of' franchise fees from the other utilities remained comparable to the prior year, with a total of \$2.6 million in inter-fund activity. These amounts are treated as inter-fund transfers in the financial statements.

General funds expenditures, excluding transfers, totaled \$9.1 million, increase approximately \$446 thousand over the prior year. Below is a historical trends summary by function of general fund expenditures.

	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015
General government	\$ 837	\$ 823	\$ 768	\$ 810	\$ 782	\$ 820	\$ 910	\$ 1,054	\$ 1,257	\$ 1,272
Public safety	4,670	3,858	4,378	4,223	4,273	4,250	4,554	4,442	5,520	5,891
Cemetery	131	140	142	134	138	154	156	156	161	164
Culture/recreation	1,083	1,072	1,178	1,079	1,207	1,251	1,269	1,235	1,534	1,501
Health and welfare	290	290	294	320	315	302	328	307	31	93
Economic development	16	15	10	10	10	10	10	-	-	27
Debt service	-	26	126	126	126	126	125	121	121	121
	<u>\$7,027</u>	<u>\$6,224</u>	<u>\$6,896</u>	<u>\$6,702</u>	<u>\$6,851</u>	<u>\$6,913</u>	<u>\$7,352</u>	<u>\$7,315</u>	<u>\$8,624</u>	<u>\$9,069</u>

Capital Improvements Fund – The capital improvements fund's primary revenue source is a one-half cent city sales tax. Funds were used for projects and for debt payments on prior years' projects. The year end fund balance of \$168 thousand is an increase of \$34 thousand from the prior year.

Debt Service Fund - The debt service fund's fund balance increased from \$291 thousand to \$526 thousand in 2015. 9.155 mills generated \$598 thousand of property taxes in the current year. This mill levy has continues to remain at a relatively stable level over the last five years, varying from 9.0 to 10.0 mills.

Other Governmental Funds – Other governmental funds' fund balance was \$2 million, at the end of 2015, a decrease of \$744 thousand from the prior year. This includes capital project funds begun in 2014 and substantially completed by the end of 2014.

General Fund Budgetary Highlights

Actual revenue sources in 2015 totaled 99 percent of the original general fund budget. Revenue highlights are discussed above under 'General Fund'. Overall 2015 expenditures increased 9 percent over the prior year. This is primarily due to a full year of ambulance service costs in 2015, compared to six months in 2014, and \$553 thousand of sales tax dollars distributed to the public library in 2015, compared to \$265 thousand distributed in 2014. The City's unencumbered fund balance in the general fund at December 31, 2015 was \$611,784, equivalent to 6 percent of the 2015 general fund budgetary basis expenditures.

Capital Assets

At the end of 2015, the City had \$75 million invested, net of depreciation, in a broad range of capital assets used in both governmental and business-type activities. It is summarized below:

Table 3

City of Winfield, Kansas
Assets, Net of Depreciation
As of December 31, 2015
(with comparative totals for December 31, 2014)
(in thousands of dollars)

Total	<u>\$ 30,647</u>	<u>\$30,872</u>	<u>\$ 44,767</u>	<u>\$45,872</u>	<u>\$75,414</u>	<u>\$76,744</u>

Government-wide capital assets, net of depreciation, decreased 0.7 percent in 2015. In business-type activities, capital assets, net of depreciation, decreased 2 percent. Additional information regarding the City of Winfield's capital assets can be found in note 9, page A-50 of this report.

Long-term Debt

At the end of 2015, the City had \$19.5 million in general obligation bonds and capital leases, \$2.5 million due within the next year. The 2015 balance is a decrease of \$1.3 million, due to bond repayments and the issuance of bonds to fund the payoff of 2014 temporary notes. More detailed information about the City's long-term liabilities is presented in Note 16 to the financial statements.

Table 4

**City of Winfield, Kansas
Long-term Debt
As of December 31, 2015
(with comparative totals for December 31, 2014)
(in thousands of dollars)**

Total	\$ 12,815	\$ 14,311	\$ 6,650	\$ 7,582	\$ 19,465	\$ 21,893

Economic Factors and Next Year's Budgets

- County unemployment rates as of December 31, 2015 and July 31, 2016 were 4.5% and 5.7%, respectively. Comparable national unemployment rates were 5.0% and 4.9%, and comparable Kansas state-wide unemployment rates were 4.2% and 4.1%.
- The City of Winfield continues to partner with other local governments and the private sector to maintain local economic efforts. The 2015 budget reflects a small increase in budgeted expenditures over 2014 amounts, and 2015 revenues were anticipated to remain steady in comparison to 2014 amounts.

Requests for Information

This financial report is designed to provide a general overview of the City of Winfield's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, P.O. Box 646, Winfield, KS 67156.

CITY OF WINFIELD, KANSAS
GOVERNMENTAL FUNDS
RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION
DECEMBER 31, 2015

Total fund balances - Total governmental funds \$ 3,902,658

Amounts reported for governmental activities in the Statement of Net Position are different from those reported in the governmental funds above because of the following:

CAPITAL ASSETS

Capital assets used in governmental activities are not current assets or financial resources and therefore are not reported in the governmental funds. These assets include stormwater drainage infrastructure and consist of:

Land and construction in progress	\$ 2,620,142	
Buildings, net of \$3,539,249 accumulated depreciation	5,648,195	
Improvements other than buildings, net of \$6,708,890 accumulated depreciation	20,908,308	
Machinery and equipment, net of \$7,844,085 accumulated depreciation	<u>1,470,177</u>	
Total capital assets		30,646,822

STORMWATER DRAINAGE

The stormwater drainage utility fund is an enterprise fund of the City, and has been reclassified to governmental activities in the government-wide statements. Stormwater drainage fees are charged to City utility wastewater customers through consolidated utility bills. Stormwater fees are used to partially fund stormwater drainage system facilities and improvements. However, general obligation debt has funded a significant portion of the system.

170,615

LONG TERM RECEIVABLES

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current expenditures. Those assets (i.e. receivables) are offset by deferred revenues in the governmental funds and, therefore, not included in fund balance.

Balances at December 31, 2015 are:

Contractual receivables from other governmental agencies	581,030	
Deferred special assessments	<u>2,050,314</u>	2,631,344

DEFERRED OUTFLOWS

Deferred outflows represent a consumption of net position that applies to a future period and so will not be recognized as an expenditure of resources until then.

707,905

DUE TO PROPRIETARY FUNDS

Amounts advanced and due to or from nongovernmental funds are offset in the governmental activities in the statement of net position.

Advance to internal service funds	(20,265)
-----------------------------------	----------

INTERNAL SERVICE FUNDS

Internal services funds are used by the city to account for the financing of goods or services provided by one department to other City departments, generally on a cost reimbursement basis. A portion of the assets and liabilities of internal service funds are included in governmental activities in the statement of net position.

682,595

LIABILITIES

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities - both current and long-term - are reported in the statement of net position.

Balances at December 31, 2015 are:

Accrued interest payable	(107,002)	
Compensated absences	(346,299)	
Net pension liability	(6,456,605)	
Net OPEB obligation	(327,767)	
Payable to other governmental agencies	(64,000)	
General obligation bonds and temporary notes, net of premiums, discounts, and adjustments	(12,697,440)	
Capital leases payable	<u>(118,504)</u>	
Total liabilities not reflected in governmental funds balance sheet		<u>(20,117,617)</u>

DEFERRED INFLOWS

Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as a revenue until then.

(778,237)

Total net position of governmental activities	\$ <u>17,825,820</u>

See accompanying notes to financial statements

CITY OF WINFIELD, KANSAS

GOVERNMENTAL FUNDS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2015

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	(451,780)
---	-----------	------------------

Governmental funds report capital acquisitions as expenditures. However, in the statement of activities, the cost of assets capitalized is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay expenditures	958,701	
Depreciation	<u>(1,253,040)</u>	(294,339)

Transfers of capital assets from governmental activities to business type activities are reported as transfers, whereas in the governmental funds, there is no event to report as there was no outward flow of current financial resources.

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Long-term receivables		445,863
Special assessments receivables		(151,632)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

General obligation and temporary note principal payments		9,309,713
Capital lease payments		116,228
Long term contractual payments		32,000
General obligation bond proceeds		(10,955,000)
Payments to escrow agent on refunding		4,160,539
Premium on bonds payable		(568,994)

Deferred refunding costs reduce current financial resources to governmental funds, but do not decrease long-term liabilities in the statement of net position.	161,808
--	---------

General obligation debt for water utility improvements is recognized as debt in the water utility fund. Under modified accrual accounting, the bond and interest fund receives cash transfers from the water fund to make the GO bond debt payments.	(566,342)
--	-----------

Some expenses reported in the statement of activities do not require use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Compensated absences		15,348
Other post employment benefits		(52,026)
Net pension liability		(717,289)
Accrued interest on bonds and leases payable		(24,744)

The amortization of collective deferred outflows and inflows of resources related to pensions effects change in net position, but does not provide or use current financial resources of governmental funds.

Deferred outflows - pensions	104,232	
Deferred inflows - pensions	<u>714,699</u>	818,931

The stormwater drainage fund is included as a proprietary fund in the proprietary funds' statement of net position, and statement of revenues, expenses and changes in fund net position. It is reclassified as a governmental-type fund for the government-wide statement of net position and statement of activities, defined as a 'public works/stormwater' function.	(2,677)
--	---------

Internal service funds are used by management to charge the costs of certain activities, such as management services and insurance, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities	<u>(182,245)</u>
---	------------------

Change in net position of governmental activities	\$	<u>1,093,362</u>
--	-----------	-------------------------

CITY OF WINFIELD, KANSAS

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2015

1. Summary of Significant Accounting Policies

The City of Winfield, Kansas was founded in 1869. Located in the northern half of Cowley County, Winfield has a population of 12,333 living within an area of 12 square miles. The City operates under a charter adopted February 2, 1873, and a Commission/Manager form of government.

A. Financial Reporting Entity

The City's combined financial statements include the account of all City operation. The criteria for including organizations as component units within the City's reporting entity, as set forth in section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- the organization is legally separate (can use and be sued in their own name)
- the City holds the corporate powers of the organization
- the City appoints a voting majority of the organization's board
- the City is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the City
- there is fiscal dependency by the organization on the City

Based on the aforementioned criteria, the City of Winfield has two discretely presented component units. The discretely presented component units are reported in a separate column in the government-wide financial statements.

1) Discretely Presented Component Units

Winfield Public Library - operates the City's public library. The library has its own financing levy under Kansas Statutes, and the Library tax levy is included in the total City tax levy. Library tax distributions are paid to the City, and the City in turn distributes to the Library. The City appoints all Library Board members, and the City must approve acquisition or disposition of real property by the Library Board.

Winfield Housing Authority - operates the City's housing projects. The City created the Winfield Housing Authority as its agent in 1978, under K.S.A 17-2340. The City appoints all board members and has the ability to impose its will on Winfield Housing Authority. Although the City does not have the authority to approve or modify the Housing Authority's operational and capital budgets, and the Housing Authority has the authority to issue bonded debt, the City is fiscally responsible for the Housing Authority, since it was created as an agent of the City. The City has delegated to the Housing Authority the power to operate and manage the low-rent housing projects of the City. The Housing Authority is on a June 30 fiscal year end. Data included in these financial statements are for the fiscal year ended June 30, 2015.

Both component units of the City are considered to be non-major funds. Complete separately issued financial statements of the individual component units can be obtained from their respective administrative offices listed below:

Winfield Public Library	Winfield Housing Authority
605 College	1417 Pine Terrace
Winfield, KS 67156	Winfield, KS 67156

2) Joint Ventures

A joint venture is a legal entity or other organization that results from a contractual arrangement (or interlocal agreement) and is owned, operated or governed by two or more participants as a separate and specific activity subject to joint control. The participants retain (a) an on-going financial interest or, (b) an on-going financial responsibility. The City participates in the following joint ventures:

Strother Field Airport and Industrial Park – The Cities of Winfield and Arkansas City, Kansas entered into an interlocal agreement to create the Strother Field Airport and Industrial Park. Three commissioners from both cities comprise the Strother Field governing body. The two cities jointly own Strother Field. The cities provide no financial support to Strother Field. Separate audited financial statements are available from Strother Field Airport and Industrial Park, P.O. Box 747, Winfield, KS 67156.

Cowley County Humane Society Interlocal Agreement- The Cities of Winfield and Arkansas City, Kansas entered into an interlocal agreement to jointly operate and fund the animal shelter. The purpose of this agreement is to provide for the continuity for the use of the Cowley County Humane Society to temporarily house, care and disperse unwanted or stray animals. Each City and the Society shall continue to have equal one-third (1/3) ownership interest in the shelter facility. Records and reporting are maintained by the Humane Society, and both cities contribute annually to the operations of the shelter and have an ongoing financial interest in the organization. Unaudited Financial statements are available from Cowley County Humane Society, 7468 222nd Rd., Winfield, KS 67156.

Arkansas City/Winfield Recycling Center – The Cities of Winfield and Arkansas City, Kansas entered into an interlocal agreement to jointly purchase and operate a recycling center. Additionally, the City of Winfield offers single stream recycling to Winfield residents. Records are maintained by the City of Winfield; both cities share equally in the costs and recycling revenues. No separate financial statements are prepared for this joint venture. Further financial information can be obtained through the City of Winfield, 200 E. 9th Ave, Winfield, KS 67156. Below is a summary of 2015 revenues and expenses for the recycling center.

Recycling revenues	\$ 25,277
Recycling expenses	72,945
Depreciation expense	2,155

3) Related Organizations

A related organization is an organization for which a primary government is accountable because that government appoints a voting majority of the Board, but is not financially accountable.

William Newton Memorial Hospital – The City Commission is responsible for appointing the Board members of the Hospital, but the City's accountability for this organization does not extend beyond making appointments.

A. Government-Wide and Fund Financial Statements

The government-wide financial statements report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported discretely from the legally separate *component units* for which the primary government is financially accountable.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position, which is one method to measure the City's financial condition. An increase or decrease in the City's net position from one year to the next indicates whether the financial position of the City is improving or deteriorating.

The *statement of activities* demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include [1] charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and [2] grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and the major individual enterprise funds are reported as separate revenues.

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The *government-wide financial statements* are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds and fiduciary fund financial statements, except for the agency funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. A 60-day availability period is used for revenue recognition for all governmental funds revenues except property taxes. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the payment is due.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are reflected as revenues at the time of receipt, or earlier if the susceptible to accrual criteria are met.

Property taxes, sales taxes, and franchise taxes associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City. While property taxes receivable are shown on the balance sheet as current assets of the City, they are not recognized as revenue at year end because statutory provisions prohibit their use until the year for which they were raised and budgeted. Instead, they are offset by unavailable revenue accounts.

The City reports the following major governmental funds:

The General Fund is the principal fund of the City that accounts for all financial transactions not accounted for in other funds. The majority of current operating expenditures of the City, other than proprietary fund activities, are financed through revenues received by the General fund. Its revenues consist primarily of taxes, investment income, licenses and permits, intergovernmental shared revenues, charges for services, fines, and payments in lieu of taxes from both City-owned and external utilities. General fund expenditures represent the general administration costs of government, and public safety (fire, ambulance, police, and buildings inspection), parks and recreational facilities, and cemetery maintenance.

The Debt Service fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The Capital Improvements fund accounts for many of the major capital improvements of the City (other than those financed in proprietary funds), financed primarily through one-half of the local sales tax revenues, issuance of general obligation bonds, and other City transfers.

The City reports the following major proprietary funds:

The Electric Utility fund accounts for the operation and maintenance of the City's electric generation and distributions system. The City purchases electricity, and maintains a 65 KW generation capacity. Electric service is provided to more than 7,420 meters both within the City and in surrounding areas, and sold wholesale to neighboring towns.

The Gas Utility fund accounts for the operation and maintenance of the City's gas distribution system. The City purchases natural gas, and provides service to approximately 5,190 meters.

The Water Utility fund accounts for the operation and maintenance of the City's water treatment plant and the water distribution system. The Winfield City Lake provides an adequate quality water supply of water to Winfield citizens, providing water to approximately 5,150 meters. The City also provides access to water for five rural water districts and one neighboring town.

The Wastewater Utility fund accounts for the operation and maintenance of the City's wastewater collection system and wastewater treatment plant. The City collects and treats effluent of City residents, providing service throughout the City to approximately 5,000 households.

The City also reports the following fund types:

Permanent funds are used to report an endowment restricted to the perpetual care of municipal cemeteries.

Capital project funds are used to account financial resources used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds.

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City on a cost reimbursement basis and to account for the City's self-insurance activities.

Agency funds are used to report resources held by the City in a custodial capacity for remittance of fiduciary resources to individuals, private organizations or other governments. The City has four agency funds – Sales tax: to collect and pass through sales taxes, Payroll claims: to collect and pass through payroll related liabilities and taxes, Fire Insurance Proceeds: to collect and pass through fire insurance recoveries and Flex Medical Fund to collect and pass through flexible benefit contributions.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes between the City's enterprise funds and the general fund. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advanced to/from other funds. While these balances are reported in the fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the new amount is included as internal balances in the business type activities column. The City does not have a formal policy on removing internal activity on the government-wide financial statements.

Amounts reported as program revenues include [1] charges to customers or applicants for goods, services, or privileges provided, [2] operating grants and contributions, and [3] capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Principal operating revenues of the proprietary funds are charges to customers for sales and services. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting these criteria are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

C. Pooled Cash and Temporary Investments

Cash resources of the individual funds are combined to form a pool of cash and temporary investments. In addition to City-owned checking accounts, investments of the pooled accounts consist primarily of certificates of deposits. Interest income is allocated to the appropriate funds, based on the ratio of each individual fund cash balance to the total cash balance. The City has no formally adopted investment or credit risk policy although the City's primary objective of investment activities are in order of priority; safety, liquidity, and rate of return. The City follows Kansas law (K.S.A. 12-1675 through K.S.A. 12-1677) which allows monies not otherwise regulated by statute to be invested in:

- Time deposits, open accounts, or certificates of deposits with maturities of not more than four years
- Repurchase agreements with commercial banks, or State or federally chartered savings and loan associations
- United States treasury bills or notes with maturities not exceeding four years
- U.S. government agency securities with a maturity of not more than four years
- The municipal investment pool fund operated by the Kansas Treasurer. This pool is not an SEC registered pool. The Pooled Money Investment Board (PMIB) provides the regulatory oversight for this pool. The fair value of the PMIB investments approximates the value of pool shares

City manages its exposure to fair value losses arising from increasing interest rates by requiring that maturities be staggered in a way that avoids undue concentration of assets in a specific maturity sector and that investments be sufficiently liquid to meet all operating requirements which may be reasonably anticipated.

D. Cash Flows Statement

For purposes of the cash flow statement, the city considers deposits and highly liquid investments with an original maturity of three months or less to be cash equivalents.

E. Property Taxes and Other Receivables

In accordance with State statutes, property taxes levied during the current year are revenue sources to be used to finance the budget of the ensuing year. Taxes are assessed on a calendar year basis and are levied and become a lien on the property on November 1 of each year. The County Treasurer is the tax collection agent for all taxing entities within the County. Property owners have the option of paying one-half or the full amount of the taxes levied on or before December 20 during the year levied with the balance to be paid on or before May 10 of the ensuing year. State statutes prohibit the County Treasurer from distributing taxes collected in the year levied prior to January 1 of the ensuing year. Consequently, for revenue recognition purposes, the taxes levied during the current year are not due and receivable until the ensuing year. At December 31, such taxes are a lien on the property and are recorded as taxes receivable, net of anticipated delinquencies, with a corresponding amount recorded as deferred revenue on the balance sheet of the appropriate funds. It is not practicable to apportion delinquent taxes held by the County Treasurer at the end of the year and, further, the amounts thereof are not material in relationship to the financial statements taken as a whole.

Recognized State-shared taxes represent payments received during the current fiscal period, and amounts collected or due to the State on behalf of the City at year-end.

All non-utility trade accounts receivable are shown net of an allowance for uncollectibles. Management records a trade accounts receivable allowance for all non-utility balances greater than one year old.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advanced from other funds. While these balances are reported in the fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities and business-type activities are eliminated so that only the net amount is included as internal balances in the government-wide financial statements as internal balances.

F. Revenue Recognition for Proprietary Funds

The proprietary funds follow the policy of recognizing revenue on sales when services are rendered. The electric, gas, water, refuse, wastewater, and storm water drainage utilities recognize revenues for unbilled services. All users, including other City departments, are charged for services provided by the respective proprietary funds. Account receivable represent uncollected charges (both billed and unbilled) at December 31, net of amounts estimated to be uncollectible.

G. Special Assessments Receivable

State statutes require projects financed in part by special assessments to be financed through the issuance of general obligation bonds, which are secured by the full faith, and credit of the City. Special assessments paid prior to the issuance of general obligation bonds are recorded as revenue in the appropriate project. Special assessments received after the issuance of general obligation bonds are recorded as revenue in the debt service fund. State statutes allow levying additional ad valorem property taxes in the City's debt service fund to finance delinquent special assessments receivable, if necessary. Special assessments receivable are accounted for within the debt service fund. Special assessments are levied over a ten to twenty year period and the annual installments are due and payable with annual ad valorem property taxes. Delinquent assessments against property benefited by special assessments constitute a lien against such property. When assessments are two years in arrears, they may be collected by foreclosure. At December 31, 2016, the special assessment taxes levied are a lien on the property and are recorded as special assessments receivable in the debt service fund with a corresponding amount recorded as a deferred inflow of resources.

H. Inventories and Prepaid Expenses

As a general rule, inventories and prepaid expenses that benefit future periods, other than those recorded in the proprietary fund types, are recorded as expenditures during the year of purchase. Inventories are stated at the lower of cost or market value, cost being determined by the average unit cost method. Prepaid expenses are valued at cost.

I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000, and dependent on the type of asset. Donated capital assets are recorded at their estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized.

Interest incurred during the construction phase of capital assets of business-type assets is included as part of the capitalized value of the assets constructed. During 2015, the City had no net interest costs subject to capitalization.

Major outlays for capital assets and improvements are capitalized as projects are completed. For proprietary funds, interest costs incurred to bring certain assets to the condition and location necessary for their intended use are capitalized as part of the historical cost of acquiring the assets.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

	Asset	Life (Years)
For all funds:	Buildings and improvements	40-50
	Equipment	5-15
	Vehicles	8
	Meters	20-30
Specific to governmental activities:		
	Asphalt and concrete streets	40-50
	Sidewalks and curb/gutter	40-50
	Park/recreational infrastructure	20-30
Specific to business-type activities:		
Electric utility	Electric generation plants	30-35
	Transformers	15-20
	Electric poles	25
	Conductors/related equipment	35
Gas utility	Gas lines/infrastructure	40-75
Water utility	Water treatment plant	30-50
	Water lines/infrastructure	30-65
Sewer utility	Sewer lines/ infrastructure	50-75
	Life stations	25

Capital assets not being depreciated include land and construction in progress.

J. Payments in Lieu of Franchise Fees

The electric, gas, water, and refuse utilities pay monthly in lieu of franchise fees monthly to the general fund, in amounts ranging from 4% to 6.9% of gross sales. The 'payments in lieu of' mirror the payments in lieu of assessed to external utilities providing services within the City, such as telephone and cable services, and are reflected as interfund transfers in the financial statements, in accordance with GASB-S34: 112b (1).

K. Compensated Absences

- 1) **Vacation** - All permanent full-time employees of the City are eligible for vacation benefits. Employees with less than ten years employment service for the City have vacation days accumulated at the rate of one day for each month of employment, with a maximum of eighteen days. If employed ten years or more, the rate is one-and-a-half days per month, with a maximum of twenty-four days. All vacation pay is accrued when incurred in the government-wide and proprietary financial statements.
- 2) **Sick Leave** - Sick leave is accumulated at the rate of one day per month, regardless of the length of employment, with the accumulated carryover not to exceed ninety days. Accumulated sick leave is not paid to employees separating from service, prior to retirement. No liability is reported in the financial statements of accrued sick leave, unless an employee is entitled to the payout due to retirement.
- 3) **Sick Leave Reserve** – Employees who have accrued the maximum ninety days of sick leave are eligible to accrue sick leave in a reserve account. Reserve sick leave is credited for 25% of each eight hours sick leave that would have accrued had the ninety days maximum accrual not been reached. There is no maximum as to the number of reserve sick leave hours that may be accumulated, and sick leave reserve hours accumulated by employees eligible for retirement are reflected as accrued liabilities in the financial statements.
- 4) **Sick Leave Bonus** – Any permanent full time employee who has reached the maximum ninety days sick leave accrual is eligible for the annual sick leave bonus program. For each pay period that an employee begins and ends with ninety days maximum accrued sick leave, they accrue one hour's pay at the regular rate of pay. This bonus is paid out to those employees annually.

L. Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expenses/expenditures) until that time. The City reports a collective deferred outflow of resources related to pension, which is described in more detail in Note 18.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. Unavailable revenue, which arises only under a modified accrual basis of accounting, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenue from several sources: long-term accounts receivable, property taxes, special assessments, and deferred charges on debt refunding. The deferred charge on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred revenues are reported in both the government-wide statement of net position and the governmental funds balance sheet to property tax receivable. Property taxes are not recognized as revenue until the period for which they are levied. Additionally, the City reports a collective deferred inflow of resources related to pensions, which is described in more detail in Note 18.

M. Estimates

Preparation of financial statements in conformity with GAAP requires making estimates and assumptions that affect: [1] the reported amounts of assets and liabilities, [2] disclosures such as contingencies, and [3] the reported amounts of revenues and expenditures or expenses included in the financial statements. Actual results could differ from those estimates.

N. Net Positions and Fund Balances

Net positions in the government-wide and proprietary fund financial statement are classified as net investment in capital asset, restricted and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments imposed by law through state statute.

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent. The governmental fund types classify fund balance as follows:

- *Nonspendable fund balance* – includes amounts that cannot be spent because they are either (a) not in a spendable form or (b) legally or contractually required to be maintained intact.
- *Restricted fund balance* – includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.
- *Committed fund balance* – includes amounts that can only be used for the specific purposes determined by a formal action of the City's highest level of decision-making authority. The City Commission is the highest level of decision-making authority that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.
- *Assigned fund balance* – is the portion of the fund balance which the City intends to be used for a specified purpose as directed by the City Commission. The portion of the fund balance that is appropriated by the City Commission for the next year's budget that is not already restricted or committed is considered assigned. Encumbrances, which can be approved by the designated senior staff, are included in assigned fund balances. Additional information on encumbrance balances is provided in Note 17 – Encumbrances.
- *Unassigned fund balance* – represents the portion of fund balance that has not otherwise been restricted, committed or assigned to specific purposes.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers to have spent restricted funds first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the City considers amounts to have been spent first from the committed funds, then assigned funds, and finally unassigned funds, unless the City Commission has provided otherwise in its commitment or assignment action.

O. Pending Governmental Accounting Standards Board Statements Affecting Financial Statements

As of December 31, 2015, the Governmental Accounting Standards board (GASB) had issued the following statements but have not been implemented by the City. These GASB statements that may impact the City include:

GASB Statement No. 72, "Fair Value Measurement and Application", was issued in February 2015. The objective of this statement is to address financial reporting issues related to fair value measurements. The statement provides guidance for determining a fair value measurement for financial reporting purposes and for applying fair value to certain investments and disclosures related to all fair value measurements. The provisions of this statement is effective for periods beginning after June 15, 2015.

GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" was issued June 2015. This statement replaces the requirements of Statements No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions", as amended, and No. 57, "OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans", for OPEB. It establishes new accounting and financial reporting requirements for OPEB plans. The provisions of this statement are effective for financial statements beginning after June 15, 2017.

GASB Statement No. 77, "Tax Abatements", was issued in August 2015. The statement requires disclosure of tax abatement information about (1) a reporting government's own tax abatement agreements and (2) those that are entered into by other governments and that reduce the reporting government's tax revenues. For governments impacted by other governments' tax abatements, the

following must be disclosed: (1) the names of the governments that entered into the agreements, (2) the specific taxes being abated, and (3) the gross dollar amount of taxes abated during the period. The provisions of this statement are effective for periods beginning after December 15, 2015.

GASB Statement No. 82, "Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73", was issued in March 2016. The Statement addresses issues that have been raised with respect to Statements No. 67, No. 68, and No. 73, regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The provisions of this statement are effective for financial statements for the City's fiscal year ending December 31, 2017.

P. Implemented Governmental Accounting Standards Board Statements Affecting Financial Statements dated December 31, 2015.

Newly implemented in these financial statements are two Statements:

GASB Statement No. 68, "Accounting and Financial Reporting for Pensions- *an amendment of GASB Statement No. 27*". This statement was issued in June 2012, and establishes accounting and financial reporting by state and local governments for pensions, including entities that participate in cost-sharing multiple-employer plans. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equipment arrangements that meet certain criteria. Also, this statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For example, cost-sharing employers participating in KPERS, such as the City of Winfield, are required to record their proportionate share, as defined in Statement No. 68, of the KPERS unfunded pension liability. The implementation of GASB 68 resulted in a prior period adjustment. For more information, see Note 18.

GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date- *an amendment of GASB Statement No. 68*", was issued in November 2013. The objective of this 68, Accounting and Financial Reporting for Pensions. Under Statement 68, if it is not practical for an employer or nonemployer contributing entity to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances of deferred outflows and inflows of resources not be reported. This statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. The provisions of this statement should be applied simultaneously with the provisions of Statement 68.

2. Budgetary Control

Applicable Kansas Statutes require that annual budgets be legally adopted for all funds (including proprietary funds) unless exempted by a specific statute. Funds exempted from legally adopted budgets include all capital project funds (including capital projects of proprietary funds); three special revenue funds: the grants and contributions fund, the energy manager grant fund, and the equipment reserve fund; the electric depreciation reserve fund; all agency and fiduciary funds; and five internal service funds: the A/R financing fund, risk management reserve fund, workers' compensation reserve fund, health insurance reserve fund, and the short-term disability reserve fund. Controls over spending in funds that are not subject to legal budgets are maintained by the use of internal spending limits established by management, federal regulations, or other statutes. K.S.A. 79-2926 et seq. provide for the following sequence and timetable in the adoption of the legal annual operating budget:

- [1] Preparation of the budget for the succeeding calendar year on or before August 1 of each year.
- [2] Publication in local newspaper of the proposed budget and notice of public hearing on the budget on or before August 5 of each year. A minimum of ten days' notice of public hearing, published in local newspaper, on or before August 15 of each year.
- [3] Adoption of the final budget on or before August 25 of each year.

K.S.A. 79-2927 requires that all money to be raised by taxation and from all other sources for the ensuing budget year must be appropriated. The law does not permit an appropriation for sundry or miscellaneous purposes in excess of ten percent of the total. The budget for each fund with tax levies may include a non-appropriated balance not to exceed five percent of the total of each fund.

Kansas statutes prohibit creating expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. In accordance with Kansas statutes, the legal level of control for the City is established at the individual fund level, also permitting the transfer of budgeted amounts from one object or purpose to another within the same fund. All annual appropriations lapse at the end of the year, except for outstanding encumbrances, which carryover to the following fiscal year. Kansas statutes permit original budgets to be increased for previously unbudgeted increases in revenue other than ad valorem property taxes. The City must first publish a notice of hearing to amend the budget. Ten days after publication, a public hearing is held at which time the governing body may amend the budget. Budgetary data presented in the financial statements represent the original budgeted amounts, and reflect any amended budgeted amounts in a separate column. The City had budget amendments for four funds in 2015.

	2015 Adopted Budget	2015 Amended Budget
Bond and interest fund	\$2,372,180	\$11,048,187
Refuse fund	1,340,760	1,434,682
Wastewater fund	2,156,137	2,148,931
Management services fund	3,181,676	3,235,004

3. Budget/GAAP Reconciliation – General Fund

Budgets are prepared on a basis (budgetary basis) different from generally accepted accounting principles (GAAP basis). For budgeting, revenues are recognized when received. Expenditures include cash disbursements, payables, and encumbrances (purchases orders, contracts, and other commitments). Encumbrances are reflected as a reservation of fund balance (GAAP) as opposed to the equivalent of expenditures (budgetary). Adjustments necessary to convert the net change in fund balances and the ending fund balances from GAAP basis to budgetary basis for the general fund are provided below:

	Net change in fund balance
GAAP basis	\$ 22,303
Accrued revenue:	
December 31, 2015	(538,956)
December 31, 2014	544,749
Encumbrances:	
December 31, 2015	(43,434)
December 31, 2014	13,367
Budgetary basis	<u>\$ (1,971)</u>

4. Fund Balance Deficits

At December 31, 2015, nonmajor fund balance deficits were as follows:

Nonmajor Capital Projects Funds	
Public needs safety study	\$ (76,176)
12th avenue project	(9,165)
Total deficit fund balances	<u>\$ (85,341)</u>

The City has authority to issue bonds on these projects. At December 31, 2015, these projects were in progress.

5. Prior Period Adjustments

City of Winfield

The City implemented GASB Statement 68, "Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27" in 2015, requiring a prior period adjustment to restate beginning net position. See Note 18 for additional details. Below is a summary of the components of the prior period adjustment for pensions:

	Net prior period adjustment	Net pension liability	Deferred outflows	Deferred inflows
<i>Statement of Revenues, Expenses and Changes in Fund Net Position - Proprietary Funds</i>				
Major funds:				
Electric	\$(1,089,889)	\$ (944,937)	\$ 89,269	\$ (234,221)
Gas	(313,956)	(272,201)	25,715	(67,470)
Water	(404,554)	(350,749)	33,135	(86,940)
Wastewater	(364,552)	(316,067)	29,859	(78,344)
Nonmajor funds:				
Refuse	(229,660)	(199,116)	18,811	(49,355)
Quail Ridge golf course	(89,697)	(77,768)	7,347	(19,276)
Total enterprise funds	<u>\$ (2,492,308)</u>	<u>\$ (2,160,838)</u>	<u>\$ 204,136</u>	<u>\$ (535,606)</u>
Internal service funds:

Component unit – Winfield Housing Authority

Winfield Housing Authority implemented GASB Statement 68 in the fiscal year June 30, 2015, requiring a prior period adjustment to restate beginning net position, a reduction of \$110,082.

Component unit – Winfield Public Library

Winfield Public Library implemented GASB Statement 68 in the fiscal year December 31, 2015, requiring a prior period adjustment to restate beginning net position, a reduction of \$131,499.

6. Pooled Cash Deposits and Investments

The City has adopted a formal investment policy. The primary objectives of the investment activities are in priority order: safety of principal, liquidity and yield. The standard of care to be used by investment officials shall be the "prudent investor rule".

Custodial Credit risk

Custodial credit risk is the risk that in the event of a failure of a depository financial institution, the City will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The City's policy is to collateralize the demand deposits with securities held by the financial institution's agent and in the City's name, in accordance with Kansas statutes. At December 31, 2015, the City's deposits were insured by federal depository insurance and uninsured deposits were fully collateralized in accordance with the City's policy.

Investments

State laws (K.S.A. 12-1675 through 12-1677) allow monies, not otherwise regulated by statute, to be invested in:

- Temporary notes of the City of Winfield
- Time deposits, open accounts or certificates of deposits with maturities of not more than four years
- Repurchase agreements with commercial banks, state or federally chartered savings and loan associations, which have offices located in the City
- U.S. treasury bills or notes with maturities not exceeding four years
- U.S. government-agency securities with a maturity of not more than four years that do not have any more interest rate risk than U.S. government obligations or similar maturities
- The municipal investment pool fund operated by the State Treasurer

- g. State law (K.S.A. 10-131) allows investment of the proceeds of bonds and temporary notes into the following, in addition to those stated above: U.S. Government and agency obligations with maturity of not more than two years
- h. Time deposits, open accounts or certificates of deposits with maturities of not more than two years
- i. FNMA, FHLB and FHLMC obligations with maturities of not more than two years
- j. Collateralized repurchase agreements
- k. Mutual funds with portfolios consisting entirely of obligations of the U.S. government, U.S. Government agencies, FNMA, FHLB, and FHLMC
- l. Certain Kansas municipal bonds

At year end, the reporting entity's deposits and investments were comprised of the following:

	Cash Held by		Total
	Primary Government	Component Units	
Cash on hand	\$ 3,225	\$ -	\$ 3,225
Bank deposits	12,707,157	1,184,789	13,891,946
Total	<u>12,710,382</u>	<u>1,184,789</u>	<u>13,895,171</u>

Reconciliation to Statement of Net Position:

General fund	\$ 928,318
Capital projects funds	640,349
Capital improvements fund	169,432
Special revenue funds	1,323,125
Debt service fund	477,783
Permanent fund	6,000
Enterprise funds	7,386,494
Internal service funds	<u>1,369,719</u>
Total pooled cash and investments - primary government	12,301,220
Fiduciary funds of primary government	409,162
Component units	1,179,909
Fiduciary funds of component units	<u>4,880</u>
Grand Total	<u>\$ 13,895,171</u>

Collateral

Below is a comparison of the City's deposits balances to banks' collateral amounts at December 31, 2015:

Market value of securities, held as collateral by banks' third party trustees	\$ 15,607,506
FDIC coverage	<u>1,000,000</u>
Total coverage	16,607,506
Total City cash deposits, per bank	<u>12,707,157</u>
Excess coverage, December 31, 2015	<u>\$ 3,900,349</u>

Credit Risk and Concentration of Credit Risk

The City's investment option types are limited, which inherently reduces credit risk. State statutes do not address concentration of credit risk. The City invests monies based on highest interest rate bids from local banking institutions. Below is a summary of the City's investments at December 31, 2015

Investment Type	Amount	Percentage
Collateralized Time deposits	<u>\$8,442,972</u>	<u>100%</u>

Interest Rate Risk

Through its investment policy, the City manages its exposure to fair value losses arising from increasing interest rates by requiring that maturities be staggered in a way that avoids undue concentration of assets in a specific maturity sector, and that the investment portfolio remain sufficiently liquid to meet all operating requirements which might reasonably be anticipated.

As of December 31, 2015, the City's investments portfolio had the following investments and maturities:

Investment type	Total	6 months or less	6 to 12 months	12 to 24 months
Time deposits	<u>\$8,442,972</u>	<u>\$3,500,000</u>	<u>\$4,000,000</u>	<u>\$942,972</u>

7. Receivables

A. Utility Receivables

The City operates six utilities. Below is a summary of the utility receivables at December 31, 2015:

	Utility Receivables	Less provision for uncollectible accounts	Net Utility Receivables
Electric utility	\$ 2,473,693	\$ (340,425)	\$ 2,133,268
Gas utility	666,558	(99,966)	566,592
Water utility	264,618	(37,480)	227,138
Refuse utility	155,852	(24,202)	131,650
Wastewater utility	257,112	(35,563)	221,549
Stormwater utility	<u>22,617</u>	<u>(2,977)</u>	<u>19,640</u>
Total utility receivables, net of provision for uncollectible accounts	<u>\$ 3,840,450</u>	<u>\$ (540,613)</u>	<u>\$ 3,299,837</u>

No adjustment to the reserves for uncollectible utility receivables accounts was made in 2015, and no bad debt expense was charged to expenses. Based on the City's seven year trends analysis of bad debt collections, the current reserve was adequate to reflect estimated future losses.

B. Other Receivables

Miscellaneous accounts receivable are recorded at the full value of services provided. A provision for uncollectible accounts is established for all uncollected balances over one year old. For ambulance services billings, accounts are routinely settled for amounts less than the full rate as a result of negotiated contracts with third-party payers (insurance companies, Medicare). The provision for contractual adjustments is set up to reflect anticipated reductions of those payments. The City has estimated the provision for contractual adjustments and the provision for uncollectible accounts based on prior years' experience history. The City has contracted with Mediclaims Inc, a third party provider of medical billing services, to process all the ambulance billings and collections.

Below is a summary of the accounts receivables in the governmental funds:

	Miscellaneous Accounts Receivable	Less provision for uncollectible accounts	Less provision for contractual adjustments	Net Miscellaneous Accounts Receivable
General fund -				
miscellaneous	\$ 49,889	\$ (19,605)	\$ -	\$ 30,284
ambulance services	<u>490,013</u>	<u>(49,981)</u>	<u>(245,006)</u>	<u>195,026</u>
Total general funds	539,902	(69,586)	(245,006)	225,310
Nonmajor special revenue funds	<u>2,880</u>	<u>(2,492)</u>	<u>-</u>	<u>388</u>
Total	<u>\$ 542,782</u>	<u>\$ (72,078)</u>	<u>\$ (245,006)</u>	<u>\$ 225,698</u>

C. Long-term Receivables

The City has entered in several interlocal agreements in prior years with other local governmental entities, related to debt financing and repayment arrangements. The City included project costs of these entities in general obligation bond issues, and the interlocal agreements provide for repayment of the principal, interest, and issuance costs to the City over set time periods. These receivables are included in governmental activities of the "Statement of Net Position". Because the receivables are not considered to be available to liquidate liabilities of the current fiscal year, they are not reflected in the debt service fund in the Governmental Funds Balance Sheet. Below is a summary of the receivables as of December 31, 2015.

	Total Payments Due	[1] Southwestern College	[2] Winfield USD #465	[3] Winfield Recreation Commission
2016	\$ 77,362	\$ 10,000	\$ 16,377	\$ 50,985
2017	78,701	10,000	16,377	52,324
2018	58,702	-	6,378	52,324
2019	52,324	-	-	52,324
2020	52,324	-	-	52,324
2021-2025	261,616	-	-	261,616
	<u>\$ 581,029</u>	<u>\$ 20,000</u>	<u>\$ 39,132</u>	<u>\$ 521,897</u>

[1] Southwestern College is a non-profit private liberal arts four year institution, located in Winfield.

[2] Winfield USD #465 is the local school district.

[3] Winfield Recreation Commission is a component unit of the local school district.

D. Economic Development Loan Receivable

In January 2011, the City sold Baden Hall, an unoccupied building, to Baden Hall Limited Partnership (developer) for \$1. The building was rehabilitated and developed into a 24-unit residential rental property for households with low and moderate income. In addition, the City agreed to a 30-year no-interest loan of \$248,000 to the developer. The contract was structured to require no loan payments until the end of the thirty years. The loaned funds consist of prior years' private donations to the "Baden Hall Preservation Committee for the Preservation and Renovation of Baden Hall". Because the loaned funds are not available to finance expenditures of the current fiscal year, there is a corresponding liability is recorded as a deferred inflow of resources in the general fund.

8. Changes in Capital Assets

Capital asset activity of the primary government for the year ended December 31, 2015 is as follows:

	Balance January 1	Increases	Decreases	Transfers/ Reclassifications	Balance December 31
Governmental activities:					
Capital assets, not being depreciated:					
Land	\$ 1,903,463	\$ -	\$ -	\$ -	\$ 1,903,463

	<u>(58,654,801)</u>	<u>(2,756,910)</u>	<u>141,344</u>	<u>-</u>	<u>(61,270,367)</u>
Total capital assets, being depreciated, net	<u>\$ 45,044,086</u>	<u>\$ (1,104,815)</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 43,939,271</u>

9. Depreciation Allocations

Depreciation expense in 2015 was charged to function/programs of the primary government, as follows:

Governmental activities:

General government	\$ 206,274
Public safety	243,071
Public works	388,793
Cemetery	9,953
Culture and recreation	266,159
Total depreciation expense - governmental activities	<u>\$ 1,114,250</u>

Business-type activities:

Electric	1,344,024
Gas	97,077
Water	454,686
Refuse	91,016
Wastewater	710,047
Golf course	60,060
Total depreciation expense - business-type activities	<u>\$ 2,756,910</u>

10. Capital Projects

At December 31, 2015, the City had the following major improvement/construction projects in progress:

	Amount Authorized	Expenditures Project To-Date	Construction Commitments at 12-31-15
Geometric Main St.	\$ 735,000	\$ 726,571	\$ 9,229
Library Parking Lot	\$ 150,000	\$ 15,500	\$ 64,909
Capital Equipment	\$ 100,000	\$ 51,539	\$ 15,866
Public safety needs study project	\$ 100,000	\$ 76,176	\$ 4,888
12th Avenue project	\$ 400,000	\$ 9,165	\$ -

11. Temporary Notes

The City issued 2015 general obligation bonds in 2015 to pay off all outstanding temporary notes. Below is a summary of the 2015 temporary note activity:

Year of Issuance	Interest Rate	Original Debt	Outstanding 12/31/2014	Paid with 2015 GO bond issue	Outstanding 12/31/2015
2014	0.75%	\$ 7,330,000	\$ 7,330,000	\$ 7,330,000	\$ -
2014	0.50%	\$ 745,000	\$ 745,000	\$ 745,000	\$ -

12. Long-Term Debt

A. Capitalized Lease Obligations

The City has entered into lease agreements as lessee for financing the purchase of several assets. Such leases qualify as capital leases for accounting purposes and, accordingly, have been recorded at the present value of the minimum payments at the date of lease inception. The total cost of those assets being purchased through capital leases amount to \$3,765,000. Of that total, \$460,000 is governmental activities assets, and \$3,305,000 is business type activities assets. Below is a listing of the capital leases payable at December 31, 2015.

	Interest Rate	Balance December 31
Governmental activities		
Aerial fire truck	1.98%	\$ 118,504
Business activities		
Wastewater treatment plant	2.20%	1,582,556

The annual debt service requirements to maturity for capital lease obligations are as follows:

Year Ending Dec 31	Governmental Activities		
	Total	Principal	Interest
2016	\$ 120,890	\$ 118,504	\$ 2,386
	<u>\$ 120,890</u>	<u>\$ 118,504</u>	<u>\$ 2,386</u>

Year Ending Dec 31	Business-Type Activities		
	Total	Principal	Interest
2016	\$ 548,238	\$ 515,951	\$ 32,287
2017	548,239	527,469	20,770
2018	548,231	539,236	8,995
	<u>\$ 1,644,708</u>	<u>\$ 1,582,656</u>	<u>\$ 62,052</u>

B. General Obligation Bonds Payable

The City issues general obligation bonds to provide funds for the acquisition or construction of major capital facilities and projects. General obligation bonds have been issued for both governmental and business-type activities.

General obligation bonds payable at December 31, 2015 are comprised of the following issues:

	Interest Rates	Original Issue	Final Maturity Date	Principal Payments During 2015	Refundings	Outstanding December 31, 2015
Governmental activities:						
2005A improvements	3.70%-4.30%	\$ 885,000	2021	60,000	\$ 415,000	\$ -
2005B refunding	3.35%-4.00%	2,310,000	2019	185,000	720,000	-
2006A improvements	3.60%-4.50%	1,115,000	2021	125,000	315,000	-
2008A improvements	3.63%-4.30%	4,525,000	2026	365,000	2,595,000	-
2010A improvements	2.00%-3.10%	1,398,246	2025	248,648	-	658,258
2012A refunding	0.80%-1.60%	1,520,000	2018	340,000	-	515,000
2015A improvements	3.00%-4.00%	10,195,000	2030	-	-	10,195,000
2015B improv/taxable	1.00%-3.00%	760,000	2025	-	-	760,000
				<u>1,323,648</u>	<u>\$ 4,045,000</u>	<u>\$ 12,128,258</u>
Business-type activities:						
2010A refunding	2.00%-3.10%	\$ 4,908,093	2025	\$ 446,351	\$ -	\$ 4,461,742.00
2015A improvements	3.00%	545,000	2025	-	-	545,000
				<u>446,351</u>	<u>\$ -</u>	<u>\$ 5,006,742</u>
Grand total - general obligation bonds				<u>\$1,769,999</u>	<u>\$ 4,045,000</u>	<u>\$ 17,135,000</u>

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending Dec 31	Governmental activities		Business-type activities	
	Principal	Interest	Principal	Interest
2016	\$ 1,256,450	\$ 306,103	\$ 503,550	\$ 125,149
2017	1,221,807	328,990	513,193	116,402
2018	1,165,000	298,225	465,000	103,785
2019	1,080,000	266,825	535,000	91,973
2020	945,000	235,250	550,000	78,198
2021-2025	3,910,000	797,437	2,440,000	63,708
2026-2030	2,550,000	290,450	-	111,611
	<u>\$ 12,128,257</u>	<u>\$ 2,523,280</u>	<u>\$ 5,006,743</u>	<u>\$ 690,826</u>

C. Current and Advance Refundings

On October 27, 2015, the City issued \$10,740,000 in Series 2015A general obligation improvement and refunding bonds. Included in that issue are refunding bonds totaling \$4,020,000: a current refunding of \$1,450,000 in general obligation bonds (Series 2005A GO bonds, Series 2005B GO bonds, and Series 2006A GO bonds) and an advance refunding, \$2,595,000, of Series 2008A general obligation bonds. The net proceeds related to the advance refunding of the Series 2008A bonds were deposited into an irrevocable trust with an escrow agent to provide for future debt service payments. As a result, the Series 2008A bonds are considered to be defeased and the liability for those bonds has been removed from the Statement of Net Position. The City completed the refunding to reduce its total debt service payments by \$217,862 and to obtain an economic gain (the difference between the present value of the old and new debt service payments) of \$212,769. The net carrying amount exceeded the reacquisition price of the bonds by \$161,808. This amount is reported as a deferred inflow of resources on the government-wide Statement of Net Position and amortized over the life of the old debt, which is shorter than the life of the new debt.

D. Other Long-Term Debt

The City has an inter-local agreement with the City of Arkansas City, Kansas related to construction of a county-wide animal shelter. The agreement provides for the City of Winfield to make annual payments to Arkansas City for an agreed-upon share of the costs. The City's general fund provides funding for these payments.

Below is a summary of these liabilities at December 31, 2015:

	Governmental
	Activities
Animal shelter	\$ 64,000

The contractual payments to maturity of these interlocal agreements are as follows:

Year Ending	
Dec 31	Total
2016	\$ 32,000
2017	32,000
	<u>\$ 64,000</u>

E. Changes in Long-Term Debt

Long-term debt activity for the year ended December 31, 2015 is as follows:

	Beginning Balance	Prior Period Adjustment	Additions	Reductions	Ending Balance	Due w ithin One Year
Governmental Activities						
General Obligation Bonds	\$ 6,541,906	\$ -	\$ 10,955,000	\$ (5,368,648)	\$ 12,128,258	\$1,347,370
Capital leases	234,732	-	-	(116,228)	118,504	118,504
Temporary Notes	7,525,000	-	-	(7,525,000)	-	-
Interlocal agreement debt	96,000	-	-	(32,000)	64,000	32,000
Employee compensated absences	361,646	-	252,458	(267,807)	346,297	255,927
Net unamortized premiums/gains	9,218	-	584,260	(24,296)	569,182	52,772
Net other post employment benefits obligation	-	-	52,028	-	327,769	-
Net pension liability	-	5,739,316	717,289	-	6,456,605	-
Total long-term liabilities - governmental activities	<u>\$ 15,044,243</u>	<u>\$ 5,739,316</u>	<u>\$ 12,561,035</u>	<u>\$ (13,333,979)</u>	<u>\$ 20,010,615</u>	<u>\$1,806,573</u>
	Beginning Balance	Prior Period Adjustment	Additions	Reductions	Ending Balance	Due w ithin One Year
Business-type Activities						
General Obligation Bonds	\$ 4,908,094	\$ -	\$ 545,000	\$ (446,351)	\$ 5,006,743	\$ 503,550
Temporary Notes	550,000	-	-	(550,000)	-	-
Capital leases	2,088,244	-	-	(505,688)	1,582,556	448,550
Net unamortized premiums	36,351	-	27,611	(4,341)	59,621	6,641
Employee compensated absences	427,561	-	298,154	(301,535)	424,180	257,730
Net other post employment benefits obligation	257,974	-	37,210	-	295,184	-
Net pension liability	-	2,762,474	345,247	-	3,107,721	-
Total long-term liabilities - business-type activities	<u>\$ 8,268,224</u>	<u>\$ 2,762,474</u>	<u>\$ 1,253,222</u>	<u>\$ (1,807,915)</u>	<u>\$ 10,476,005</u>	<u>\$1,216,471</u>

Generally, compensated absences are liquidated by the specific governmental funds that pay the employees' salaries and benefits. The net investment in capital assets only includes debt related to the acquisition, construction or improvement of capital assets, not all long-term liabilities.

F. Conduit Debt Obligations

From time to time the City has issued industrial revenue bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. These are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. In 2015, \$959,880 of conduit debt was paid by the commercial entities. At December 31, 2015, there were eight series of Industrial Revenue Bonds outstanding, with an aggregate principal amount payable of \$48,780,430.

13. Interest Expense

Below is a summary of the interest expense related to debt for the fiscal year 2015:

Total	Governmental activities	Business-type activities
\$ 370,208	\$ 259,592	\$ 164,030

14. Inter-fund Transfers

Interfund transfers reflect the flow of resources from one fund to another fund, generally from the fund in which the resources are received or reside to the fund in which the resources will be expended. All transfers were budgeted transfers, transfers of resources to the funds actually expending the funds, or construction fund balances transferred to the bond and interest fund for debt repayment. Below is a summary of 2015 inter-fund cash transfers:

<u>Transfers from</u>	<u>Transfers to</u>			
	General	Bond and Interest	Capital Improv	Nonmajor Gov't'l
Primary Government:				
General	\$ -	\$ -	\$ 1,020,446	\$ 295,980
Capital Improv	75,000	671,252	-	-
Nonmajor Gov't'l	-	497,765	32,719	18
Electric	2,162,295	-	-	41,200
Gas	237,383	-	-	15,000
Water	135,791	571,912	-	39,908
Refuse	108,111	-	-	13,000
Wastewater	-	-	-	-
Stormwater	-	111,838	-	-
Total Reporting Entity	<u>\$ 2,718,580</u>	<u>\$ 1,852,767</u>	<u>\$ 1,053,165</u>	<u>\$ 405,106</u>

<u>Transfers from</u>	<u>Transfers to (continued)</u>			
	Major Enterprise	Capital Projects	Nonmajor Enterprise	Totals
General	\$ -	\$ -	\$ -	\$ 1,316,426
Capital Improvements	-	-	-	746,252
Nonmajor Governmental	-	36,193	-	566,695
Electric	833,000	-	185,000	3,221,495
Gas	71,000	-	33,000	356,383
Water	-	10,094	-	757,705
Refuse	-	-	-	121,111
Wastewater	-	25,000	-	25,000
Stormwater	-	-	-	111,838
Total Reporting Entity	<u>\$ 904,000</u>	<u>\$ 71,287</u>	<u>\$ 218,000</u>	<u>\$ 7,222,905</u>

15. Interfund Receivables/Payables

The City utilizes two internal service funds to account for utility receivables (see note 7.A.) and fleet management inventories. Advances from the general fund and the enterprise utility funds were used to create the internal service funds. These advances are considered to be long-term, and the intent is not to repay these amounts within one year. Below is a summary of the advances to the internal service funds:

	Interfund Advances from	Interfund Advances to
Governmental funds:		
General Fund	20,265	\$ -
Business-type funds:		
Electric	61,599	-
Gas	6,645	-
Water	2,969	-
Sewer	4,912	-
Subtotal	<u>96,390</u>	<u>-</u>
Nonmajor business-type funds:		
Refuse	7,620	-
Subtotal	<u>7,620</u>	<u>-</u>
Internal Service funds:		
Fleet management	-	69,998
Utility receivables financing	-	34,012
Subtotal	<u>-</u>	<u>104,010</u>
Total	<u>\$ 104,010</u>	<u>\$ 104,010</u>

16. Fund Balances

The governmental fund balance classifications and amounts at December 31, 2015, are shown in the following table:

	Total Governmental Funds	General	Bond and Interest	Capital Improvements	Other Non-major Governmental
Nonspendable:					
Advance to other funds	\$ 20,265	\$ 20,265	\$ -	\$ -	\$ -
Land held for resale	710,252	-	-	-	710,252
Cemetery	6,000	-	-	-	6,000
	<u>736,517</u>	<u>20,265</u>	<u>-</u>	<u>-</u>	<u>716,252</u>
Restricted for:					
Capital Improvements	385,759	218,132	-	167,627	-

Police/Public Safety	564,477	-	-	-	564,477
Tourism Development	44,922	-	-	-	44,922
	<u>1,764,945</u>	<u>218,132</u>	<u>525,896</u>	<u>167,627</u>	<u>853,290</u>
Committed for:					
Capital Improvements	-	-	-	-	-
Cemetery Improvements	76,959	-	-	-	76,959
Fairgrounds Improvements	119,973	-	-	-	119,973
Streets Maintenance	137,358	-	-	-	137,358
Water Quality Programs	115,960	-	-	-	115,960
	<u>450,250</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>450,250</u>
Assigned for:					
2016 budgeted expenses	950,946	976,043	-	-	(25,097)
Totals	<u>\$ 3,902,658</u>	<u>\$ 1,214,440</u>	<u>\$ 525,896</u>	<u>\$ 167,627</u>	<u>\$ 1,994,695</u>

17. Encumbrances

The City uses encumbrances to control expenditure commitments for the year and to enhance cash management. Encumbrances represent commitments related to executed contracts not yet performed and purchase orders not yet filled. Commitments for such expenditure of monies are encumbered to reserve portion of applicable appropriations. Encumbrances still open at year-end are not accounted for as expenditures and liabilities, but as restricted, committed, or assigned fund balance. As of December 31, 2015 the City's recorded encumbrances were as follows:

	General fund	\$ 82,478
	Capital Improvements	31,920
NonMajor Funds:		
	Special streets and highway	13,980
	Tourism and convention	8,178
	Capital Project Funds	228,648
Business-type Funds:		
	Electric utility fund	255,531
	Water utility fund	1,603
	Refuse utility fund	6,105
	Wastewater utility fund	799
	Electric Depreciation fund	99,831
Internal Service funds:		
	Management Services	49,023
	Total entity-wide encumbrances	<u>\$ 778,096</u>

18. Defined Benefit Pension Plan

A. General information about the pension plan

Description of pension plan. The City participates in a cost-sharing multiple-employer defined benefit pension plan (Pension Plan), as defined in Governmental Accounting Standards Board Statement No. 67, *Financial Report for Pension Plans*. The Pension Plan is administered by the Kansas Public Employees Retirement System (KPERS), a body corporate and an instrumentality of the State of Kansas. KPERS provides benefit provisions to the following statewide pension groups under one plan, as provided by K.S.A. 74, article 49:

- Public employees, which includes state/school employees and local employees
- Police and firemen
- Judges

Substantially all public employees in Kansas are covered by the Pension Plan. Participation by local political subdivisions is optional, but irrevocable once elected.

Those employees participating in the Pension Plan for the City are included in both the Local employees group and the Police and Firemen employee group.

KPERS issues a stand-alone comprehensive annual financial report, which is available on the KPRS website at www.kpers.org.

Benefits Provided. KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Benefits are established by statute and may only be changed by the Kansas Legislature. Member employees (except police and firemen) with ten or more years of credited service may retire as early as age 55 (police and firemen may be age 50 with 20 years of credited service), with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever an employee's combined age and years of credited service equal 85 points (police and firemen normal retirement ages are age 60 with 15 years of credited service, age 55 with 20 years, age 50 with 25 years, or any age with 36 years of service).

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. For all pension coverage groups, the accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Member employees choose one of seven payment options for their monthly retirement benefits. At retirement a member employee may receive a lump-sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas.

The 2012 Legislature made changes affecting new hires, current members and employers. A new KPERS 3 cash balance retirement plan for new hires starting January 1, 2015, was created. Normal retirement age for KPERS 3 is 65 with five years of service or 60 with 30 years of service. Early retirement is available at age 55 with ten years of service, with a reduced benefit. Monthly benefit options are an annuity benefit based on the account balance at retirement.

For all pension coverage groups, the retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

B. Contributions.

K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contributions rates. KPERS has multiple benefit structures and contribution rates depending on whether the employee is a KPERS 1, KPERS 2 or KPERS 3 member. KPERS 1 members are active and contributing members hired before July 1, 2009. KPERS 2 members were first employed in a covered position on or after July 1, 2009, and KPERS 3 members were first employed in a covered position on or after January 1, 2015. Effective January 1, 2015, Kansas law established the KPERS member-employee contribution rate of 6% of covered salary for KPERS 1, KPERS 2 and KPERS 3 members. K.S.A. 74-4975 establishes the Police and Firemen (KP&F) member-employee contribution rate at 7.15% of covered salary. Member contributions are withheld by their employer and paid to KPERS according to the provisions of Section 414(h) of the Internal Revenue Code.

State law provides that the employer contribution rates are determined based on the results of an annual actuarial valuation for each of the three state-wide pension groups. The contributions and assets of all groups are deposited in the Kansas Public Employees Retirement Fund established by K.S.A. 74-4921. KPERS is funded on an actuarial reserve basis.

For KPERS fiscal years beginning in 1995, Kansas legislation established statutory limits on increases in contribution rates for KPERS employers. Annual increases in the employer contribution rates related to subsequent benefit enhancements are not subject to those limitations. The statutory cap increase over the prior year contribution rate is 1.0% of total payroll for the KPERS fiscal year ended June 30, 2015.

The actuarially determined employer contribution rate (not including the 0.85% contribution rate for the Death and Disability Program) and the statutory contribution rate were 9.48% for KPERS and 21.36% for KP&F for the year ended December 31, 2015. Contributions to the Pension Plan from the City were \$666,673 for KPERS and \$705,623 for KP&F for the year ended December 31, 2015.

C. Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions

At December 31, 2015, the City reported a liability of \$5,075,730 for KPERS and \$4,488,598 for KP&F for its proportionate share of the KPERS collective net pension liability. The collective net pension liability was measured by KPERS as of June 30, 2015, and the total pension liability used to calculate the collective net pension liability was determined by an actuarial valuation as of December 31, 2014, which was rolled forward to June 30, 2015.

Although KPERS administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group.

Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are determined separately for each of the following groups of the plan:

- State/school
- Local
- Police and firemen
- Judges

To facilitate the separate (sub) actuarial valuations, KPERS maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer and nonemployer allocations are applied to amounts presented in the schedules of pension amounts by employer and nonemployer. The City's proportion of the collective net pension liability was based on the ratio of the city's actual contributions to KPERS and KP&F, relative to the total employer and nonemployer contributions of the Local group and Police and Firemen group within KPERS for the KPERS fiscal year ended June 30, 2015. The contributions used exclude contributions made for prior service, excess benefits and irregular payments. At June 30, 2015, the City's proportion of KPERS was .386562%, which was an increase of .007722% from its proportion measured as of June 30, 2014. At June 30, 2015, the city's proportion for KP&F was .618164%, which was an increase of .032813% from its proportion measured as of June 30, 2014.

For the year ended December 31, 2015, the City recognized pension expense of \$311,733 for KPERS and \$433,343 for KP&F. At December 31, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred outflows of resources	Deferred inflows of resources
Difference between expected and actual experience	\$ 40,961	\$ 218,817
Net difference between projected and actual earnings on pension plan investments	-	340,126
Changes of assumptions	-	115,824
Changes in proportionate share	308,743	238,365
City contributions subsequent to measurement date	698,934	-
Totals	<u>\$ 1,048,638</u>	<u>\$ 913,132</u>

The \$698,934 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30,	
2016	\$ (255,949)
2017	(255,949)
2018	(255,949)
2019	191,962
2020	<u>72,458</u>
Total	<u>\$ (503,427)</u>

D. Actuarial assumptions

The total pension liability for KPERS in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

- Price inflation 3.00 percent
- Wage inflation 4.00 percent
- Salary increases, including wage increases 4.00 to 16.00 percent, including inflation
- Long-term rate of return net of investment expense, and including price inflation 8.00 percent

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the December 31, 2014 valuation were based on the results of an actuarial experience study conducted for the three year period ending December 31, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Pension Plan's target asset allocations as of June 30, 2015 are summarized in the flowing table:

Asset class	Target allocation	Long-term expected real rate of return
Global equity	47%	6.30%
Fixed income	13%	0.80%
Yield driven	8%	4.20%
Real return	11%	1.70%
Real estate	11%	5.40%
Alternatives	8%	9.40%
Short-term investments	2%	-0.50%
Total	100%	

E. Discount rate

The discount rate used by KPERS to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the contractually required rate. The Local employers do not necessarily contribute the full actuarial determined rate. Based on legislation passed in 1993, the employer contribution rates certified by the KPERS Board of Trustees for this group may not increase by more than the statutory cap. The expected KPERS employer statutory contribution was modeled for future years, assuming all actuarial assumptions are met in future years. Employers contribute the full actuarial determined rate for KP&F. Future employer contributions rates were also modeled for KP&F, assuming all actuarial assumptions are met in future years. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available for make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

F. Sensitivity of the City's proportionate share of the collective net pension liability to changes in the discount rate.

The following presents the City's proportionate share of the collective net pension liability calculated using the discount rate of 8.00%, as well as what the City's proportionate share of the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate:

	1% decrease 7.00%	Current discount rate 8.00%	1% increase 9.00%
City's KPERS proportionate share of the collective net pension liability	\$7,205,268	\$5,075,730	\$3,270,300
City's KP&F proportionate share of the collective net pension liability	\$6,518,229	\$4,488,598	\$2,774,253
	<u>\$13,723,497</u>	<u>\$9,564,328</u>	<u>\$6,044,553</u>

G. Pension plan fiduciary net position.

Detailed information about the Pension Plan's fiduciary net position is available in the separately issued KPERS financial report.

H. Prior period adjustment.

The implementation of GASB 68 resulted in a \$8,501,790 increase to the net pension liability, a \$803,169 increase to deferred outflows, a \$2,107,338 increase to deferred inflows and a \$9,805,958 decrease to net position as of December 31, 2014.

19. Defined Contribution Plan

The City established a 401(a) money purchase deferred compensation plan in 2004 for the benefit of employees. Employees, who have reached the top step in their position's pay range, and make a minimum contribution of \$20 per pay period into the City-sponsored 457 plan, are eligible for employer contributions into the 401(a) plan. The plan provides that the City make a matching contribution, up to \$20 per pay period. The City contributed \$58,100 to employee accounts in 2015. The City of Winfield administers the plan, and has the authority for establishing and amending the plan's provisions and contribution requirements. Employees have the option of investing contributions in ING Life Insurance and Annuity Company investments (Empower) or ICMA-RC investments.

20. Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. Employees may choose between the VOYA 457 plan, or the ICMA plan. The plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. Assets of the plan, valued at current market prices, are held in trust for the benefit of the participants.

All amounts of compensation deferred under the plan as well as earnings attributable to those amounts, are solely the property of the participant employees. Accordingly, the assets and related liabilities for the plan are not recorded in the accompanying financial statements. Flexible Benefit Plan (I.R.C. Section 125). The City Commission has adopted by resolution a salary reduction flexible benefit plan ("Plan") under Section 125 of the Internal Revenue Code. All permanent full-time employees are eligible to participate in the Plan beginning after one full month of employment. Each participant may elect to reduce his or her salary to purchase benefits offered through the Plan. Benefits offered through the Plan include various and disability benefits.

21. Postemployment Health Care Plan

Plan Description

The City sponsors a single-employer defined benefit healthcare plan that provides healthcare benefits to eligible early retirees, including medical and dental coverage. K.S.A. 12-5040 requires all local governmental entities in the state that provide a group health care plan to make participation available to all retirees and dependents until the retiree reaches the age of 65 years. No separate financial report is issued for the Plan.

The City requires retirees to pay the same premiums charged to COBRA participants with a 2% additional charge for administrative expenses. The rates being paid by retirees for benefits are typically lower than those for individual health insurance policies. The difference between these amounts is the implicit rate subsidy, which is considered other post employment benefits (OPEB) under Governmental Accounting Standards Board Statement No. 45 (GASB Statement 45).

Retirees and spouses have the same benefits as active employees. Retiree coverage terminates either when the retiree becomes covered under another employer health plan, or when the retiree reaches Medicare eligibility age which is currently age 65. Spousal coverage is available until the retiree becomes covered under another employer health plan, attains Medicare eligibility age, or dies.

Funding Policy

GASB Statement 45 does not require funding of the OPEB liability, and the City has chosen not to fund it. City policy dictates the payment of retiree claims as they become due. Plan participants contributed approximately \$85,000 to the Plan (102% of total premiums) through their required contribution of \$1,058 per month for family coverage and \$458 for retiree-only coverage.

Annual OPEB Cost and Net OPEB Obligation

The City's annual OPEB cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. GASB Statement 45 requires an actuarial study to be performed at a minimum biennially. The latest actuarial valuation date is January 1, 2014. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years.

The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation to the Plan:

Annual required contribution (ARC)	\$ 138,482
Interest on net OPEB obligation	22,224
Adjustment to annual required contribution	<u>28,914</u>
Annual OPEB cost (expense)	131,792
Contributions, net	<u>(42,557)</u>
Change in net OPEB obligation	89,235
Net OPEB obligation - beginning of year	<u>533,716</u>
Net OPEB obligation - end of year	<u>\$ 622,951</u>

The following table shows the breakdown of the City's annual OPEB liability:

Governmental funds	\$ 327,767
Proprietary funds	<u>295,184</u>
Total	<u>\$ 622,951</u>

Funded Status and Funding Progress

The city's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the year ended December 31, 2015 was as follows:

Fiscal Year Ended	Annual OPEB Cost	Net Employer Contributions	Percentage of OPEB Contributions	Net OPEB Obligation
12-31-2008	\$96,300	\$ 18,334	19.04%	\$ 77,966
12-31-2009	18,334	-	0.00%	96,300
12-31-2010	115,269	28,678	24.88%	182,891
12-31-2011	115,269	28,678	24.88%	269,482
12-31-2012	126,325	38,825	30.73%	356,982
12-31-2013	126,325	38,825	30.73%	444,482
12-31-2014	131,791	42,557	32.29%	533,716
12-31-2015	131,791	42,557	32.29%	622,951

As of January 1, 2014, the most recent actuarial valuation date, the plan was not funded. The actuarial liability for benefits was \$1,132,796, and there was no actuarial value of assets resulting in an unfunded actuarial accrued liability of \$1,132,796. The covered payroll (annual payroll of active employees covered by the plan) was \$6,774,798, and the ratio of unfunded actuarial accrued liability to the covered payroll was 16.7 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, present multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2014 actuarial valuation, the projected unit credit method was applied. The actuarial assumptions included a 5 percent investment rate of return, which is a blended rate of the expected long-term investment returns on the City's pooled funds and investments. The valuation assumed annual healthcare cost trend rates of seven percent in years 2014, and an ultimate rate of five percent after 2021. Salaries expense and inflation are projected to increase four percent annually. The valuation followed generally accepted actuarial methods and included tests as considered necessary to assure the accuracy of the results. The UAAL is being amortized as a level dollar over an open thirty-year period.

22. Risk Management

The City's insurance coverage consists of both self-insurance and policies maintained with various carriers. The City uses four internal service funds to address four risk areas – general risk management, workers' compensation, health insurance, and short-term disability insurance. The City records liabilities for known claims and estimated liabilities incurred but not reported at year-end. These claims are reflected under accounts payable and accrued liabilities in the internal service funds.

A. Risk Management Reserve

Established in 1987 according to the provisions of K.S.A. 12-2615, this fund provides for paying for insurance premiums, deductibles, excess liability losses, uninsured losses, and insurable losses not otherwise covered. Insurance deductibles vary by type of property insurance coverage. Funding, when determined necessary, for the risk management reserve fund, is provided by annual contributions from other City functions that have an insurable risk based on actuarial computations, provided by an insurance consultant. The City purchases commercial insurance coverage for all substantial areas of risk, including property loss, auto liability, boiler and machinery, general and public officials' liability. Insurance policy premiums are paid through both individual funds and the risk management fund. Insurance settlements did not exceed insurance coverage in 2015 or the prior two years.

The following is a summary in changes of liability activity under the plan for 2015 and the prior two years:

	2015	2014	2013
Liability balance, beginning	\$ -	\$ -	\$ 2,949
Claims	14,555	5,936	21,924
Less insurance/other reimbursements	(11,236)	(11,872)	(46,797)
Total costs incurred	3,319	(5,936)	(21,924)
Less claims paid	3,319	5,936	21,924
Liability balance, ending	\$ -	\$ -	\$ -

B. Workers Compensation

Prior to 2011, the City maintained a partially self-funded workers' compensation program to cover substantially all full-time and part-time City employees. In 2011, the City joined Kansas Eastern Region Insurance Trust (KERIT), a self-funded insurance risk pool, and claims for 2011 and forward are handled by KERIT. KERIT is comprised of eighteen government entities within the State of Kansas. It is organized

under the pooling laws of Kansas, is a risk sharing pool which self-insures, up to certain limits, and reinsures additional excess amounts up to certain limits, workers' compensation and other related expenses. The City pays annual premiums to KERIT based on historical experience and legal requirements mandated by the State of Kansas and participates in management decisions as a trustee. Members of the trust may be assessed additional premiums to cover losses up to the attachment point of excess coverage, and for losses in excess of the aggregate loss limit of \$5,000,000 in a particular year. The City has not been involved in any settlements where the amounts exceeded insurance coverage in the past three years.

C. Health Insurance Reserve

The City created the health insurance reserve in 1993, the purpose to accumulate monies to eventually fund a partially self-insured health insurance program. Funds accumulated may be used to pay excess losses, health claims, partial payments of health insurance premiums for employees, and other miscellaneous health insurance related expenses. Annual funding is provided by contributions from other funds, as determined by management in the budgeting process. Health insurance premiums are paid through this reserve fund, and funding is handled through contributions from other funds. The employee health insurance program is a fully insured program with health insurance offered to substantially all full-time employees of the City. Employee health insurance in 2015 was provided through Blue Cross Blue Shield. At December 31, 2015, the City had \$111,348 of net position available for future health insurance premiums. The funds are being retained to stabilize projected premium increases and provide a reserve, if the City should choose to self-insure in the future.

D. Short Term Disability Reserve

This reserve was created in 1997 to provide financial assistance to regular employees following sixty days of continuous disability. The benefit amounts to 50% of pre-disability weekly gross earnings up to a maximum weekly benefit of \$650, and is payable to an employee for a maximum of twenty-six weeks immediately following completion of the sixty-day waiting period. An employee may receive this benefit for a maximum of fifty-two weeks over his/her career with the City. At December 31, 2015, the City had \$208,089 of net position available for short term disability benefits to employees.

23. Contingencies and Commitments

A. Electric Purchase Commitments

Kansas Power Pool

The City became a member of the Kansas Power Pool (KPP), a municipal energy agency, in January of 2005. KPP was created to provide economic benefits to its member cities, through coordination of collective electrical resources, facilities and loads. The city has power supply contracts with the Kansas Municipal Energy Agency (KMEA) for power supply from the Grand River Dam Authority (GRDA), and the Kansas City, Kansas Board of Public Utilities' Nearman Generation. The scheduling responsibilities for those contracts and the City's contract with the Southwestern Power Administration (SPA) have been assigned to KPP. That agency manages power supply on behalf of the City. The contracts with KMEA for GRDA Power and for Nearman Generation were in force through December 31, 2015 and May 31, 2018, respectively. KPP has entered into transmission arrangements with the Southwest Power Pool on behalf of the City. The City terminated its SPA power supply arrangement through KMEA in 2010, and entered into a contract directly with SPA. This contract is in force through May 31, 2025. In September 2011, the City entered into a twenty-year power purchase contract with KPP, to purchase all of the City's required electrical power.

The payment and scheduling responsibilities under all these contracts have all been assigned to KPP, and all billings and payments are handled through KPP. Payment responsibility for each of these contracts remains with the city for the full term of each contract and would be under the respective contract conditions should the city withdraw from KPP.

B. Kansas Disability Coalition Interim Settlement Agreement

The City was party to a lawsuit initiated by the Kansas Disability Coalition in 2006, and agreed to an interim settlement in August 2006. The provisions of the agreement require the City to achieve reasonable compliance with Title II of the American with Disabilities Act of 1990. A final court-approved agreement will be reached after the City completes and adopts a self-evaluation and transition plan for ADA compliance. Implementation of the transition plan will be over a 10 year period. At December 31, 2015, the City has expended \$1,029,934 in costs related to this plan.

24. Subsequent Events

Management has performed an analysis of the activities and transactions subsequent to December 31, 2015, to determine the need for any adjustments to and/or disclosures within the audited financial statements. Management has performed their analysis through September 29, 2016, which is the date at which the financial statements were available to be issued.

Beth Wilke, city commissioner, resigned her position effective July 5, 2016. The City Commission appointed Ron Hutto to fill the position for the remainder of the term.

The City of Winfield Commission authorized the issuance and sale of \$925,000 in general obligation temporary note, Series 2016-1 on June 20, 2016. The temporary notes have a stated maturity date of August 2018, 1.00% interest rate. The temporary notes are subject to redemption and payment prior to maturity on January 1, 2017, and thereafter, as a whole or in part, with 30 days notice prior to the redemption date.

Supplementary
Information

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted by either the City Commission or by outside entities for expenditures for specific purposes.

Flood Control – Maintenance costs of the flood levee are paid from this fund.

Special Parks and Recreation – Park and park equipment upgrades are paid from this fund. K.S.A. 79-49a102 requires one-third of the 10% gross receipts tax on the sale of alcoholic liquor be deposited into this fund for park enhancements.

Special Alcohol Program – Transfers are made from this fund to the City's D.A.R.E. Program fund. K.S.A. 79-49a102 requires one-third of the 10% gross receipts tax on the sale of alcoholic liquor to be deposited into this fund for expenses of drug and alcohol education, treatment, or prevention programs.

Law Enforcement Trust – K.S.A. 60-4117 requires the City to deposit the net proceeds of sales of forfeited property and moneys related to controlled substances activities to be deposited into a separate fund. Appropriations from this fund are not to be used to meet normal operating expenses of the police department. The statute defines allowable expenditures.

Water Preservation – Created in 2004 to provide funding for programs to protect the upstream quality of water flowing into the Winfield City Lake, the primary water source for the City of Winfield. A portion of annual lake permit fees and two cents for every one-thousand gallons of water usage billed provide the revenue sources for this fund.

Senior Citizen Facility – Senior Citizen Center expenses are paid from this fund. Funds are received from the Cowley County Council on Aging for this purpose.

Special Liability – City and City employee legal defense costs and various uninsured risk costs may be paid from this fund. Under K.S.A. 75-6110, the City levies property taxes to provide funding for this purpose.

Ambulance & Fire Equipment – K.S.A 12-110d. required the City to create a special reserve fund for the replacement of ambulance or emergency medical service equipment.

Special Streets and Highway – Street and highway-related maintenance expenses are paid from this fund. The State of Kansas gasoline tax allotments are the primary funding source, and must be used for this purpose.

Industrial Development – Industrial and economic development related expenses are paid from this fund. Kansas statutes authorize the City to levy property taxes to provide funding for this purpose.

Tourism and Convention – Local tourism and convention promotional expenses are paid from this fund. Transient guest taxes are the primary funding source, received through the State of Kansas.

Fairgrounds Improvements – Cowley County Fairgrounds maintenance and improvement expenses may be paid from this fund. Fairgrounds facilities usage fees are the primary funding source.

Drug Task Force – Cowley County and the cities of Arkansas City and Winfield share drug task force duties within Cowley County, and utilize this fund to centrally manage and share drug task forces costs and funding sources.

Cemetery Improvement – Cemetery operations and maintenance expenses may be paid from this fund. One-third of the sales proceeds of each cemetery space and "pre-need" payments are the primary funding sources.

Public Library – Property taxes are levied for library operations. The City receives these collections from Cowley County, and remits to the Winfield Public Library, to be used for library operations.

Equipment Reserve – Transfers from other funds are accumulated to this fund, to provide for future equipment purchases.

Grants and Contributions – Federal and state grants and contributions from private enterprise for general government type projects are funneled through this fund, for tracking and compliance purposes.

NONMAJOR GOVERNMENTAL FUNDS (continued)

Alcohol and Drug Safety Action – Assessment fees collected by the municipal court in accordance with K.S.A. 8-1008, for alcohol or drug related charges, are deposited into this fund. Moneys are to be used only for court expenses involved in administering the provisions of the statute.

Barr Police Building – The City received a \$542,972 bequest in 2015, restricted for use of police improvements.

Capital Project Funds

Capital project funds are used to account for the acquisition and construction of major facilities, and for building and general improvements of city-owned structures and facilities, other than those financed by special revenue and enterprise funds.

Geometric Klink Main Street – A street resurfacing project on a main trafficway of the city. KDOT will be reimbursing a portion of the project, and the balance was financed by the city through general obligation bonds. The project is anticipated to be completed in 2016.

Stewart Street Improvement – A street and utility improvement project between 9th and 14th street in Winfield financed with general obligation temporary note proceeds, and completed in 2015.

Golf Course Station Improvements – A golf course pump replacement project. This project was financed with general obligation temporary notes in 2014, and completed in 2015.

Gottlob Business Park – In April 2012, the City established Gottlob Business Park, an industrial and economic development project of approximately 100 acres. General Obligation Temporary Notes in addition to a state capital grant was used to finance this project, and was complete in 2015.

Library Parking Lot Improvements – A renovation of the City library parking lot. This project was financed with general obligation temporary notes in 2014, and anticipated to be completed in 2015.

Country Club Villa Improvements – Future sewer line expansion to areas surrounding the Winfield Country Club.

Water Treatment Plant Improvements – A renovation to the water plant. This project was financed with general obligation temporary notes in 2014, and completed in 2015.

East Ninth Resurfacing Project – A street resurfacing project. This project was financed with general obligation temporary notes in 2014, and completed in 2015.

2014 Capital Equipment – The City issued debt to make several equipment purchases in 2014.

2015 KLINK – A street resurfacing project on a main trafficway of the City. This project was financed with general obligation temporary notes in 2014, and completed in 2015.

Vaughn Tennis Courts – The City entered into an agreement with the Unified School District 465, Southwestern College, and the Winfield Recreation Commission to expand and improve the tennis court facilities located on the south end of Whittier Elementary school. The project was completed in 2015, and the remaining funds are donor funds.

EMS Ambulance Fund – The City issued general obligation temporary notes to finance a new ambulance, which was purchased in 2015. The City acquired Winfield Area EMS in 2014 and the purchase was part of replacing aging EMS fleet.

Public Needs Safety Study – The City authorized a \$100,000 project in 2015, to determine a long term solution for police, fire, and ambulance facilities.

12th Avenue Project – Infrastructure improvements to a portion of 12th Avenue are planned for 2016 completion.

Permanent Fund

Cemetery Endowment – This endowment from a citizen prohibits the use of the principal, and only the investment earnings can be used for cemetery improvements.

NONMAJOR ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the City Commission is to finance or recover the costs of providing goods or services to the general public on a continuing basis primarily through user charges; or the City Commission has decided that periodic determination of net income is appropriate for accountability purposes.

Refuse - The Refuse Fund is used to account for revenues and expenses related to the operation and maintenance of the refuse collection and recycling programs operated by the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, and capital improvements. In addition, a pro-rata portion of administration, utility billings, and collection expenses are charged to this fund from the management services fund.

Stormwater Drainage – The stormwater drainage fund was established in 1996 to fund major drainage projects throughout the City. Stormwater drainage fees are charged to city utility customers through the utility bills.

Quail Ridge Golf Course - Quail Ridge Golf course is an eighteen hole golf course owned and operated by the City. The golf course revenues consist of memberships, rounds fees, cart rentals, and driving range fees.

Wastewater Depreciation - The wastewater depreciation fund was established in 2014 to create a reserve to replace aging infrastructure of our wastewater utility.

INTERNAL SERVICE FUNDS

The Internal Service Funds are used to account for services performed by one governmental department to other departments of the City on a cost-reimbursement basis, and for risk financing activities.

Management Services – The Management Services Fund is a cost center for the City engineering, management information systems, utility billing, and general administration departments' expenses. These expenses are charged to other City funds based on several criteria and ratios.

Service Center – The Service Center Fund is a cost center for the City operations building and its equipment and for the service center department activities. The building and equipment maintenance costs are charged to other City funds on square footage. The service center charges other departments based on usage.

Risk Management Reserve – The Risk Management Reserve Fund pays for deductibles, excess liability losses, uninsured losses, and insurable losses not otherwise covered by commercial insurance. Funding is provided by annual contributions from other city funds that have an insurable risk, based on actuarial computations provided by an insurance consultant. The City purchases commercial insurance coverage for all substantial areas of risk, including property loss, auto liability, boiler and machinery, general and public officials' liability. Individual funds pay their portions of insurance policy premiums that are recorded as expenditures/expenses in those funds.

Workers' Compensation Reserve – The Workers' Compensation Reserve Fund accounts for all workers' compensation-related claims, judgments, and expenses through Sept 24, 2011. At this time, the City purchased workers' compensation insurance to cover all future claims. The City's workers' compensation program was a partially self-funded program covering substantially all full-time and part-time employees of the City. Funding has been provided by annual contributions from other city functions that have an insurable risk, based on actuarial computations provided by an insurance consultant.

Health Insurance Reserve – The Health Insurance Reserve Fund was created to eventually fund a partially self-insured health insurance program. The fund currently is used to pay a portion of employee health insurance premiums.

Short Term Disability Reserve – The Short Term Disability Reserve Fund provides up to twenty-six weeks of financial assistance to City full-time employees following sixty days of continuous disability.

Statistical Section

STATISTICAL SECTION

The statistical section presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

	Page
Financial trends information helps the reader understand how the City's financial performance and well-being have changed over time.	H-2
Revenue capacity information is intended to help the reader assess the factors affecting the City's ability to generate property and sales tax.	H-12
Debt capacity schedules present information to help the reader assess the affordability of the City's current outstanding debt and the City's ability to issue additional debt in the future.	H-16
Demographic and economic indicators are offered to help the reader understand the environment within which the City's financial activities take place and to help make comparisons across time.	H-24
Operating information about the City is provided to help the reader understand how the City's financial information relates to the services provided and the activities the City performed.	H-26

September 29, 2016

To the City Council
City of Winfield,
Winfield, Kansas 67156

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of The City of Winfield for the year ended December 31, 2015. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and OMB Circular A-133), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated November 23, 2015. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by The City of Winfield, Winfield, Kansas are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2015. We noted no transactions entered into by The City of Winfield, Winfield, Kansas during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the City of Winfield's financial statements were:

Management's estimate of the provision for uncollectible accounts is based on seven year historical data for utility related receivables, which may not equal actual collections. We evaluated the key factors and assumptions used to develop the estimate of uncollectible utility accounts in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of provision for uncollectible accounts and provision for contractual adjustments is based on 55% of the total amount billed. We evaluated the key factors and assumptions used to develop the estimates in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the estimated useful lives of property, plant, and equipment for depreciation is based on straight line depreciation life categories, and actual life of assets may differ. We evaluated the key factors and assumptions used to develop the estimated useful lives of depreciation of capital assets in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the contingencies and commitments is based on management awareness of actual events as of December 31, 2015. We evaluated the key factors and assumptions used to develop the estimate of any contingencies and commitments outstanding at year end in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the employee compensated absences is based on calculations of balances of hours and rates present at December 31, 2015. We evaluated the key factors and assumptions used to develop the employee compensated absences liability in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the accounts payable, encumbrances, accrued payroll and payroll liabilities is based on activity received in the subsequent months. We evaluated the key factors and assumptions used to develop the estimate of accounts payable, encumbrances, accrued payroll and payroll liabilities in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure(s) affecting the financial statements were:

The disclosure of Depreciation Allocations in Note 9 to the financial statements was written without any significant issue and judgments necessary in formulating the disclosure. Depreciation expense is recorded by the governmental activity or business-type activity that has the capital asset placed in service.

The disclosure of Long Term Debt in Note 12 to the financial statements was written without any significant issue and judgment necessary in formulating the disclosure. The activity and ending balances of the long term debt instruments were summarized.

The disclosure of Changes in Capital Assets in Note 8 to the financial statements was written without any significant issues and judgments necessary in formulating this disclosure. The activity and ending balance of the Government activities and Business Activities assets were presented.

The disclosure of Pooled Cash Deposits and Investments in Note 6 to the financial statements was written without significant issues and judgments necessary in formulating the disclosure. A summary of cash balances and collateral held is presented, along with a description of the risk associated with the balances.

The disclosure of Receivables in Note 7 to the financial statement was written with an estimation of the provision for uncollectible accounts based off historical data. Actual collections may not equal the estimations.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. The Following material misstatements detected as a result of audit procedures were corrected by management:

GAAP revenue	403.000.371000.0000000	351,230

<i>JE to adjust 2015 WTB to actual 12-31-2015 pension balances:</i>			

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 29, 2016.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to The City of Winfield, Winfield, Kansas's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as The City of Winfield, Winfield, Kansas's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Audit Findings

- There were posting errors that affected cash that were discovered during the audit fieldwork that were corrected, however at the end of the year \$8,315 was unable to be reconciled and per management decision was adjusted.
- There were no controls in place to monitor ambulance accounts receivable billings and payments through third party bill in 2015.

Other Matters

We applied certain limited procedures to the management's discussion and analysis and required supplementary information listed in the Table of Contents, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the combining and individual nonmajor fund financial statements and schedules, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the introductory and statistical sections, which accompany the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the use of City Council and management of The City of Winfield, Winfield, Kansas and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Jarrett & Norton CPAs, LLC

September 29, 2016

To the City Council and City Manager
City of Winfield
Winfield, Kansas 67156

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of The City of Winfield, Winfield, Kansas as of and for the year ended December 31, 2015, in accordance with auditing standards generally accepted in the United States of America, we considered The City of Winfield's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of The City of Winfield's internal control. Accordingly, we do not express an opinion on the effectiveness of The City of Winfield's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiencies in internal control to be material weaknesses:

- There were no controls in place to monitor ambulance accounts receivable billings and payments through third party billing Mediclaims, Inc. in 2015.
- There was an unresolved cash variance in the cash balance of \$8,315, per management decision was adjusted.
- A contract for paving of the Library parking lot in the amount of \$64,909 was signed in 2015 and not completed at year end. This amount was not encumbered at year end.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in internal control to be significant deficiencies:

- A monthly treasurer's report was not provided to the commission throughout most of 2015.
- Financial statements were published in the local newspaper as required quarterly, however it was noted that several funds had negative cash balances. The city is required to keep unencumbered cash balance at not below zero in each individual fund at all times.
- The accounting office should maintain a copy of all grants, to determine what assurances must be followed, and special attention to track Federal grants receipts and expenditures.

This communication is intended solely for the information and use of management The City Council, City of Winfield, Kansas, and others within The City of Winfield, and is not intended to be, and should not be, used by anyone other than these specified parties.

September 29, 2016

To the City Manager, City Clerk/Director of Finance, and City Treasurer
City of Winfield
Winfield, Kansas 67156

Dear Warren, Brenda and Kim:

We have issued our Audit Report for the December 31, 2015 audit of the City of Winfield, Winfield, Kansas. During the course of our fieldwork, we noted the following items for management's attention.

Miscellaneous Items

Issue: Centralized tracking of federal grants revenues and expenses was not maintained. (1) An example would be the Department of Justice – Bulletproof Vest funds were not tracked for receipts and expenditures. At year end, staff could not provide a complete summary of federal grant activity.

Recommendation: The Treasurer should maintain a copy of all grants, to determine what assurances must be followed. The federal grant's revenues and expenses should be tracked in the accounting system with separate g/l accounts.

Issue: A schedule of judgement liability from Thomas McGee was not obtained at year end, for entry to the general ledger.

Recommendation: Human resources should obtain at year end from Thomas McGee to determine the following judgement liability for claims when the City was self insured, which is comprised of: reserved medical, reserved indemnity, reserved expense, and reserved legal. This should be communicated to the treasurer.

Issue: Documentation for journal entries was not easily accessible.

Recommendation: Support for journal entries should be scanned into GEMS with the journal entry made.

Issue: Sales tax reporting and sales tax remittances were not completed by the monthly deadlines in 2015.

Recommendation: This responsibility should be assigned to the accounting department staff, and monitored for timely reporting and sales tax submission.

Issue: Miscellaneous accounts receivable on the general ledger totals \$141,093. The balance is comprised of amounts from multiple years including 2006 and 2008 by customer

Recommendation: Documentation of monitoring of the accounts at least annually should be made to determine collectability.

Commission Items

Issue: The Treasurer's reports were not provided to the commission on a monthly basis in 2015.

Recommendation: Accurate monthly treasurer reports should be provided monthly to the commission, to act as a detective control.

Compliance with Kansas Statutes

Issue: Financial statements were published in the local newspaper as required quarterly for first and second class cities (K.S.A. 12-1608). It was noted in multiple quarters, that several funds had negative cash balances.

Recommendation: A control should be added to ensure publication made as required by Kansas Statute, and transfers were made to correct the negative cash balances prior to quarter end.

Bank Reconciliation

Issue: There was \$8,315.30 in an unresolved variance in the cash balance

Recommendation: Bank statements should be reconciled at the end of each month. An audit adjusting journal entry was made to adjust cash at year end.

Issue: Three vendor checks are outstanding for longer than three years, K.S.A. 10-816 states that warrants and checks for two years or more to be cancelled and restored to the fund originally charged.

Recommendation: Resolve stale outstanding checks timely. Annually submit items to unclaimed property with the State of Kansas.

Issue: There was 82,296.72 utility deposit posted in the bank for the Correctional Facility, not posted in GEMS until February 2016.

Recommendation: A report should be generated out of InHance to show all utility payments received by day, compared to what was deposited, and further compared to the general ledger entry made daily.

Issue: There was a journal entry made for \$28,817.81 to adjust the receivable for credit cards.

Recommendation: A report should be downloaded out of iCloud sorted by date, and further grouped by processor card type (i.e. Discover, VISA or American Express). This extracted report should be used to reconcile the EFT and credit card payments as the deposited into the bank account over a period of days.

Mediclaims, Inc. Revenue

Issue: Some accounting complimentary entity user controls were not implemented by the City as suggested by the Mediclaims, Inc. Report on Controls Placed in Operation as of June 30, 2015. See page 18 of the report obtained from Mediclaims, Inc. for a complete list of controls they suggest.

Recommendation: On a monthly basis, the Mediclaims reports should be reconciled to the City records:

- A ledger of claims sent to Mediclaims for processing should be maintained by City Hall staff, and each month reconciled to the Mediclaims reports.
- The cash revenues in the general ledger should be reconciled each month to the Mediclaims reports.
- Maintain a monthly spreadsheet of Mediclaims, Inc. activity, acting as a control over billings, collections, contractual adjustments, and account write-offs. This can also provide the detail to develop uncollectible and contractual write-off trends, for the City to make estimates for the reserve for uncollectible accounts. This should be done by the accounting department, segregation of duties from the fire department

staff, who generate the EMS tickets, and from the city hall staff who collect payments. Variances and issues need to be addressed on a timely basis. The reserve for uncollectible account should be analyzed and adjusted at the end of each year.

- As an oversight control, the City should do random testing of payments posted to individual accounts by Mediclaims, Inc. This could be for a specified number of days, and tested by City Staff.

Fixed Assets

Issue: Entry of utility and infrastructure fixed assets additions and retirements were not timely entered into the fixed asset accounting system during 2015. There were several variances between the 2014 ending balances in the fixed asset system and the 2014 general ledger.

Recommendation: Fixed assets activity should be analyzed and updated in the fixed asset module close to the end of each year, or early in the following year, to have accurate year end balances in the fixed asset module. Depreciation expense should be posted to the fixed asset system on a monthly basis, to allow for timely retirement of equipment, and accuracy of depreciation related to asset transfers between departments. The control totals in the general ledger should correspond to the fixed asset module at the end of each year.

Payroll

Issue: A rate change was not reflected in GEMS for Kansas Unemployment Tax (SUTA) in 2015. The SUTA expense was under accrued and expenses understated by over \$20,000. Payroll liabilities in the accounting system were not reconciled at the end of each month, to detect this issue and other cash balancing issues during the year.

Recommendation: Payroll/ HR staff should put steps in place to insure all rate changes are implemented into the GEMS payroll system prior to rate enactment. The 801 fund in the accounting system carries control totals for all payroll related liabilities. At the end of each month, these liability balances should be verified for accuracy, and any variances resolved on a timely basis.

Issue: Out of six employees tested, one signed K-4 could not be found to substantiate extra Kansas Withholding.

Recommendation: In the event an employee changes their withholding, HR should have the employee sign a current W-4 and K-4 or a signed payroll master form should be obtained.

Issue: On the six employees tested for recalculation of payroll, we were unable to recalculate the Kansas Withholdings.

Recommendation: Anytime the tax tables are updated in the payroll module, payroll should be tested to ensure accuracy.

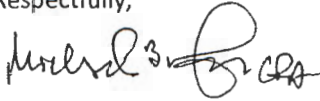

Accounts Payable and Encumbrances

Issue: The contract with Surface Protection Services, LLC for \$64,909.24 (library parking lot improvement) was signed in 2015, but not completed or encumbered at year end.

Recommendation: A review of commission minutes should occur by the Treasurer to watch for projects that may need to be encumbered that are not completed at year end.

Thank you for working with us on the annual audit.

Respectfully,

A handwritten signature in black ink, appearing to read "Michael B. Norton". The signature is fluid and cursive, with a large, stylized "M" and "N".
